Subject Comments on Volume 1 of the updated SNA 93

Dear Mr Havinga,

We have no further comments to the chapters in Volume 1 of the updated SNA 93.

Concerning the name of the revised SNA, our preference is to keep the original recommended name of the update, **System of National Accounts 1993, Revision 1**. The whole basis for the revision was that all basic principles of the SNA 93 should be kept unchanged. The update is not a fundamental revision of the system.

Best regards
