According to Article 23c of the National Statistics Act (Official Journal of the Republic of Slovenia, No 45/95 and No 9/01), the Director General of the Statistical Office of the Republic of Slovenia in agreement with the authorised producers determines

THE ANNUAL PROGRAMME OF STATISTICAL SURVEYS for 2007 (applicable from 1 January 2007 to 31 December 2007)

REGULAR AND DEVELOPMENT TASKS

Statistical surveys within the framework of the activities of national statistics are carried out by the Statistical Office of the Republic of Slovenia and authorised producers: the Agency of the RS for Public Legal Records and Related Services, the Bank of Slovenia, the Institute of Public Health of the Republic of Slovenia, the Ministry of Finance, the Pension and Disability Insurance Institute of the Republic of Slovenia and the Health Insurance Institute of the Republic of Slovenia.

The Annual Programme of Statistical Surveys contains a detailed list of statistical surveys carried out in accordance with the act regulating the operation of the national statistics. It is composed of regular and development tasks, arranged into chapters, fields and modules.

Statistical survey:

The statistical survey includes surveys identified by names and is realised not only via primary data collection but also via secondary sources and internal inputs. In addition, it includes also the contents that have no direct survey but are important for the realisation of the statistical programme.

Chapter and field:

Chapter and field represent a rough division of the statistical contents, summarized from the Statistical Requirements Compendium, 2006 and Community Statistical Programme 2003 – 2007[1].

Chapters (denoted with Roman numerals) are: I-Statistical Infrastructure; II-Demographic and Social Statistics; III-Economic Statistics (Macroeconomic Statistics, Business Statistics, Monetary, Financial, Trade and Balance of Payments Statistics); IV-Agriculture, Forestry and Fisheries; V-Multi-Domain Statistics.

Fields (denoted with two–digit consecutive numbers) are: 10-Quality, 11-Classifications, 12-Training of Statisticians, 13-Electronic Data Processing, 14-Information Technologies, etc.

Module:

Module includes grouped contents of statistics, covering one part of policies. It is realised via secondary (registers) and primary sources (statistical surveys) and internal inputs (economy statistics as the input in the national accounts).[2]

As for chapters and fields, division of the contents follows the Statistical Requirements Compendium and the Community Statistical Programme, including the added modules for realisation of specific national interests.

Modules (denoted with three–digit consecutive numbers) are: 111-Classification of Economic Activities (NACE), 112-Classification of products by activity (CPA), 113-Various classifications, etc.

Additional modules covering national interests are related, in terms of the contents, to the summarized modules by their five-digit number.

[1] Decision No 2367/2002/EC of the European Parliament and of the Council of 16 December 2002 on the Community Statistical Programme 2003 to 2007 (Official Journal of the European Communities, Vol. 45, L 358, 31 December 2002)

[2] The result is that, as a rule, a certain survey occurs in several modules. It is recorded in the module covering the major part of the contents.

Task:

Each task is allocated to the corresponding module, the task bearing the name of the authorised producer, consecutive number, name of the task, content, purpose, interval, reference period or day, indication of the person liable to provide data and the stipulated date of data provision, liability to report, work carried out in the current year, deadline of the first publication and setting legal and other bases; the development tasks bear also data on those participating in the realization. [3]

Legal and other bases:

The general legal basis for the implementation of tasks is the National Statistics Act; however, certain tasks include additional legal bases and bases as to their content. In compliance with the mentioned, the tasks are divided into three groups: (i) the tasks in compliance with the regulations/pilot projects; (ii) the tasks agreed upon with different institutions; (iii) the tasks which are or could be subject to »sectoral statistics«.

Mandatory or voluntary data reporting by reporting units:

Voluntary reporting: surveys on persons and/or households, surveys on business trends and surveys on family farms.

Mandatory reporting: surveys stipulated by the law, reports from administrative sources and surveys on companies.

Development tasks:

Development tasks are part of the statistical infrastructure; however, as statistical surveys they are structured equally to the regular tasks of the Annual Programme of Statistical Surveys.

No: 960-455/2006/18
Ljubljana, 4 December 2006

Irena Križman m.p.

DIRECTOR-GENERAL

Statistical Office of the Republic of Slovenia

[3] The Annual Programme for 2007 includes no statistical surveys (tasks) not planned for 2007 (2-yearly, 3-yearly, 5-yearly statistical surveys, etc.) according to the time schedule of their implementation; and surveys covering a period exceeding one year, are carried forward from 2006 – their final results will be published in 2007 or later.

