

LEVERAGING E-CADASTRE FOR NATIONAL ECONOMIC TRANSFORMATION

*Sr Dr Teng Chee Hua
Cadastral Division, JUPEM
Malaysia*

INTRODUCTION

Malaysia has progressed from an economy dependant on agriculture and primary commodities to a manufacturing based, export driven economy.

To move the country forward the Government has crafted a framework comprising four (4) pillars to drive the change

VISION 2020

Aspiring to Achieve Developed and High-income Nation Status

Benefits of Cadastral & Land Survey to the nation

Guarantees an indefeasible title to those included in the register

Conclusive proof that the person mentioned in Title is the owner of the land

Reduces disputes and confirm quality by survey and demarcation

Lowering the risk of investment

Facilitate development of new township

Increase business and investment

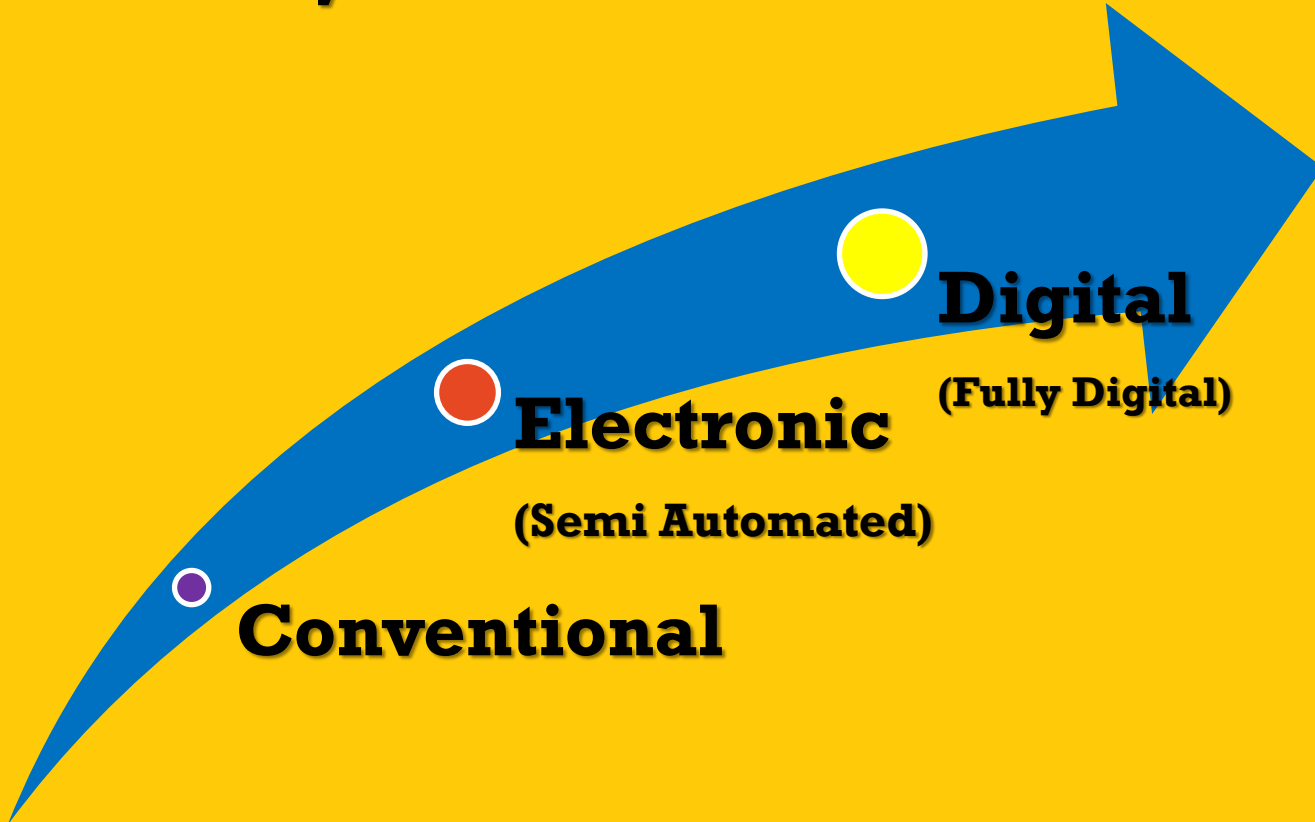

The Cadastral Survey Reform

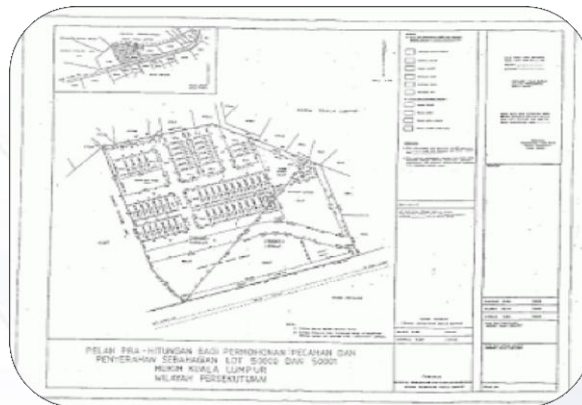

The System Reformation

Objective Reformation: Expediting Cadastral Services

Qualified Titles

- Introduced in 1965
- To cater Cadastral Survey rising demands
- Issuance of title in advance of final survey
- Supports vibrant land market
- Instigating more land ownership units (QT) than surveyed land parcels (FT)

