

TABLE OF CONTENTS

[<previous](#) - [next>](#)

The content of this module is based on teaching materials prepared by Tjeerd Tichelaar. These teaching materials are made available in the "[documents](#)" section.

The module contains the following chapters:

[Introduction](#)[Chapter 1](#): Coping with **choices** and **constraints**[Chapter 2](#): Producing the **names index**[Chapter 3](#): Geographical **names database**[Chapter 4](#): Issues specific to **international** productions[Chapter 5](#): An editor's **viewpoint / Conclusion**

The theory described in the above chapters has been illustrated, as much as possible, with practical examples made available by Noordhoff Publishers (the Netherlands). These examples can be recognized because they are printed in grey.

When reading through the following pages, you will come across some unusual terms. These terms are hyperlinked to the UNGEGN [Glossary of Terminology](#) (pdf). Behind each term a number (#) is given that corresponds to the numbering applied in this glossary, e.g. [toponymy](#) (#344).

For exercises and documents (and literature) on this topic see respectively the "[Exercises](#)" and/or the "[Documents](#)" section of this module.

The complete module can be downloaded [here](#).
