

Meeting on Scaling up the coordination and resources for the implementation of the SNA, 28-29 May 2013, Luxembourg

Participants to discuss their country practises based on the following questions:

- What are the main national policy challenges and the implications for the scope and detail of the accounts and supporting statistics?
- What are the requirements (such as need for new source data: required periodicity and timeliness; adjustments to business registers and surveys; and institutional arrangements) to improve the scope, detail and quality of the national accounts as required by the main national policy challenges?
- What are the main statistical actions by priorities based on a gradual and phased of the implementation of the SNA?
- What support is required for the implementation of the SNA?
