

# MOVING FORWARD ON GENDER STATISTICS

Number of countries

Yet national capacity for producing gender statistics needs to be strengthened in many areas

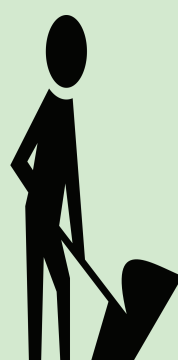

Number of countries with data since 2005

Moving forward, we need to ...

make better use of data on:

- Migration by reasons for migration
- Poverty by characteristics of household members and type of household
- Employment by detailed categories of occupation
- Time spent on detailed categories of activities

develop methodology on:

- Quality of education
- Gender pay gap
- Poverty at individual level
- Women's representation in local government
- Social protection
- Health care coverage
