

WHAT THE KNOWLEDGE BASE IS

The Census Knowledge Base is a fundamental part of the resource centre for the 2010 World Population and Housing Census Programme. It is a repository of documents relevant for the field of population and housing census taking. This includes international census methodological guidelines as well as documents on best practices in census taking.

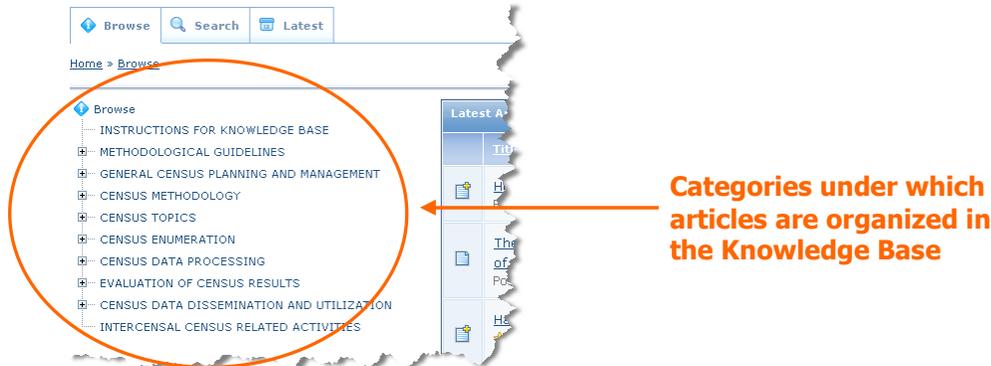

The screenshot shows the 'Census Knowledge Base' website. At the top, there is a navigation bar with 'Home' and 'Search' links. Below this, a 'Welcome Guest (Login)' message is displayed. A main navigation area includes 'Browse', 'Search', and 'Latest' buttons. A sidebar on the left contains a tree view of categories: INSTRUCTIONS FOR KNOWLEDGE BASE, METHODOLOGICAL GUIDELINES, GENERAL CENSUS PLANNING AND MANAGEMENT, CENSUS METHODOLOGY, CENSUS TOPICS, CENSUS ENUMERATION, CENSUS DATA PROCESSING, EVALUATION OF CENSUS RESULTS, CENSUS DATA DISSEMINATION AND UTILIZATION, and INTERCENSAL CENSUS RELATED ACTIVITIES. The main content area is titled 'Latest Articles' and contains a table with columns for 'Title', 'Last Modified', and 'Category'.

HOW THE KNOWLEDGE BASE IS CONSTRUCTED

The database contains articles that give a short description of the document. The actual document is linked to this article as an attachment (usually in pdf format). An example for an article is this "How to Use" manual (a pdf version of this manual is added as attachment). Information in the knowledge base is organized according to main census activity topics including, general planning and management, methodology, topics for data collection, enumeration, data processing, evaluation of results, and data dissemination and utilization. Articles and their attached documents are sorted according to topics based on the United Nations *Principles and Recommendations for Population and Housing Censuses, Revision 2*. Articles can, potentially, be associated with more than one topic.

This image is an annotated version of the website screenshot. An orange circle highlights the category list in the sidebar. An orange arrow points from this circle to a text box on the right that reads: 'Categories under which articles are organized in the Knowledge Base'.

HOW TO USE THE KNOWLEDGE BASE

The knowledge base can be either browsed by topic or searched using full-text searching.

(a) For browsing click the Browse tab and then click through the desired categories and sub-categories listed in the panel on the left.

Browsing articles by categories or sub-categories - here for example articles posted under the sub-category "Register-based census"
