### Tenth United Nations Conference on the Standardization of Geographical Names

New York, 31 July-9 August 2012

Item 7 of the provisional agenda\*

**Measures taken and proposed to implement United Nations resolutions on the standardization of geographical names, including the economic and social benefits**

### Database of resolutions of the United Nations Conference on the Standardization of Geographical Names

#### Submitted by the Working Group on Evaluation and Implementation\*\*

#### Summary\*\*\*

Following the consensus reached during the meeting of the Working Group on Evaluation and Implementation in April 2008, a database was created to improve online access to the 195 resolutions adopted to date by the United Nations Conference on the Standardization of Geographical Names. The English-language version of the database was launched in May 2009 and the French-language version in June 2012. The database allows resolutions to be searched by conference, subject, title or word, and complete texts of the resolutions can be downloaded. The database is hosted by the National Geographic Information Institute of the Republic of Korea and is available directly from [www.land.go.kr/ungegn](http://www.land.go.kr/ungegn), or from <http://unstats.un.org/unsd/geoinfo/UNGEGN/confGeneral.html>. The resolutions of the Tenth Conference will be included once adopted.