REGULAR TASKS

501	Tourism statistics
502	Statistics of hotels, restaurants and travel agencies
51	**Statistical Business Register**
511	Statistical Business Register
57	**Statistics for business cycle analysis**
571	Business tendency statistics

III.3 MONETARY, FINANCIAL, TRADE AND BALANCE OF PAYMENTS STATISTICS

52	**Money and finance**
521	Euro and statistics
523	Short-term monetary and financial indicators
524	Statistics of government deficit and debt

532	Quality, registers and new indicators
533	Analyses and dissemination
54	**Trade in services and balance of payments**
541	Balance of payments

52991	Public finance balances
53	**Trade in goods**
531	Methodology
543	Direct investments and statistics on foreign affiliates
544	International trade in services and geographic division

IV AGRICULTURE, FORESTRY AND FISHERIES

61	**Land use and rural areas**
611	Land use
62	**Agricultural structures**
621	Farm structure and typology
63	**Agricultural incomes and prices**
631	Economic accounts for agriculture
633	Agricultural prices statistics
64	**Crop production**
641	Crop production statistics
642	Crops supply balance sheets
643	Crops production forecast
644	Wine statistics
645	Fruit statistics
64991	Statistics on the use of intermediate goods and mineral fertilizers in agriculture
65	**Animal production**
651	Animal production statistics
652	Animal products statistics
653	Animal production supply balance sheets
656	Milk and dairy products statistics
67	**Other agricultural statistics**
671	Other agricultural statistics
68	**Forestry statistics**
681	Forestry statistics
682	Economic accounts for forestry
69	**Fisheries statistics**
691	Fisheries statistics

V MULTI-DOMAIN STATISTICS

70	**Sustainable development**
700	Sustainable development
71	**Environment statistics and indicators**
712	Waste and recycling statistics
714	Statistics on water use and on discharges into water
715	Emission statistics
717	Statistics on environmental protection expenditure
718	Periodical reporting
71992	Statistics on damage caused by natural disasters
72	**Regional statistics**
720	Nomenclature of territorial units for statistics (NUTS)
721	Regional accounts
724	Development of regional statistics
725	Urban statistics
726	Regional statistics databases
73	**Science and technology**

REGULAR TASKS

Authorised producer	Cons. Ref. No	Survey name/ designation	Contents	Purpose	Interval	Reference period or day	Person liable to provide data and stipulated time of data provision	Liability to report	Work in the current year	First publication deadline	Legal and other bases
SORS	402.03	GDP by the income method NR-DM/L	GDP income structure (compensations of employees, net taxes on production, gross operating surplus/mixed income).	Compilation of macroeconomic aggregates	Annual	Calendar year	AJPES, BS, MF, MIA, TA, PPA, ISA, HII, MESPE, MAFF, PDII and SORS own sources. All till May 2007.	Mandatory	Preparation and publishing of data	270 days following the observation period	Task subject to regulations/ pilot projects
SORS	402.04	GDP expenditure structure for calculation of GDP at a purchasing power basis NR-KM/L	Weights for calculation of GDP on a purchasing power basis.	Compilation of macroeconomic aggregates	Annual	Calendar year	AJPES, BS, MF, MIA, TA, PPA, ISA, HII, MESPE, MAFF, PDII and SORS own sources. All till May 2007.	Mandatory	Preparation of data.	270 days following the observation period	Task subject to regulations/ pilot projects
SORS	402.05	Other main aggregates of national accounts NR-TA/L	Domestic income, national income, national disposable income, saving, net lending/net borrowing at current prices/real.	Compilation of macroeconomic aggregates	Annual	Calendar year		Mandatory	Preparation and publishing of data	270 days following the observation period	Task subject to regulations/ pilot projects
SORS	402.06	Employment	Employment in accordance with ESA 95 (European System of Accounts).	Compilation of macroeconomic aggregates	Annual	Calendar year		Mandatory	Preparation and publishing of data	270 days following the observation period	Task subject to regulations/ pilot projects
SORS	402.07	VAT Annual Report NR-DDV/L	Statistical basis for VAT weighted arithmetic rate and compensation categories for the weighted arithmetic rate.	Compilation of macroeconomic aggregates	Annual	2006		Mandatory	Preparation of the statistical part of the report.		Task subject to regulations/ pilot projects
SORS	402.08	Annual survey of insurance companies NR-ZO	Data from annual account and other business reports and records of the insurance companies	Monitoring of business operations of insurance companies	Annual	Calendar year	Insurance companies, ISA All no later than 30 June 2007.	Mandatory	Preparation of survey, data collection, processing and analysis.		Task subject to regulations/ pilot projects
SORS	402.09	Statistical survey on non-profit institutions serving households NR-NPISG	Monitoring of the detailed breakdown of revenue and expenditure categories.	Direct compilation of individual categories of non-financial accounts of non-profit institutions serving households	Occasional	Calendar year	Selected non-profit institutions (societies, institutions, political parties, syndicates and other private-law entities). No later than 31 May 2007.	Mandatory	Preparation of survey, data collection, processing and analysis.		Task subject to regulations/ pilot projects

