**GENERAL NOTES - NOTES GENERALES**

Late foetal deaths are deaths of fetuses of 28 or more completed weeks of gestation. Data include foetal deaths of unknown gestational age. Ratios are the number of late foetal deaths per 1 000 live births. Ratios are shown only for countries or areas having at least a total of 1 000 late foetal deaths in a given year. For definitions of 'urban', see end of Technical Notes for table 6. For method of evaluation and limitations of data, see Technical Notes for this table. — Les morts foetales tardives sont celles qui surviennent après 28 semaines complètes de gestation au moins. Les données comprennent les morts foetales survenues après une période de gestation de durée inconnue. Les rapports représentent le nombre de morts foetales tardives pour 1 000 naissances vivantes. Les rapports présentés ne se rapportent qu'aux pays ou zones où l'on enregistré un total d'au moins 1 000 morts foetales tardives dans une année donnée. Pour les définitions des 'régions urbaines', se reporter à la fin des Notes techniques du tableau 6. Pour la méthode d'évaluation et les insuffisances des données, voir Notes techniques, pour ce tableau.
