The comment form has been designed to facilitate the analysis of comments. In Part I general comments on the general style, content and coverage of the chapter are sought. In Part II any technical and other comments should be included.

#### **Relevant documents**

Before submitting responses you are encouraged to read the accompanying papers available on the website.

*Revision of the SEEA: Draft Version for Second Round of Global Consultation, October 2011 – Chapters 1 – 6*

*Reading guide for the SEEA Revision Second Round of Global Consultation*

*Supporting material for selected classifications and lists in the revised SEEA*

**Part I: General comments**

This is the first global consultation based on the complete set of chapters for the SEEA Central Framework. In this section please provide general comments on the drafts chapters. You may like to consider providing comments on the style and tone, the content and coverage, and the general accessibility of the material.

1. It is suggested that a separate part entitled "Overview" be developed to present summary of all the chapters in simple wording so that it can be understandable for users of national accounts or organizations providing the information needed for these accounts, and also it can be understood by people outside of this system.

2. There is some incoordination in some parts of the text, e.g. in some paragraphs there is a space between the number of paragraph and the text, however such a space does not exist in others. In some paragraphs, the No. of Paragraph has fallen inside the text and is not clear. Moreover, the lines are not justified. It is better that the text be controlled and checked in view of typing.

**Part II: Technical and other comments**

In the box below please supply any additional comments including those of a more technical nature. As this is the first consultation where the complete 6 chapters have been released, comments on the consistency of the technical content across the chapters would be appreciated.

Please reference your responses with the relevant paragraph number or section number.

We have already sent our comments on technical issues.
