

# **Addressing Land Administration and Management Opportunities: A Land Locked Country's Perspective**

# KAZAKHSTAN

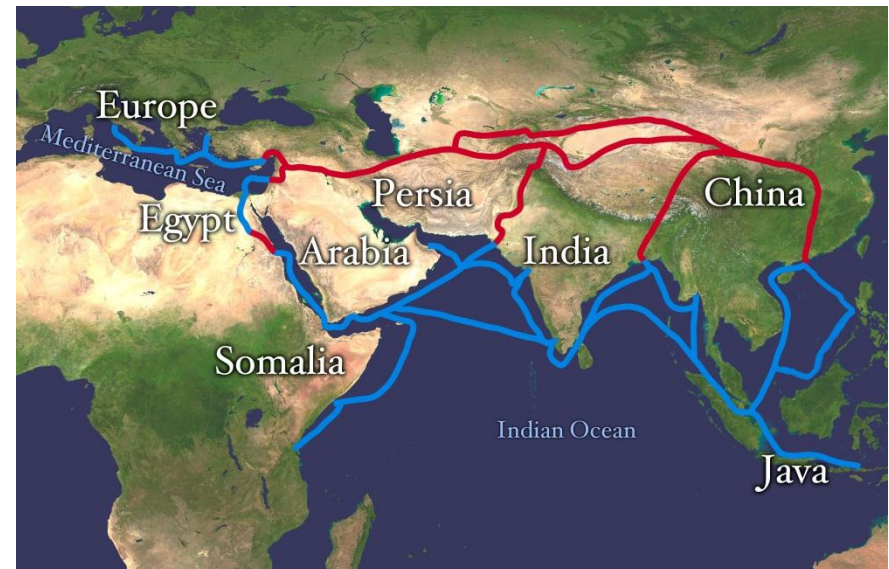

**Kazakhstan**  
Land Locked Country

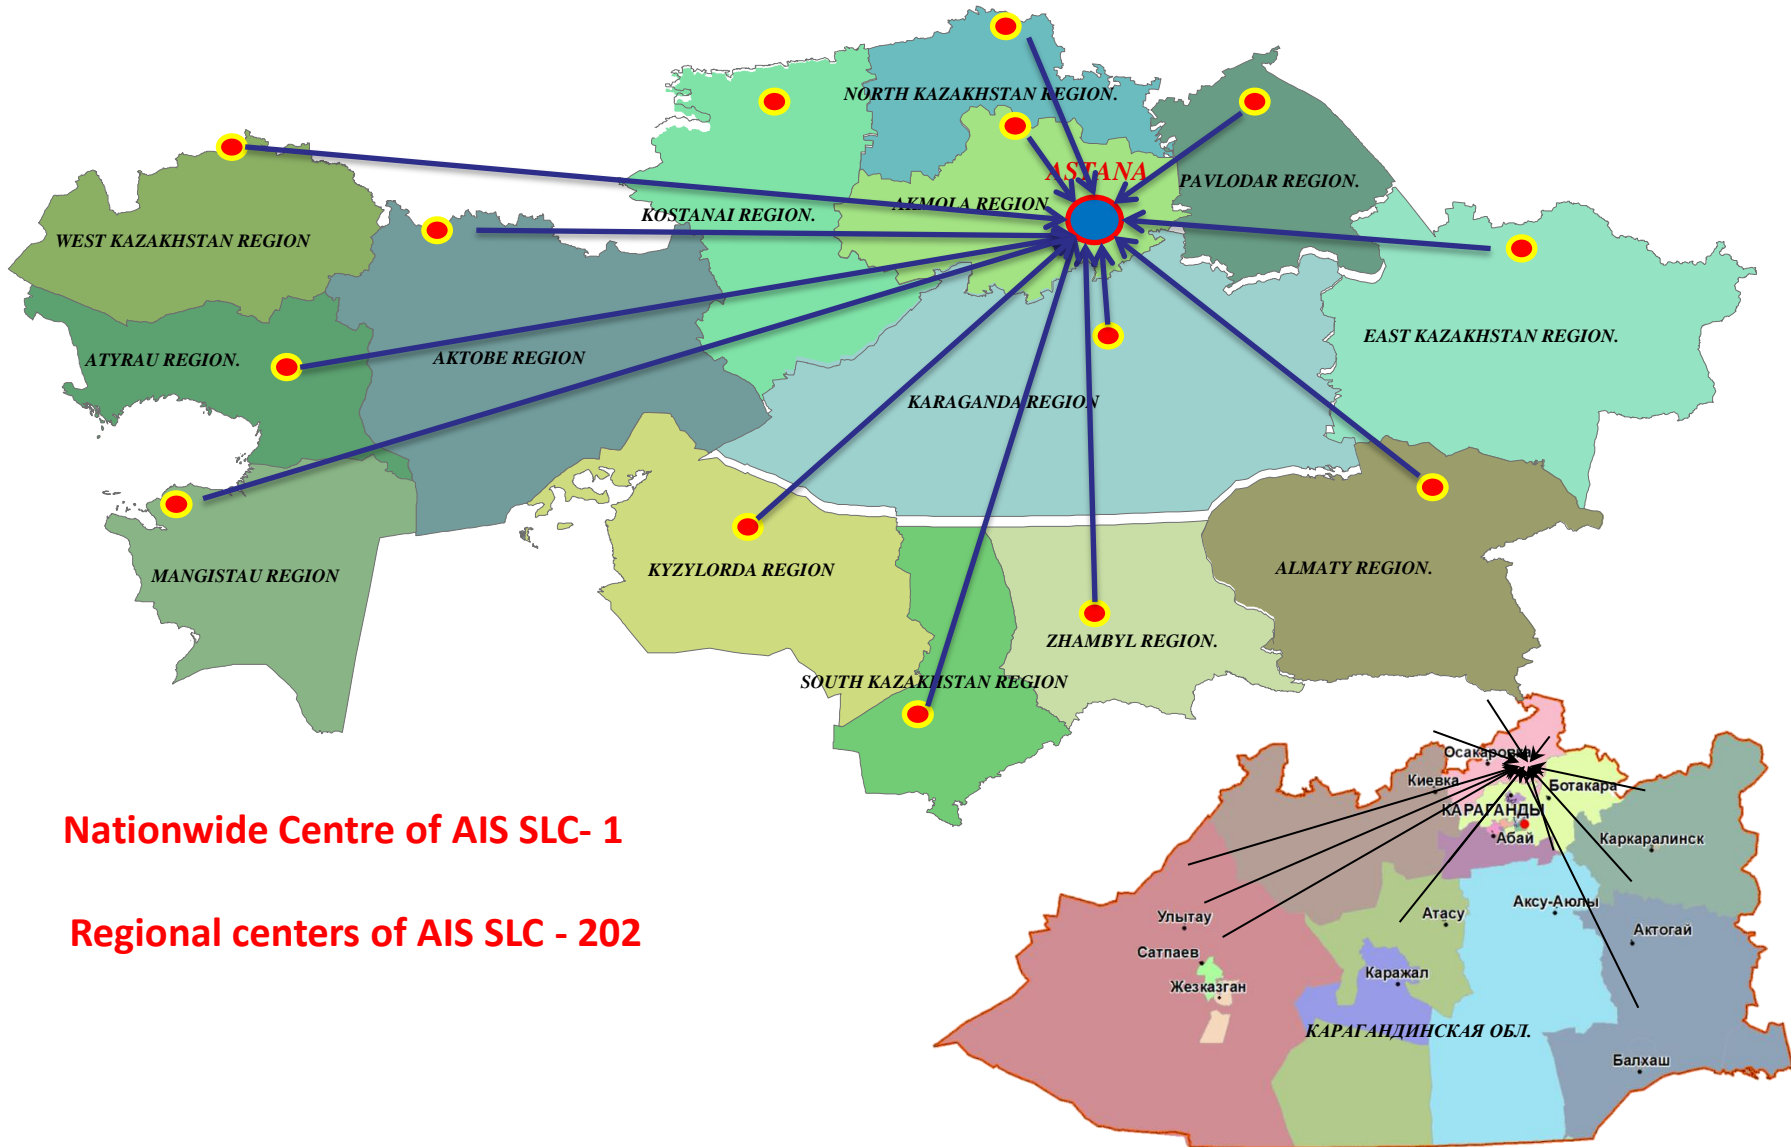

**Area** 2,724,900 km<sup>2</sup>

**Population** 17,500,000

**GDP (nominal)** 232.4 \$ billion

# Organizational structure of AIS State Land Cadaster Maintenance

# Information basis for the Land Cadaster

<b>Customer</b>	First name, last name (name of company)
	Date of birth (incorporation)
	Registration address