REGULAR TASKS

Authorised producer	Cons. Ref. No	Survey name/ designation	Contents	Purpose	Interval	Reference period or day	Person liable to provide data and stipulated time of data provision	Liability to report	Work in the current year	First publication deadline	Legal and other bases
SORS	402.10	Statistical survey of leasing companies NR-leasing	Gross turnover by type of leasing/sale and by type of lessee/borrower (by activity and by sector); gross turnover of business in cars by type of leasing/sale and by type of lessee/borrower (by activity and by sector); outstanding balance of claims (loans) by sector and by type; income from interests by sector and by type.	Compilation of macroeconomic aggregates	Annual	Calendar year	Registered leasing companies. No later than 31 May 2007.	Mandatory	Data collection, processing and analysis.		Task subject to regulations/ pilot projects
	403	**General government accounts**									
SORS	403.01	General government accounts	Main aggregates of the general government.	Compilation of macroeconomic aggregates.	Twice yearly	Calendar year	MF, AJPES, MD (Ministry of Defence), MIA, PDII, HII, PPA.	Mandatory	Preparation and publishing of data.	90 and 270 days following the observation period.	Task subject to regulations/ pilot projects
SORS	403.02	Taxes and social security contributions	Revenue from taxes and social security contribution by receiving subsectors (general government and rest of the world).	Compilation of macroeconomic aggregates.	Annual	Calendar year	MF, TA, CA (Customs Administration), PDII, HII, PPA	Mandatory	Preparation and publishing of data.	270 days following the observation period.	Task subject to regulations/ pilot projects
SORS	403.03	General government expenditure by function	General government expenditure by function (by COFOG).	Compilation of macroeconomic aggregates.	Annual	Calendar year	MF, TA, PDII, HII, PPA.	Mandatory	Preparation and publishing of data.	360 days following the observation period.	Task subject to regulations/ pilot projects
	404	**Institutional sector accounts**									

REGULAR TASKS

Authorised producer	Cons. Ref. No	Survey name/ designation	Contents	Purpose	Interval	Reference period or day	Person liable to provide data and stipulated time of data provision	Liability to report	Work in the current year	First publication deadline	Legal and other bases
SORS	404.01	Quarterly non-financial sector accounts for the general government and the rest of the world	Quarterly sector accounts according to the Regulation No 1161/2005 on quarterly non-financial accounts by institutional sectors.	Compilation of macroeconomic aggregates.	Quarterly	Quarter	BS, MF	Mandatory	Preparation and publishing of data.	95 days following the observation period.	Task subject to regulations/ pilot projects
SORS	404.02	Statistical survey on dividends NR/DIVID	Dividends paid out in 2000, 2001, 2002, 2003, 2004, 2005 and 2006 by receiving sectors (non-financial corporations, financial corporations, general government, households, non-profit institutions, rest of the world).	Compilation of annual institutional sector accounts.	Annual	Calendar year	Joint-stock companies. No later than 30 May 2007.	Mandatory	Data collection, processing and analysis.		Task subject to regulations/ pilot projects
	405	**Input/output tables**									
SORS	405.01	Supply and use tables	Commodity-flow, supply table, use table, use table for imports, taxes table and margins table.	Compilation of macroeconomic aggregates.	Annual	Calendar year	AJPES, BS, MF, MIA, TA, PPA, ISA, HII, MESPE, MAFF, PDII and SORS own sources.	Mandatory	Preparation and publishing of tables.	36 months following the observation period.	Task subject to regulations/ pilot projects
SORS	405.02	Input-output tables IOT	Symmetric input-output table, symmetric , use table for imports.	Compilation of macroeconomic aggregates.	Annual	Calendar year	AJPES, BS, MF, MIA, TA, PPA, ISA, HII, MESPE, MAFF, PDII and SORS own sources.	Mandatory	Preparation and publishing of tables.	36 months following the observation period.	Task subject to regulations/ pilot projects
	407	**Quarterly accounts**									
SORS	407.01	GDP by the production method NR-PM/ČL	GDP production structure by activities at constant prices.	Compilation of macroeconomic aggregates.	Quarterly	Quarter	AJPES, BS, MF, MIA, TA, PPA, ISA, HII, PDII and SORS own sources. No later than 60 days after the end of the quarter.	Mandatory	Preparation and publishing of data.	70 days following the observation period.	Task subject to regulations/ pilot projects
