

Item 4 (I) "International statistical classifications"

Intervention by Cambodia

Thank you Mr. Chair,

Cambodia appreciates the work and the content of Implementation Statistics Classification.

The use of the classification that not only within the National Statistics office but also across national 2 institutions and organizations will help better compilation and use of administrative statistics.

For this reason, we appreciate development partners that are assisting various institution and organization in the country such as department of Custom, department of Taxation, the Business Register department etc. To help promote the use of the International Statistical Classification.

National Institute of Statistics, while requiring further capacity building in this area, has been extending our support on request to other institutions on the use of the classifications.
