

**United Nations Statistics Division: Demographic Yearbook  
Questionnaire on Population Estimates  
Part 1. Data**

**Taka-Tuka-Land**

**Reporting Year: 2008**

For assistance with this questionnaire, please contact:

Mr. Jean-Michel Durr  
Chief  
Demographic Statistics Section  
Statistics Division  
United Nations

E-mail: [dybquest@un.org](mailto:dybquest@un.org)  
Telephone: 1-917-367-9165  
Facsimile: 1-212-963-1940

## General instructions for completing the questionnaire

### Data

1. Give all figures unrounded in units rather than thousands.
2. Use the following symbols in the tables:  
  
    **0** when figure is zero  
    **leave blank** when data are not available or category is not applicable (provide details in the notes box)
3. Provide the reference date in the appropriate box on top of each table. If a table consists of various subtables please provide the date on all worksheets for all subtables.
4. If figures are unavailable or not yet available for a table please indicate this in the **notes box** provided after each table. Data referring to midyear (1 July) are preferred. If your data do not refer to mid-year please indicate this in the notes box provided after each table. If your data is provisional please also indicate this in the notes box. Data for de facto population / present population are preferred over data for de jure / resident population.
5. The most recent official figures and any footnotes attached to them available in the files of the United Nations Statistics Division are presented for each table for your review. Provisional data or data of uncertain reliability are set in italics. Please verify these data and if necessary provide revised figures in separate files.
6. If it is not possible to supply figures classified or defined exactly as indicated in the tables, please give such data as are available and explain the differences in the notes box provided after each table. For tables 2 and 4 in particular, you can provide a different age structure by changing the provided age classes in the left column entitled "Age" following the format provided. Please note that "+" represents an open age class. For example: "10 to 14 years" needs to be noted as "10 - 14", "less than 5 years" needs to be noted as "0 - 4" and "15 years and over" needs to be noted as "15+".

7. Please explain any special characteristics of the data in the **notes box** provided after each table. Please make the explanations as detailed as necessary to enable proper interpretation of the figures and valid international comparison.

### **Metadata**

8. A metadata questionnaire entitled "**Part 2. Description of estimates**" is provided as a separate file. Please provide information that best describes the data, e.g. on the inclusion or exclusion of relevant groups of the population and on the methodology applied for deriving the estimates.

<b>FOR UNSD USE ONLY</b>			
Desk Officer <input style="width: 150px; height: 20px;" type="text"/>			
Table No	Import Table	Series No	Comment
0	Yes		
1	Yes		
2a	Yes	0	
2b	Yes	0	
3	Yes	0	
3.1	Yes	0	
4a	Yes	0	
4b	Yes	0	

## List of tables

Table 0: Surface area (in square kilometers)

Table 1: Estimated population by sex and urban/rural residence as of 1 July (annual average)

Table 2a: Estimated population by five year age groups, sex and urban/rural residence as of midyear

Table 2b: Estimated population by single years of age, sex and urban/rural residence as of midyear

Table 3: Estimated population of the capital city and cities of 100 000 or more inhabitants as of midyear

Table 3.1 - Additional data: Estimated population of the capital city and cities of 100 000 or more inhabitants as of midyear

Table 4a: Estimated population by marital status, age and sex as of midyear: Male

Table 4b: Estimated population by marital status, age and sex as of midyear: Female

Table 0: Surface area (in square kilometers)

Year	Total surface area	Land area	Inland water	UNSD USE ONLY: Series No
------	--------------------	-----------	--------------	-----------------------------

NEW OR REVISED FIGURES (see below for data on our files)

2003				
2004				
2005				
2006				
2007				

a. Comprising land and inland waters; excluding polar regions, uninhabited islands and coastal waters.
