## Global Consultation Comment Form

### Revised SEEA Chapter 1 - 6

Deadline for responses: 7 December 2011

Send responses to: [seea@un.org](mailto:seea@un.org)

Your name:	SLAMET SUTOMO
Your country/organization:	BPS-STATISTICS INDONESIA
Contact (e.g. email address):	sutomo@bps.go.id

To submit responses please save this document and send it as an attachment to the following e-mail address: [seea@un.org](mailto:seea@un.org).

The comment form has been designed to facilitate the analysis of comments. In Part I general comments on the general style, content and coverage of the chapter are sought. In Part II any technical and other comments should be included.

#### Relevant documents

Before submitting responses you are encouraged to read the accompanying papers available on the website.

*Revision of the SEEA: Draft Version for Second Round of Global Consultation, October 2011 – Chapters 1 – 6*

*Reading guide for the SEEA Revision Second Round of Global Consultation*

*Supporting material for selected classifications and lists in the revised SEEA*

## Part I: General comments

This is the first global consultation based on the complete set of chapters for the SEEA Central Framework. In this section please provide general comments on the drafts chapters. You may like to consider providing comments on the style and tone, the content and coverage, and the general accessibility of the material.

General comments, I suggest that:

1. After the cover, there is a page of table of contents explaining the whole chapters of the SEEA and the pages of each chapter.
2. After the table of contents, there is a page to overview the SEEA and a reader's guide to the SEEA Conceptual Framework. This is to move paragraph 1.6 to become specific paragraph of the mentioned table of contents.
3. Therefore, the structure will be:
  - a. Cover
  - b. Table of contents:
    - Chapter 1: Introduction; pages 1-25
    - Chapter 2: Accounting framework; pages 26-58
    - Chapter 3: Physical flow accounts; pages 59-115
    - Chapter 4: Monetary flow accounts; pages 120-165
    - Chapter 5: Assets accounts; pages 166-288
    - Chapter 6: Integrating and presenting the accounts; pages 289-323
  - c. Overview of the SEEA
  - d. Reader's guide to the SEEA Conceptual Framework

These suggestion is aimed to make easy for readers, for example to grasp the whole coverage of the SEEA Framework and the related pages where he/she should go further for details.

## Part II: Technical and other comments

In the box below please supply any additional comments including those of a more technical nature. As this is the first consultation where the complete 6 chapters have been released, comments on the consistency of the technical content across the chapters would be appreciated.

Please reference your responses with the relevant paragraph number or section number.

All contents/chapters is OK; however it seems necessary to have an indicator or a compound indicator to realize that an economy is in a warning situation; how a country may realize that its economy is already in danger from the view of environmental issue; how a country may understand that its 'green' economic growth is actually less than the 'brown' economic growth (GDP after being deducted from depletion and degradation). This may relate to the subchapter 1.2: policy relevant and uses of the SEEA, and the chapter 6: integrating and presenting the accounts.