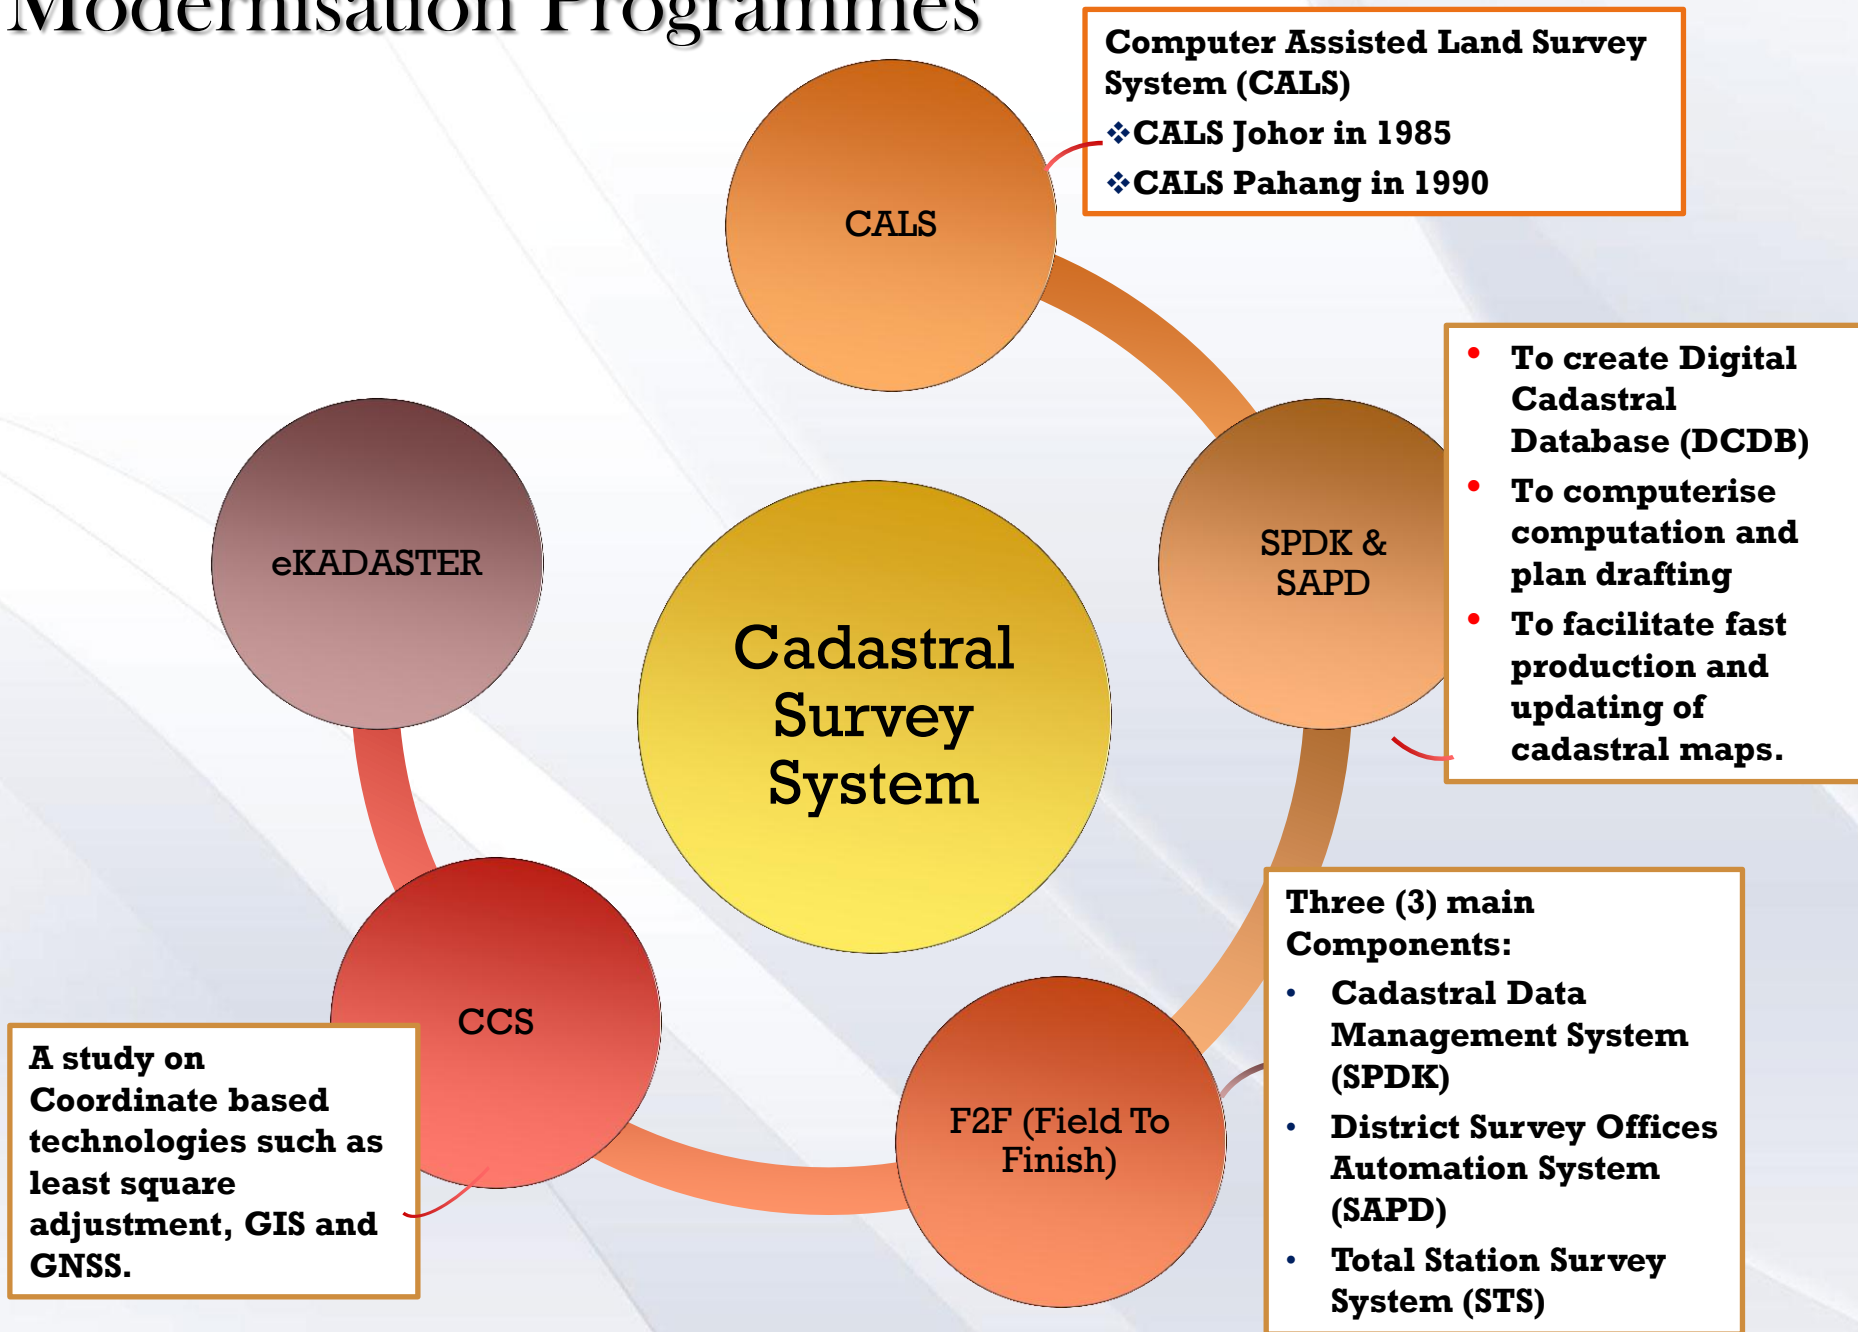

Pre Comp Plans

- Under NLC, Pre Comp Plans is prepared to show the intended new boundaries and areas of those lots which are based on computation from existing survey
- Promote Land development planning, land dealings and prevent encroachment

