DEMOGRAPHIC YEARBOOK
POPULATION CENSUS QUESTIONNAIRE ON HOUSEHOLD CHARACTERISTICS

Sample

The purpose of this questionnaire is to collect, in a uniform manner, census data on households and household population, for inclusion in the United Nations Demographic Yearbook and other statistical publications and technical studies of the United Nations. Tabulations requested in by this questionnaire are in agreement with the Principles and Recommendations for Population and Housing Censuses, Revision 1 (United Nations publication, sales no.E.98.XVII.8). It should be noted that this questionnaire requests enumerated census data (not estimates) and will therefore be sent to countries only when it is known that they have completed a population census.

Please note that the questionnaire consists of two sections: (I) Households and household population, general statistics (table 1-6), and (II) Statistics on living arrangements (tables 7-9).

SECTION I. HOUSEHOLDS AND HOUSEHOLD POPULATION, GENERAL STATISTICS

INSTRUCTIONS

A. General instructions

1. Before starting to fill the tables, please read these instructions carefully.
2. In filling in the questionnaire, the following procedures are suggested:
 - a. Give all figure unrounded, i.e. to the last digit rather than rounded to the nearest tens of thousands.
 - b. Use the following symbols
 - when figure is 0
 - ... when data are not available
 - * when data are preliminary or provisional
 - c. Compare all tables to ensure that the figures for identical items agree. If there are differences between tables, explain in notes.
3. The data supplied should relate to the most recent census of population for which tabulations are available. Please provide the date of the census in the space indicated in each table. If some of the tabulation asked for are not yet available, please specify on the respective table the approximate data for the completion of such tabulations.
4. If it is not possible to supply figures classified or defined exactly as indicated in the tables, please provide the nearest available data, making the necessary alterations in column headings or stubs (please indicate these changes by using different colour). Also, make liberal use of notes to explain special characteristics of the data or discrepancies with respect to categories specified in the tables. Do not hesitate inserting as many rows as needed for this purpose.
5. Where the unit of analysis and tabulation is the family rather than household, please provide the requested tabulations with reference to the family and clearly note the fact for each tabulation.
6. All population statistics should agree with the total number of households shown in table 2. If there are disagreements, please explain fully in footnotes.
7. If data are based on a sample of population, please indicate in the table and explain fully in the footnotes.
8. In tables showing distributions by age, the age definition desired is "age at last birthday" or completed years. If age definition is not age at last birthday but is given in other terms (such as age at nearest birthday, age at next birthday or difference between year of birth and year of census), please explain definition for each table.
9. Please provide below the definition of household and/or family as used in the census:
10. Please specify whether the question in the census refers to:
 - (a) household head _____, or
 - (b) reference member of household _____,and please provide below the definition of head of household or method of identification:
11. Please note that the unit of tabulation in table 1 and 5 is **population**, and that the unit of tabulation in tables 2,3,4 and 6 is **households**.
12. Finally, please supply the relevant publications on household characteristics, if available.
13. On separate sheets, please provide similar tabulations to tables 1 to 6 by urban/rural residence, if possible.

SECTION II. STATISTICS ON LIVING ARRANGEMENTS

INSTRUCTIONS

This section consists of three tables requesting data on living arrangements. Please apply general rules as presented at the beginning of the questionnaire. Also, please confirm that the definitions of household and head of household or reference member of household that you provided in items 9 and 10 above, at the beginning of the questionnaire, apply to the following tables as well;

Yes, they are the same _____,

No, they are listed below:

Please provide answers to the following questions related to household composition:

1. What characteristics are used to classify households composition:

- | | | |
|--|------|-----|
| (a) Relationship among members | Yes: | No: |
| (b) Number of generations | Yes: | No: |
| (c) Presence or absence of children | Yes: | No: |
| (d) Presence of other population group, e.g. | | |
| - elderly persons | Yes: | No: |
| - disabled persons | Yes: | No: |
| - economically active persons | Yes: | No: |
| - retired persons | Yes: | No: |
| - ... (please enter) | Yes: | No: |
| - ... (please enter) | Yes: | No: |
| - ... (please enter) | Yes: | No: |
| (e) Other | Yes: | No: |

2. Family structure

According to the United Nations *Principles and Recommendations for Population and Housing*

Censuses, Revision 1, para 2.78, a family nucleus consists of one of the following types (each of which must consist of persons living in the same household):

- (a) Married couple without children;
- (b) Married couple with one or more unmarried children;
- (c) Father with one or more unmarried children;
- (d) Mother with one or more unmarried children;

Couples living in consensual unions should be regarded as married couples.

If family structure is not based on a family nucleus, please provide below the definition:

Note: Please note that the unit of tabulation is population.

a/ Including one person households.

b/ Institutional population and population living in collective households includes persons living in military installations, correctional and penal institutions, dormitories of schools and universities, religious institutions, hospitals, etc.

If the census definitions differs, please provide it below:

c/ Included are homeless persons belonging to homeless households, defined as: Homeless households are those households without a shelter that would fall within the scope of living quarters. They carry their few possessions with them, sleeping in the streets, in doorways or on piers, or in any other space, on a more or less random basis (Principles and Recommendations for Population and Housing Censuses, Rev.1, E.98.XVII.8).

d/ If data on homeless population are included elsewhere, please indicate.

Notes:

- The unit of tabulation in this table is a household.
- If detailed classification is not available, please give whatever figures are available.
- If total differs from figures in table 2, please explain reason for discrepancies:
- Types of household are defined as follows:
 - Nuclear households: consisting entirely of a single family nucleus.
 - Extended households: consisting of (i) single family nucleus and related individuals; (ii) two or more family nuclei related to each other, with or without any additional persons related to one of them; (iii) two or more persons related to each other, but none of whom comprises a family nucleus.
 - Composite households (composed of extended households plus at least one person not related to any of the other members of the household), consisting of either: (i) single family nucleus and other individuals, at least some of which are not related to family nucleus; (ii) two or more family nuclei related to each other, with at least one person not related to any of them.
 - Other reference member.
