National Statistics Office of Georgia

Assessment of national migration data capacity

Project on improving migration statistics

4 Year Project starting from 2018.

The aim of the project is to increase the capacity of the countries to produce and analyze comprehensive national migration data that meets international standards, and to enhance understanding of the uses and limitations of migration data for policy purposes and for the achievement of the 2030 Agenda for Sustainable Development.

National migration data infrastructure – a framework for capacity building:

- ✓ *an assessment of existing data on migration;*
- ✓ *an assessment of data needs for national migration policy and completes with proper dissemination and uses of data for policy purposes;*
- ✓ *national migration data policy and the open data principle.*

Modality of capacity building framework to improve statistics on international migration:

- ✓ International workshops;
- ✓ Trainings;
- ✓ Regional and sub-regional workshops.

Assessment of national migration data capacity

Project on improving migration statistics (cont.)

Data:

- Traditional Data Sources:
 - *Administrative data;*
 - *Population Census;*
 - *Big data;*
 - *Population register.*

Assessment of national migration data capacity

Project on improving migration statistics (cont.)
