

**Who trades services across the Austrian border?**  
Providing structural information on basis of micro data

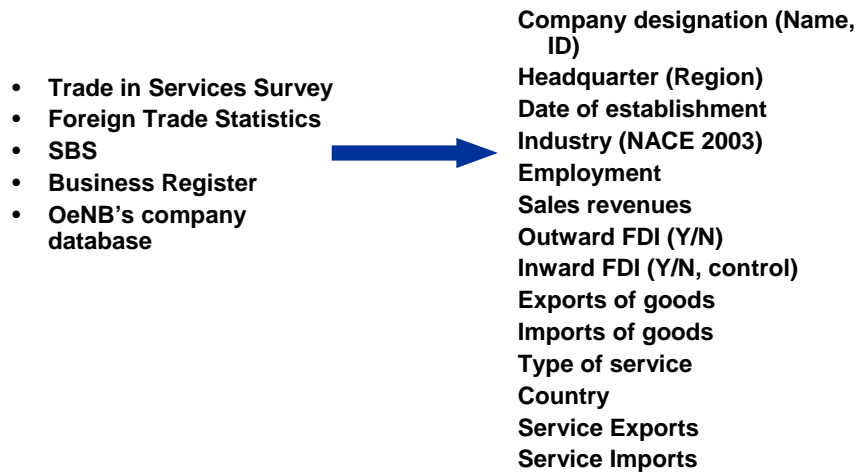

Regional Seminar on ITS  
24-26 October, Beijing, China

Ronald Jansen

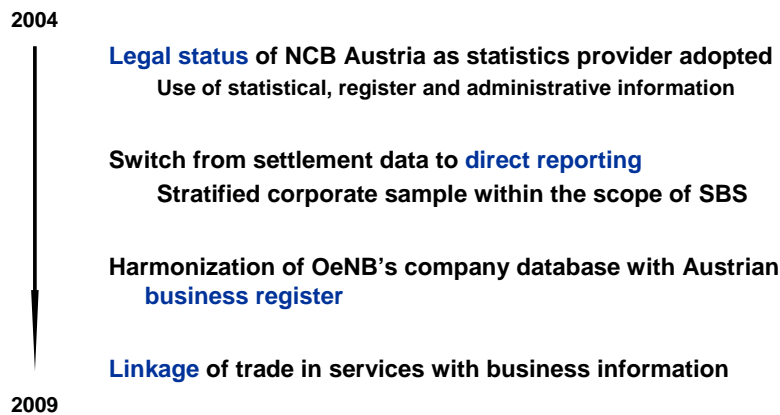

**2009, NCB Austria published completely new data and analysis on cross-border trade in services**

- Trade in services by industry
- Enterprise concentration of trade in services
- Correlation of trade in services revenues with total sales
- Regional breakdown of trade in services
- Trade in services broken down by company size
- Trade in services broken down by inward and outward FDI
- Correlation of trade in goods with trade in services

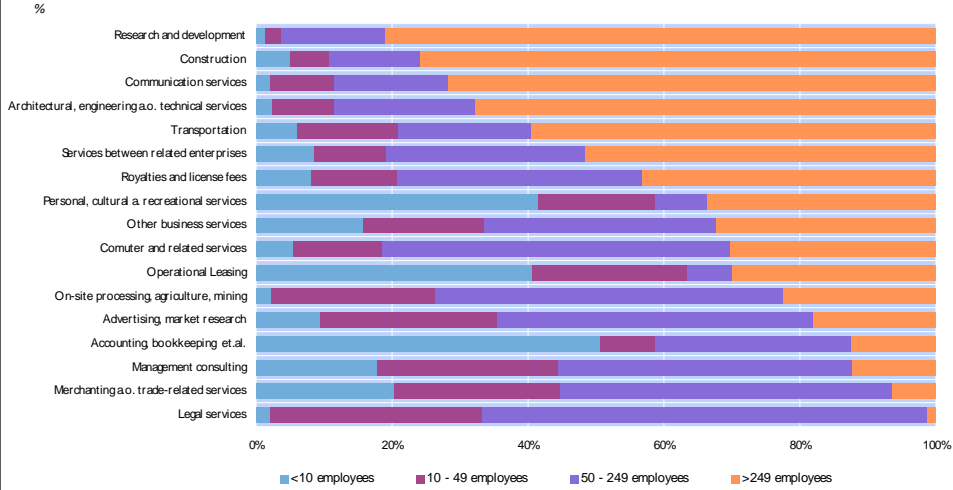

**No costs for respondents by linking different data sources to obtain 14 variables per company**

**Stepwise approach**

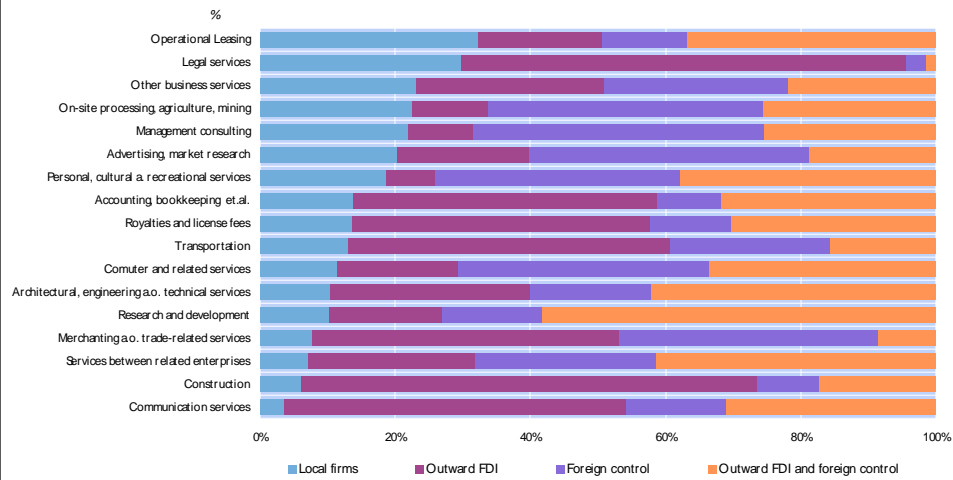

**Link between Exports and Enterprise Size (Staff) by Service Category 2008**

Source: OeNB, Statistics Austria.

**Export by Local and Group Companies broken down by Service Categories 2008**

Quelle: Source: OeNB, Statistics Austria