	Identity documents
	IIN/BIN

<b>Land parcel</b>	Cadaster number		
	Address (location)		
	Floor area		
	Designation purpose		
	Land category		
	Cadaster (evaluated) cost		
	Limitations and encumbrances		
	Registered title	Decision to grant the title	
		State Act (identification document)	
		Expiry date (for rent)

# High-accuracy satellite navigation system of the Republic of Kazakhstan (HSNS RK)

HSNS RK – automated system of GLONASS, NAVSTAR and GALILEO global navigation satellite augmentation systems is designed to form the conditions of guaranteed quality coordinate-time and navigation services to be obtained by consumers of GNSS information in the territory of the Republic of Kazakhstan

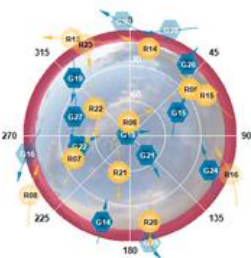

Differential stations network (DS)

Conformity assessment laboratory of satellite navigation (CAL)

Differential correction and monitoring center (DCMC)

	G19	G21	G22	G24	G26	G27	R05	R06	R07	R14	R15	R20	R21	R22

316	141	257	114	39	288	53	359	246	13	63	167	195	308	

Marine local differential station (MLDS)

Mobile differential station (MDS)

Pilot manufacturing of navigation equipment (PM)