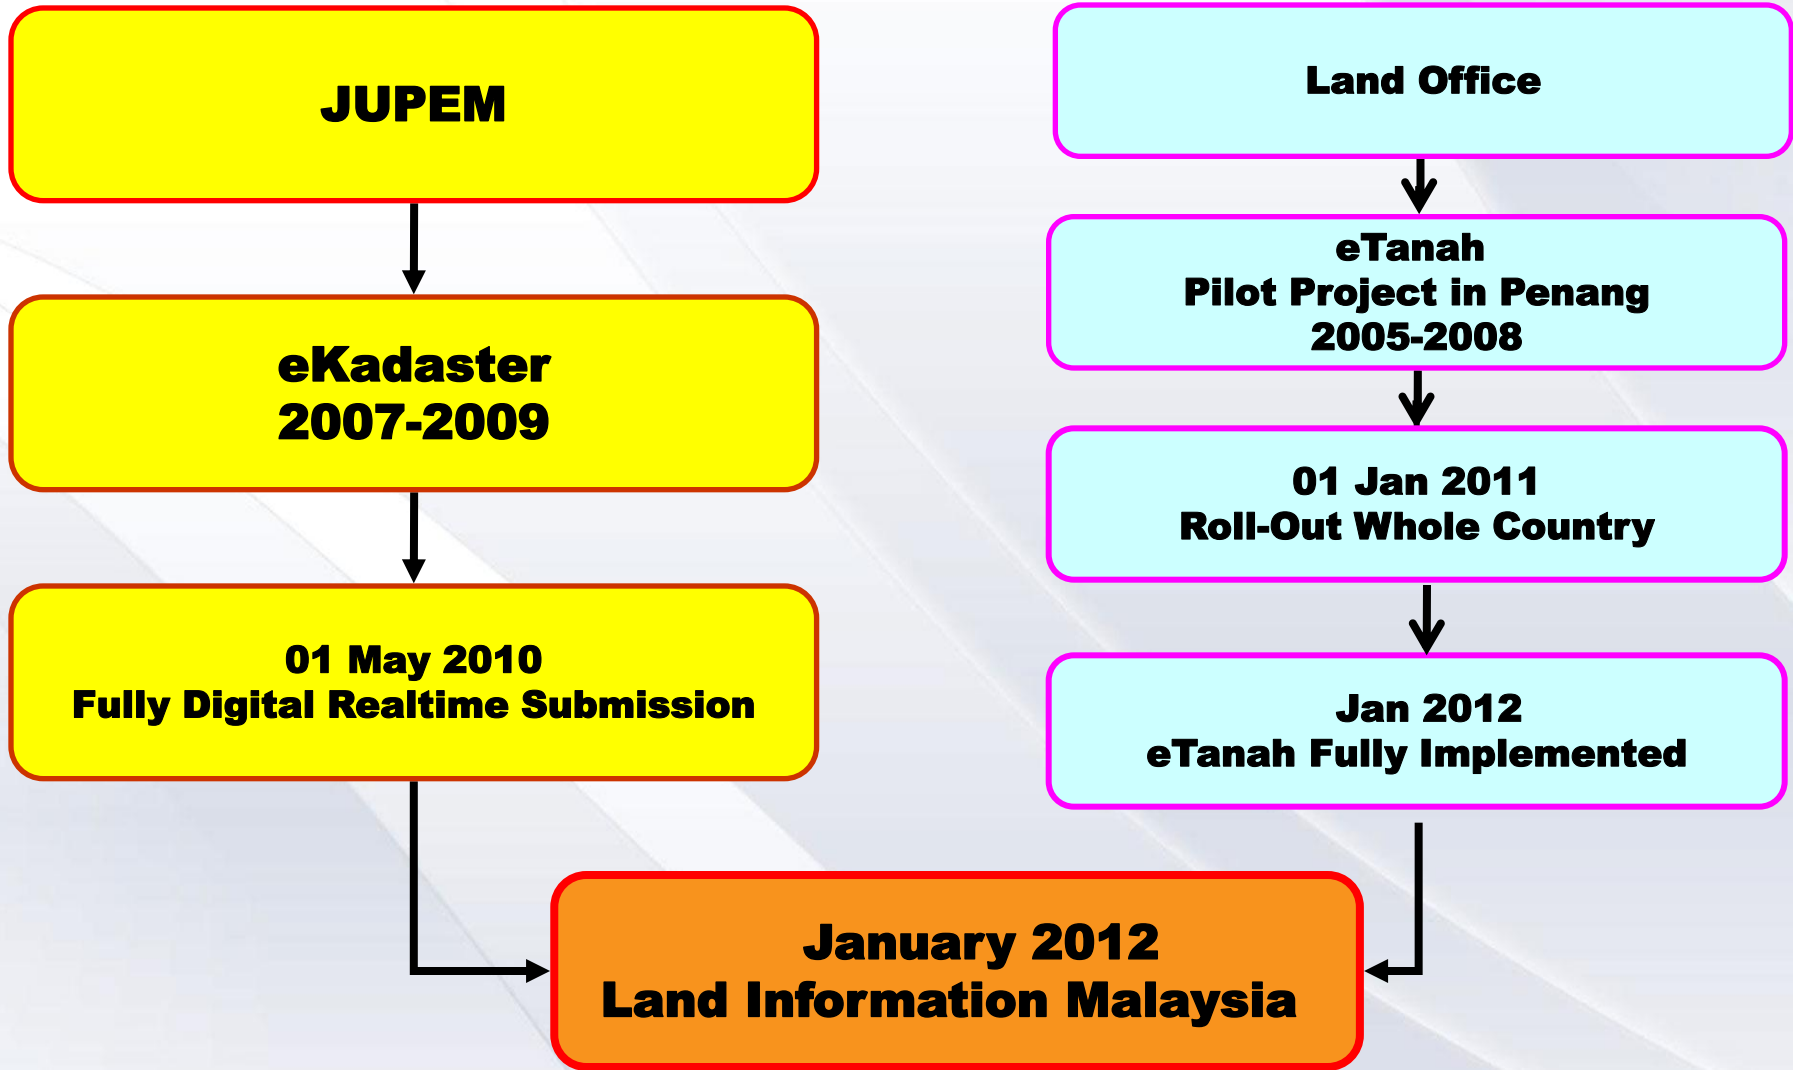

Digital environments

- Replacing conventional processing method phase by phase as early as 1985
- The digital environment concept gradually extended from Field to Finish

Modernisation Programmes

INTEGRATION WITH eTANAH

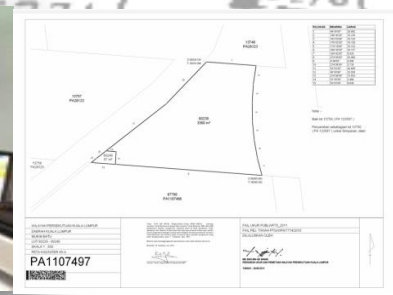

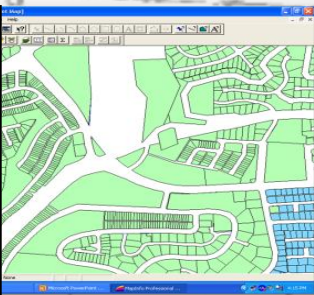

Requisition for Survey

Survey Registration

Field Tracing Preparation

Field Survey

Survey Data Verification

Updating Cadastral Survey Database

Certified Plan Approval

Certified Plan

Cadastral Survey Workflow (Digital)

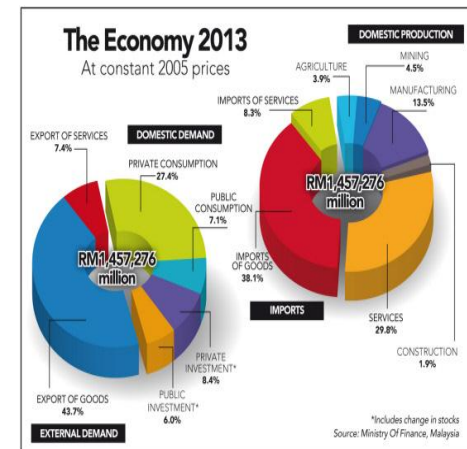

Impact of eKadaster in boosting Malaysian economic growth by:

