& Data Science for Official Statistics

BILBAO 2024

Informing Climate Change and
Sustainable Development Policies
with Integrated Data

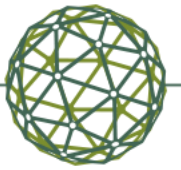

BILBAO, SPAIN | **10-14 JUNE 2024** | **#UNBigData2024**

THE BASQUE MODEL

ASIER ARANBARRI

SOCIAL INNOVATION DIRECTOR AT **BASQUE GOVERNMENT**

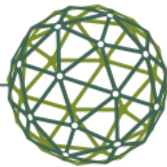

BASQUE COMMITMENT MODEL FOR THE LOCALIZATION OF THE SDGS

A model to develop the concept of localization through a **commitment at three levels**, as it addresses institutions, different social actors and the general public.

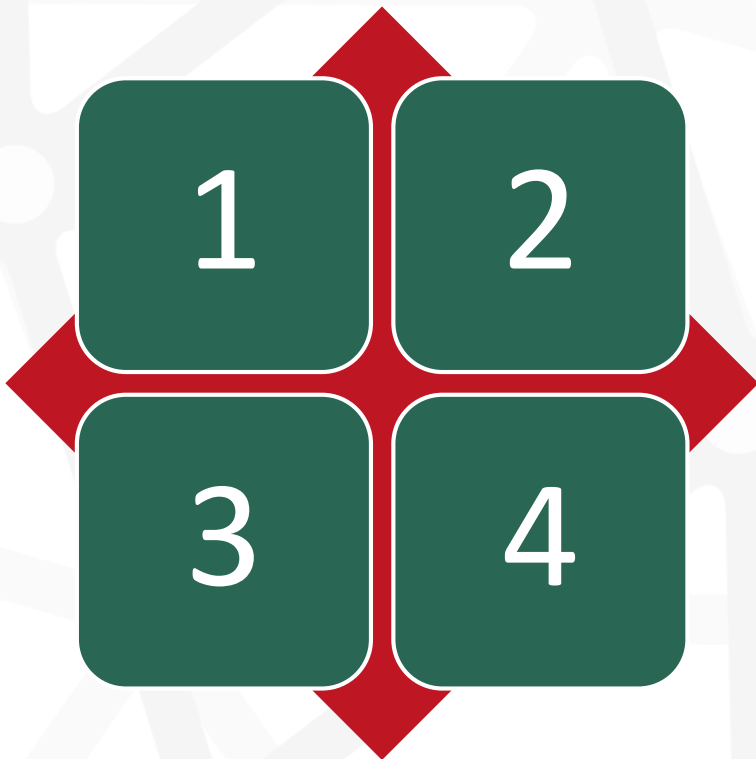

An approach which allows us to contribute to the global Sustainable Development Goals while addressing local realities.

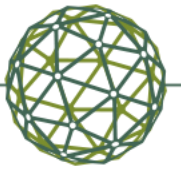

70% of the competencies related to the achievement of the SDGs fall under local and regional governments.

LOCALIZATION IS KEY TO THE SUCCESS OF THE 2030 AGENDA.

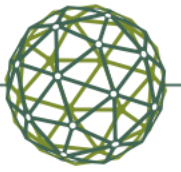

4 INFRASTRUCTURES

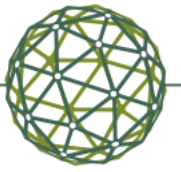

1

Executive body for direction and cross-sectoral coordination in SDG matters to guide the government actions of any institution or organization.

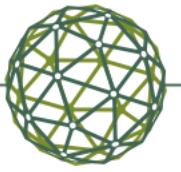

2

Strategic planning documents that include objectives, criteria, priorities, action plans, timelines, and budget alignment.

3

Efficient evaluation tools, such as indicators adapted to our own reality, annual reports, or Annual Voluntary Follow-up Reports.

3 INSTITUTIONAL LEVELS

BASQUE GOVERNMENT

PROVINCIAL COUNCILS: Bizkaia, Gipuzkoa & Araba

MUNICIPAL: 251 municipalities

20 STATISTICAL REGIONS

336 INDICATORS

169

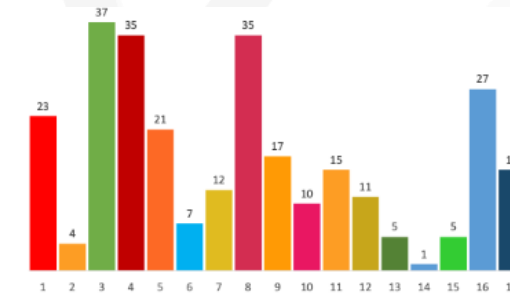

AUTONOMOUS COMMUNITY

99

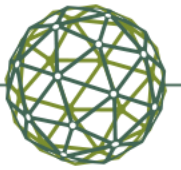

HISTORICAL TERRITORIES

68

MUNICIPAL LEVEL

4

To promote **governance models and broad inter-institutional and social collaboration.**

Euskadi has been hosting the **headquarters of the United Nations Local 2030 Coalition Secretariat** since the end of 2022.

**THE CHALLENGE WE FACE
IS TOO BIG
TO TACKLE ALONE.**

COOPERATION IS THE WAY
