Progressing towards a
data-driven society

More and complex demand for information

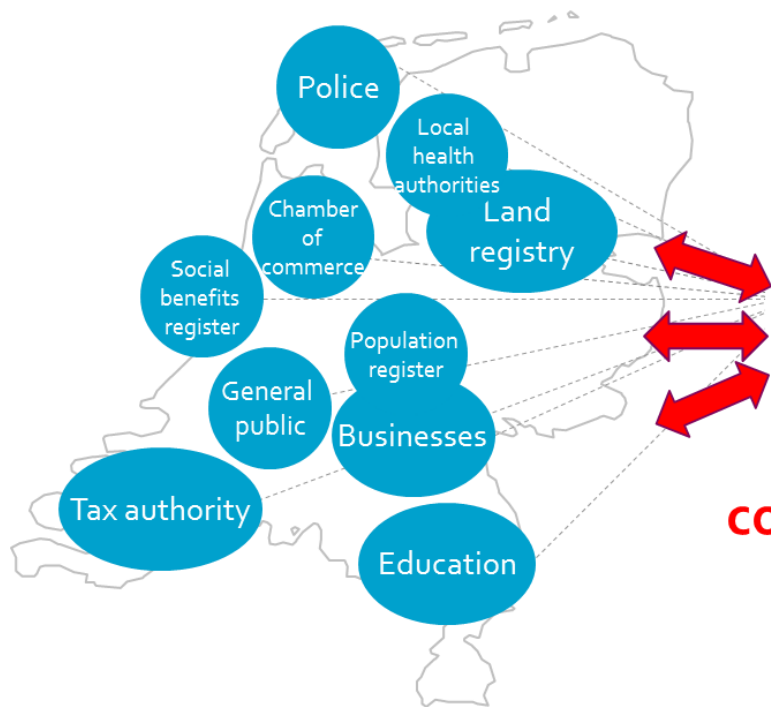

Example data use at SN

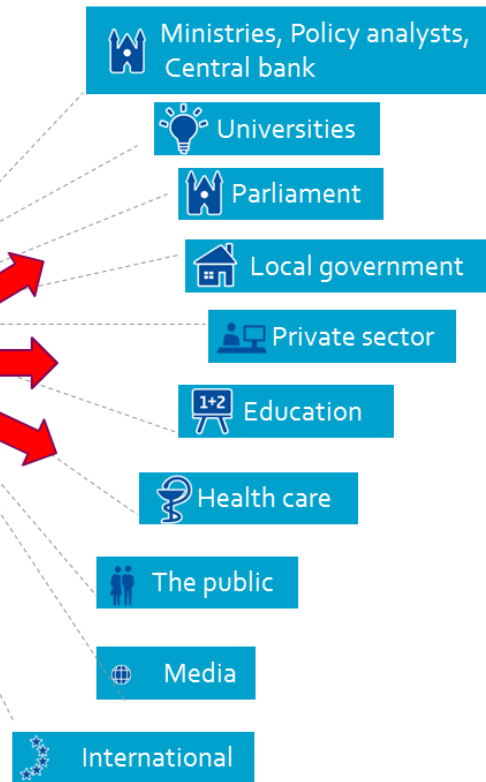

SN Data Hub

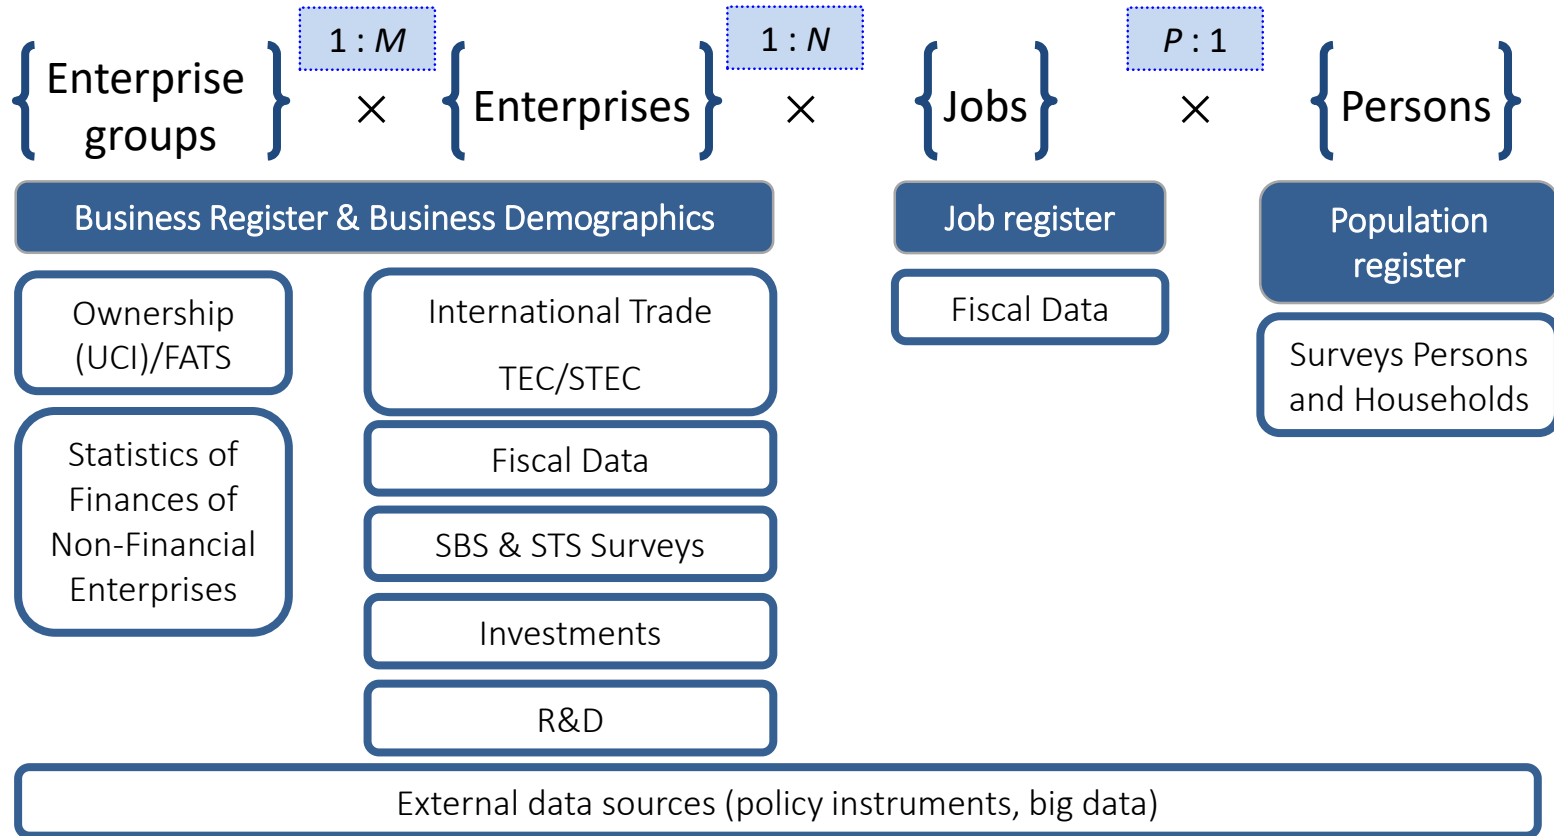

Data sources

Users

Linked Employer Employee Data (LEED)

PoC Family Businesses

Family Businesses:

- Make up between 65 to 80% of all European companies,
- Account for on average more than 40 to 50% of all jobs
- Have a significant role to play in the strength and dynamism of the real economy.
- Are important because of the long-term stability they bring,
- Show specific commitment to local communities,
- Feel the responsibility as owners and the values they stand for

Characterize Enterprises in SBR as FB or not

Data collection:

- Not based on sampling or surveys
- Linking extra information from administrative registrations to characterize a FB in the SBR
- Indicators produced with information already collected.

