

Lithuania

3(g) International trade and economic globalization statistics;

Lithuania supports the development of the system of extended international and global accounts and considers that the development of handbook on the system could be of great use; thus, we support the establishment of the UN Experts Group to focus on various aspects.

We also agree with the priorities for the programme of work, which will assist in reaching higher quality of statistics.

Lastly, we express our support regarding the establishment of the inter-secretariat working group.