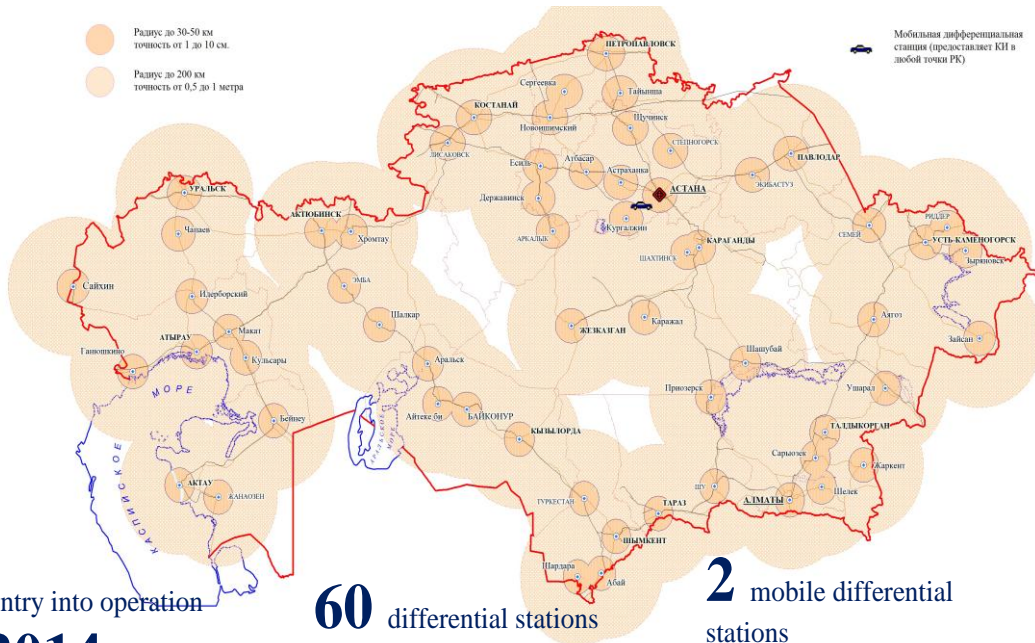

# USE OF SPACE TECHNOLOGY

## Differential station of HSNS RK

- Radius до 50-50 км  
точность от 1 до 10 см.
- Radius до 200 км  
точность от 0,5 до 1 метра

Entry into operation  
**2014** year

**60** differential stations

**2** mobile differential stations

## The resulting accuracy of coordinates

1 m in real-time for **94 %** of the territory of RK  
2 cm in real-time for **18 %** of the territory of RK  
< 1 cm in postprocessed mode

## Marine differential station of HSNS RK

2 m positioning accuracy of the sea  
1 m positioning accuracy in the coastal zone

# Earth remote sensing cosmic system of the Republic of Kazakhstan

## KazGeoSat-1

Spatial resolution: **1m**  
Imagery mode: Panchromatic,  
Multispectral  
Scene size: **20 x 20 km**  
Imagery frequency: **3 to 5  
days**  
Productivity **220 000 sq.km  
per day**

## KazGeoSat-2

Spatial resolution: **6.5m**  
Imagery mode:  
Multispectral  
Scene size: **77 x 77 km**  
Imagery frequency: **3 to 5  
days**  
Productivity **1 000 000 sq.km  
per day**

# Current Situation

According to Committee for Construction, Housing & Utilities Sector and Land Resource Management, nearly

**80% maps are inconsistent with actual status of local area and with toponymy**

- **No uniform formats** of maps and the coordinates systems to be used; no interchange of maps.
- **Duplication of works** (costs) for creation of identical maps by different agencies

According to Kazakh Research Institute for Construction & Architecture, town-planning cadasters with digital maps were created in only 8 cities of 86.

In Kazakhstan, there are altogether 223 cities/towns and townships, and also 6936 rural localities.

Services based on maps have hardly been automated (land, Housing & Utilities Sector, architecture, etc.)

## Doing Business

# Integration of existing systems

## Collecting and recording

### NGIS stores:

- Vector maps (reference ones)
- Metadata
- Minimum set of data
- Sets of tiles

### Departmental systems:

- Full set of data
- Documentation on the sites
- Raster materials
- Non-normalized vector maps
- Archival and historical data
- Other departmental materials

# INTERDEPARTMENTAL COOPERATION

## As it is

## How to

The screenshot shows the e.gov portal interface. At the top, there are navigation tabs: Законодательство, Электронное лицензирование, Кабинет налогоплательщика, and Гражданин и правительство. The main header includes the e.gov logo and the text "ГОСУДАРСТВЕННЫЕ УСЛУГИ И ИНФОРМАЦИЯ ОНЛАЙН". A search bar is present with the text "Поиск по portalу" and an example "Например: Абрская ставка". A contact center number "1414 8-800-080-7777" is displayed. Below the header, there are navigation links: Главная, Сведения, Новизинность, and Земельные отношения. A "Помощь" button is also visible. The main content area features a section for "АВТОМАТИЗИРОВАННАЯ УСЛУГА" titled "Оформление и регистрация земельного участка на территории населенных пунктов". A "Заказать услугу онлайн" button is prominently displayed. To the right of the text is a map of a region with a highlighted area. Below the map, there is a sidebar with details: "Государственный орган: Министерство регионального развития РК", "Получатели услуги: Граждане РК, индивидуальные предприниматели, юридические лица и их представители", "Место предоставления услуги: Портал www.e.gov.kz", and "Стоимость услуги: стоимость за кадастровые работы согласно смете".
