#### Source

All indicators: Compiled by the United Nations Statistics Division from national and international reports (see table 6.E).

#### Definitions

**Physical violence:** An act that inflicts physical harm to the body of a woman.

**Sexual violence:** An act aimed to force the woman to engage in sexual acts against her will (or without her consent).

#### Notes

.. Data not available.

— Magnitude nil or less than 0.5 per cent.

<sup>a</sup> Data refer to ever-married women only.

<sup>b</sup> Data refer to being hit by partner's hand. Not included are shoving, hits with hard objects and attempted strangulation.

<sup>c</sup> Data refer to spousal assault only.

<sup>d</sup> At least one form of violence or threat.

<sup>e</sup> Data refer to current partnership only. The corresponding figure for previous partnership(s) is 45%.

<sup>f</sup> Sexual violence and threatening behaviour. Data refer to current partnership only. The corresponding figure for previous partnership(s) is 17%.

<sup>g</sup> Data refer to three categories of violence that may overlap: rape (5.6%), rape attempt (6.8%) and unwanted kisses or sexual touching (18.0%).

<sup>h</sup> Data refer to England and Wales only.

## Source

All indicators: Compiled by the United Nations Statistics Division from national and international reports (see table 6.E).

## Definitions:

**Physical violence:** An act that inflicts physical harm to the body of a woman.

**Sexual violence:** An act aimed to force the woman to engage in sexual acts against her will (or without her consent).

## Notes

.. Data not available.

**a** Data refer to physical violence only.

**b** Data refer to the age group 30–39.

**c** Data refer to the age group 40–49.

**d** Data refer to the age group 15–24.

**e** Data refer to the age group 25–34.

**f** Data refer to the age group 35–44.

**g** Data refer to violence by current partner only.

**h** Data refer to violence by current or most recent partner.

**i** Data refer to spousal assault only.

**j** Data refer to the last five year only.

**k** Data refer to the age group 18–24.

**l** Data refer to the age group 45–59.

**m** Data refer to England and Wales only.

**n** Includes non-physical abuse (emotional, financial), threats, force, sexual assault or stalking.

## Sources

All indicators: UNICEF, *Female genital Mutilation/Cutting – A Statistical Exploration*, 2005; and Population Reference Bureau, *Female Genital Mutilation/Cutting: Data and Trends*, 2008. Both compilations have the DHS and MICS as their primary sources.

## Definition

**Female genital mutilation/cutting (FGM/C):** Any procedure involving the partial or total removal of the external female genitalia or other injury to the female genital organs for non-therapeutic reasons.

## Notes

.. Data not available.

— Magnitude nil or less than half of unit employed.

<sup>a</sup> Data from Population Reference Bureau, *Female Genital Mutilation/Cutting: Data and Trends*, 2008.

<sup>b</sup> Data for 2001 for Mali includes the district of Kidal, which was excluded in the 1996 DHS. This has increased the proportion of circumcised women from 9.3% in the districts of Tombouctou/Gao to 33.6% in Tombouctou/Gao/Kidal.

<sup>c</sup> Data for Senegal (2005) are preliminary.

<sup>d</sup> Data refer to the northern part of the country.