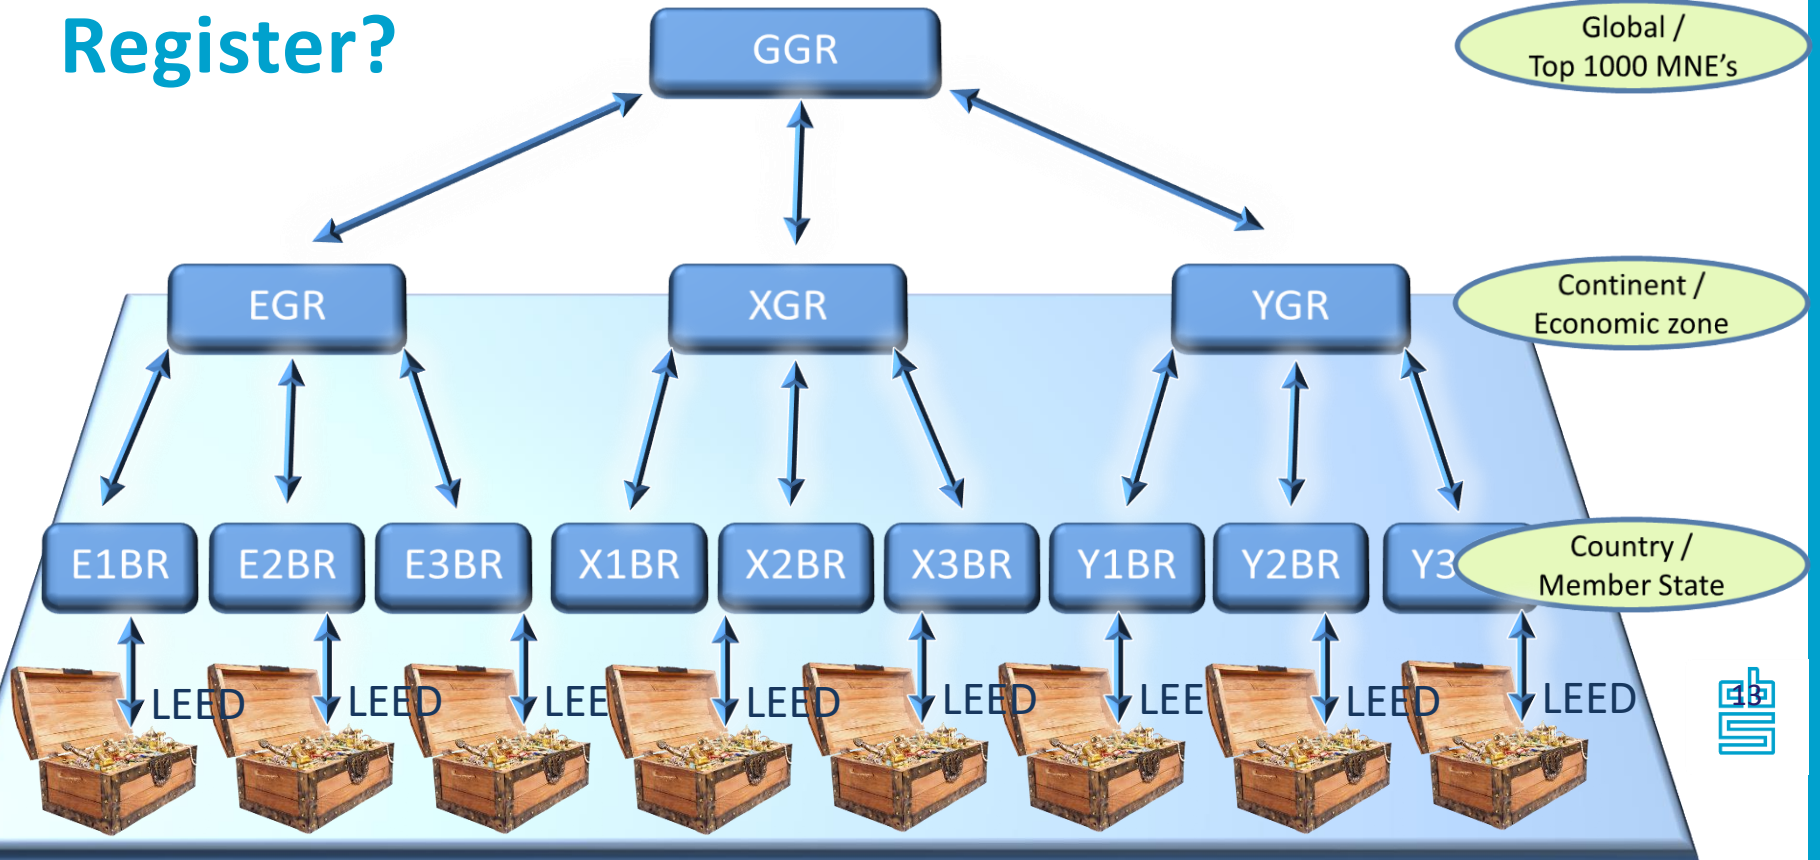

Sources used to detect Dutch FB's

- Statistical Business Register
- Trade Register
- Payroll Tax Register
- Management of relations of tax authorities
- Satellite Self-Employed Entrepreneurs
- Household register
- Alliance register
- Child-parent register

Opportunities ahead

Opportunities for a Global Group Register?

Ongoing work - Transfer Pricing

- Basis: Euro Group Register
 - direct and indirect control and other affiliated units
 - Dutch Statistical Business Register
 - FATS
 - FDI
 - International Trade in Goods

Conclusions

Conclusions

Creating opportunities for new statistical information implies

- Horizontal and vertical integration of statistics
- Analysis & publication of its structure and its impact
 - At national level: combining sources and implementing new concepts
 - At international level:
 - combining existing aggregates
 - linking national statistical business registers
- Sharing knowledge, experiences and working together

Challenges and way forward

Opening the 'black box'

- More information on transactions and relations between enterprises
- Better insight in the enterprise organisational structure (business functions) and their adaption to constantly changing market
- A better understanding of the dynamics of enterprise groups (intensifying the use of event information in the Business Register)

Facts that matter