- Expedite the Cadastral Survey delivery system
- Increasing FT registration;
- Crown Jewel : National Digital Cadastral Database;
 - Planning tool for land or property development
 - Accurate base maps for asset investment

- Ease of registering property
- Ease of doing business in Malaysia
- Competitiveness in economy performance
- Boost property demand and value

How ?

eKadaster

Expedite the Cadastral Survey delivery system

Innovation in Cadastral Survey dealings

Survey Accurate Coordinate

Base maps for GIS system

National Digital Cadastral Database (NDCDB)

Facilitates High Impact Projects

Increased Issuance of Final Titles

Seamless and homogenous Cadastral Survey information

Survey Accurate Spatial Analysis

Mass Rapid Train (MRT)

Double Track Railway

2nd bridge Penang

Iskandar development Region

Improved and support the ease of doing land business and dealings i.e property registry

Accurate base maps

Proper enforcement

Better management

Assist train alignment

Facilitate the design, actual work and as built work

Accurate spatial planning

New land developments and township planning

Numbers of Surveyed Lots with eKadaster environment

Safe City Monitoring System: A Malaysia First in Crime Prevention

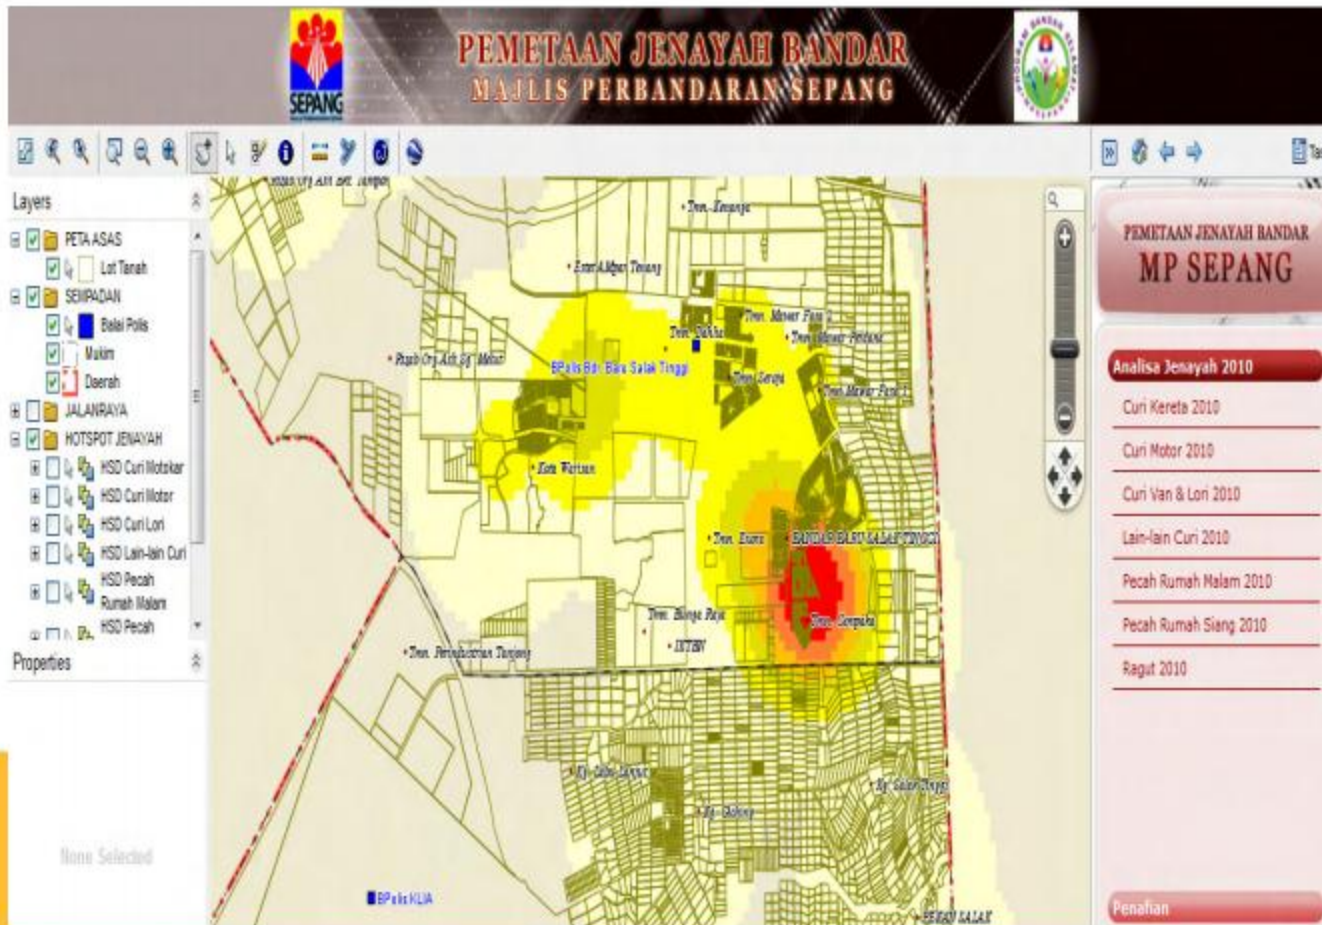

PUTRAJAYA, 1 APRIL 2011 - Despite seeing street crime and the overall index crime dropped by 35percent and 15percent respectively in 2010, efforts are still on-going to ensure that crime prevention initiatives under the Government Transformation Programme (GTP)'s National Key Results Area (NKRA) are on track and sustainable.

To do this, the government through the Federal Department of Town and Country Planning of the Ministry of Housing and Local Government has received an allocation of RM36 million in 2010 from the Ministry of Home Affairs to reactivate and expand the Safe City Programme or SCP (identified as one of the enablers in street crime prevention which was introduced in 2004) in 12 local authorities to reduce street crime.

