Business reporting

We believe the Sustainable Development Goals can guide us, our customers, and society towards a brighter, sustainable future.

Our company is aligned and contributing towards all 17 SDGs, with an especially strong focus in our leadership areas of women (SDG 5), water (SDG 6), decent work and economic growth (SDG 8), sustainable consumption (SDG 12), life under water (SDG 14) and partnerships (SDG 17). We have reported on these contributions each year through our sustainability reporting, also sharing how we have used our voice in support of partnerships and actions on the SDGs.

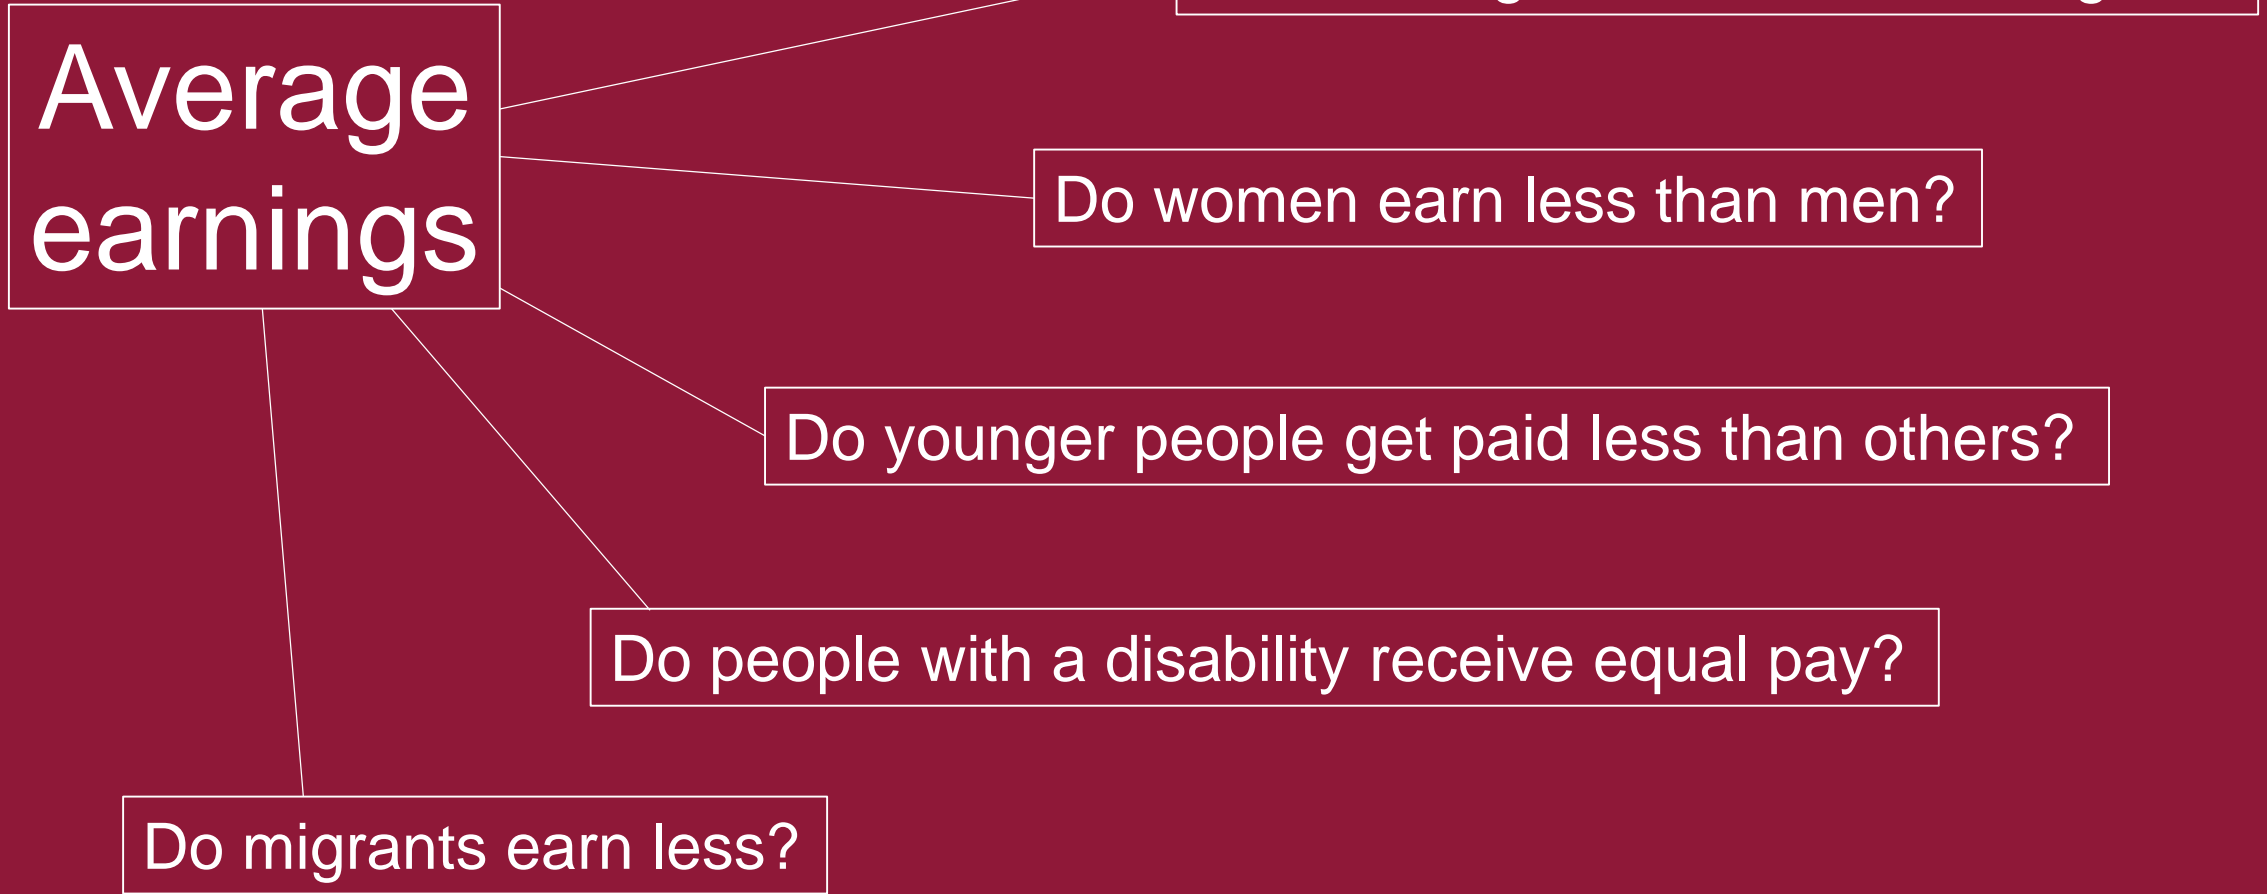

38% No mention of SDGs

62% Mentioned SDGs

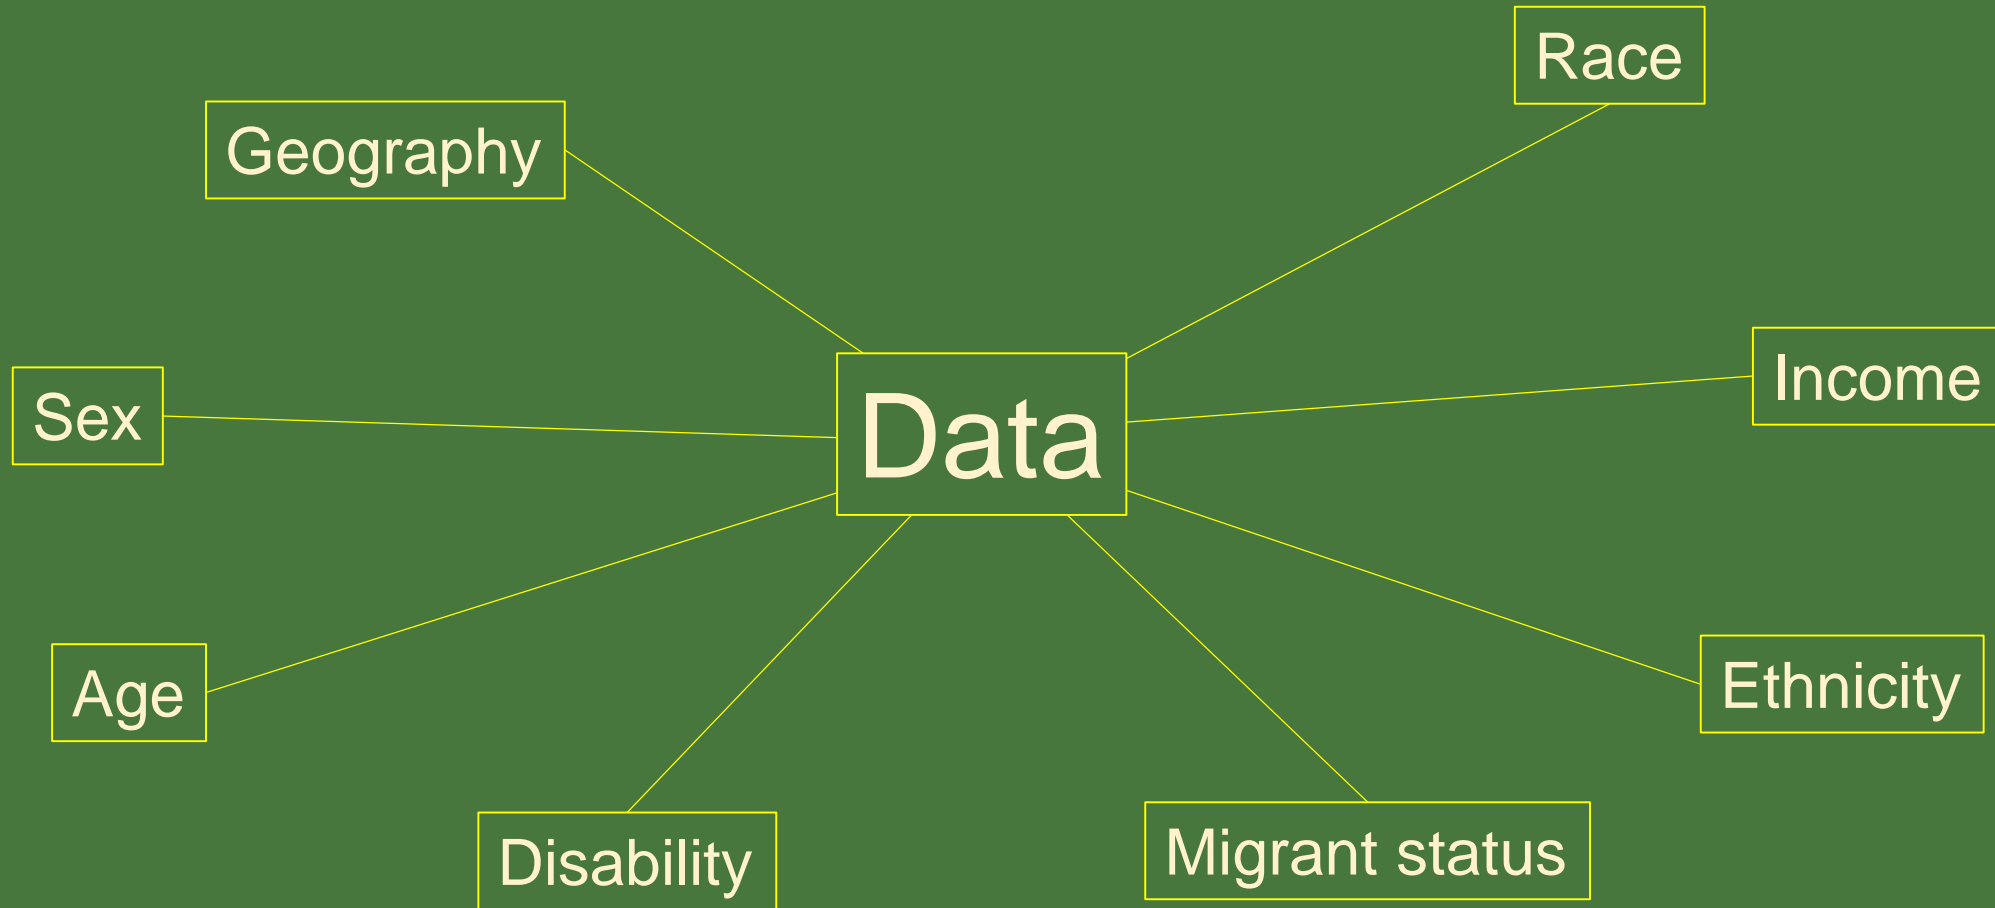

37% Selected priority goals

- *>50% of our products provided sustainability benefits*
- *€2.9 billion revenue from eco-premium products and services*
- *40% proportion of renewable energy used in our own operations*

Leave no one behind

Disaggregation

Indicator 9.2.2: Manufacturing employment as a proportion of total employment

manufacturing

- sex
- migrant status
- income
- geography
- ethnicity
- disability
- race
- age
