Please provide the address of your website where we can access materials describing your country practices in economic census:

Question 9

If you do not conduct an economic census, how is the compilation of the basic information about economic units organized in your country?

> Although we don't conduct an economic census, we conduct an Industrial Census and a Census on Service Industry respectively. In case of industrial census, it is conducted every five years ending in 3 and 8 since 1973, and in case of census on service industry, also had conducted every five years ending in 1 and 6 since 1968, but in 2006, we conducted Census on Service Industry ending in 0 and 5. Consequently, we compile the basic information about economic units by using the result of Industrial Census and of census on service industry