The twelve local councils have been selected based on the crime rate by area (hotspots) provided by the police (Polis DiRajaMalaysia). The councils are: Dewan Bandaraya Kuala Lumpur (DBKL), Majlis Bandaraya Shah Alam (MBSA), Majlis Bandaraya Petaling Jaya (MBPJ), Majlis Perbandaran Subang Jaya (MPSJ), Majlis Perbandaran Ampang Jaya (MPAJ), Majlis Perbandaran Selangang (MPS), Majlis Perbandaran Klang (MPK), Majlis Bandaraya Johor Bahru (MBJB), Majlis Perbandaran Johor Bahru Tengah (MPJBT), Majlis Perbandaran Pasir Gudang (MPPG), Majlis Perbandaran Pulau Pinang (MPPP) and Majlis Perbandaran Seberang Perai (MPSP).

Catering 3D Environment Development

Malaysia's RM50bil Klang Valley public transport plan

- RM7bil Light rail transit extensions
- RM36bil Proposed mass rapid transit (MRT) system construction and design
- RM2bil Proposed MRT land acquisition
- RM3bil Proposed MRT rolling stock
- RM2bil Proposed MRT underground commercial space development

ADDRESSING THE RISING COST OF LIVING
Built to provide fast and cheap basic health services

IMPROVING URBAN PUBLIC TRANSPORT
Greater convenience and accessibility in the public transport system

21% A.M. peak public transport modal share

ASSURING QUALITY EDUCATION
Towards a brighter future for all

Expanded reach to Special Needs students

- 292 Special Needs students enrolled in vocational courses via the SEN Vocational Programme
- 11 schools involved with the Employment Transition Programme

FIGHTING CORRUPTION
Steady improvement in Transparency International's Corruption Perceptions Index (CPI)

IMPROVING RURAL DEVELOPMENT
Laying the ground for thriving rural economies

21ST CENTURY VILLAGE

Private-driven premium fruit and vegetable farms

2 Sites

Enhancing economic activities of village co-operatives under the Desa Lestari Programme

25 Kampung

Rural Business Challenge Winners

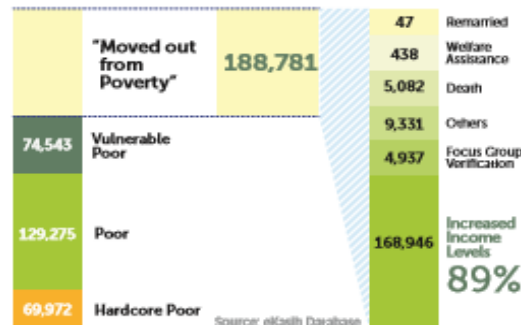

11 Winners

RAISING LIVING STANDARDS OF LOW-INCOME HOUSEHOLDS
Moved more Malaysians out of poverty
