

Handbook of Statistical Organization

Thematic Conference for Africa
7-9 October 2019 – Pretoria, South Africa

What is the handbook of Statistical Organization?

- The primary objective:
“to guide chief statisticians and senior managers of national statistical organizations in developing and maintaining statistical capacity that is fit for purpose”
- First published in 1952 and the most recent (third) edition dates from 2003

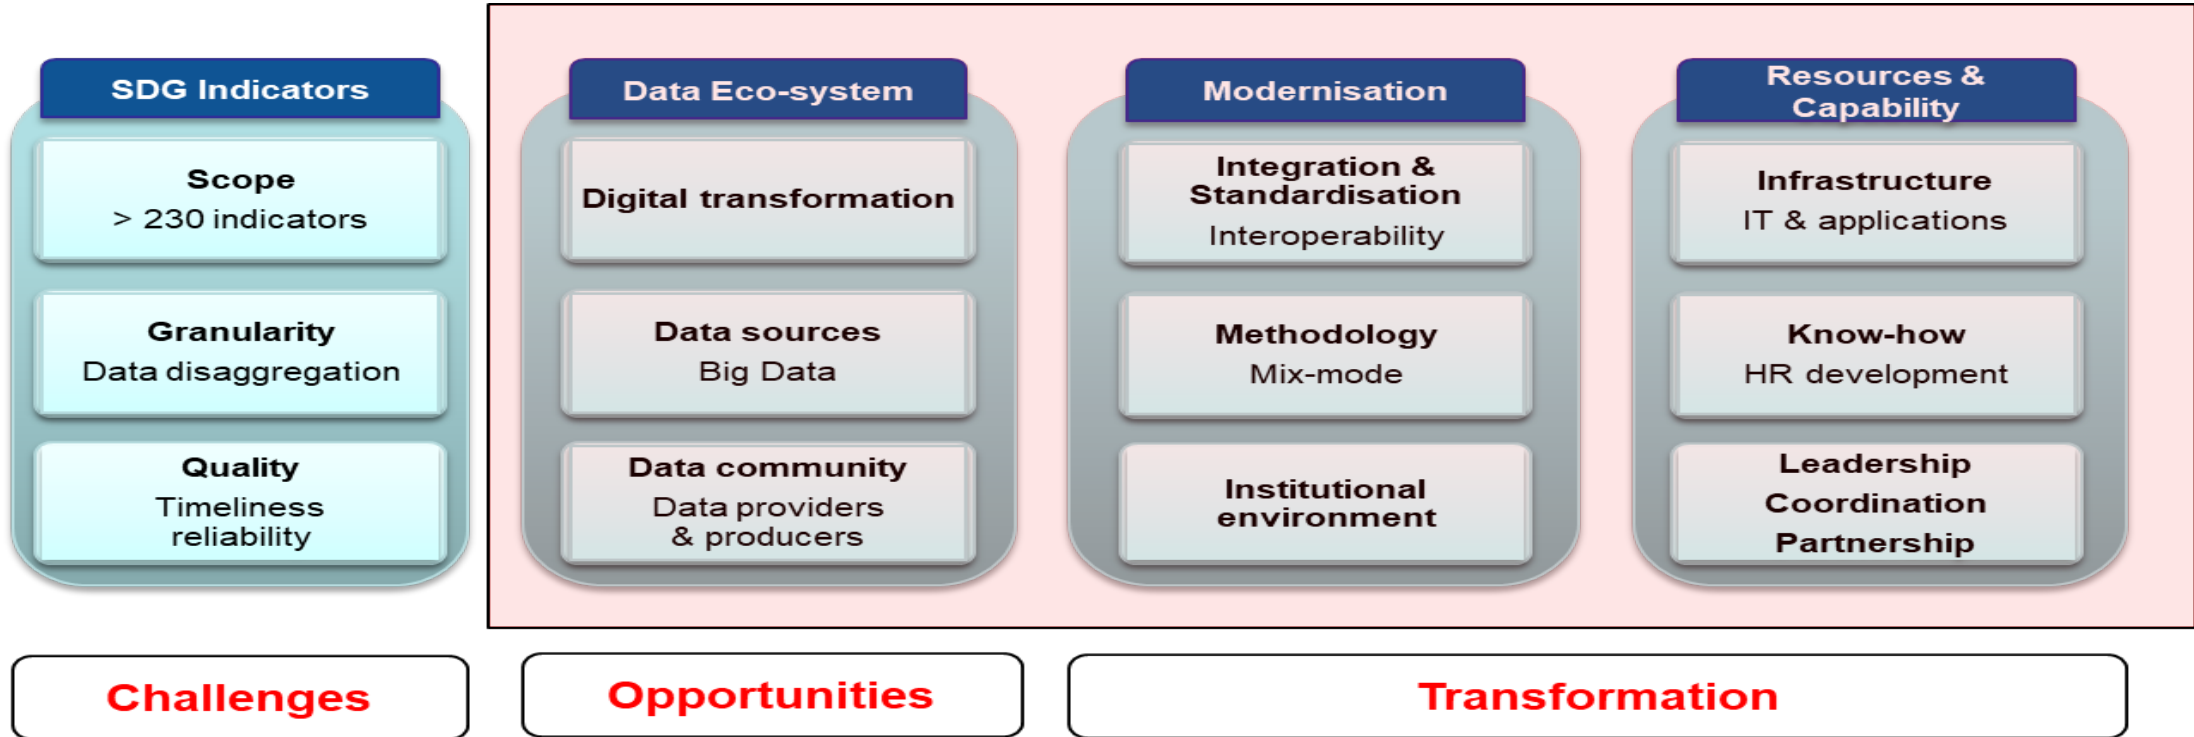

MANAGING A STATISTICAL ORGANISATION IN TIMES OF CHANGE

SOUTH AFRICA 2019

What did change since 2003?

The **2030 Agenda for Sustainable Development**, and related regional and national development policies, involve a transformation of national statistical systems to grasp new opportunities

MANAGING A STATISTICAL ORGANISATION IN TIMES OF CHANGE

SOUTH AFRICA 2019

The mandate

- 48th session UN StatCom requested a revision of the current Handbook
- 49th session UN StatCom:
 - The commented outline endorsed ([E/CN.3/2018/5](#))
 - To address the strategic development areas articulated in the [CT-GAP](#) and the outcomes of the Transformative Agenda Initiative
 - Grasp the potential of the digital transformation in a rapidly changing data environment
 - Reinforce leadership, coordination, communication, and dialogue through institutional, organizational and managerial adjustments
 - Overall updating process to be supported by a series of (sub-)regional Thematic Conferences

Accessibility – usability - ease of update

- Conceived as a living document on the Web
- Including links to relevant material and country examples
- Hardcopy of Chapter II (overview) for a larger audience and in all UN languages
- Handbook revised every second year, links and country examples more regularly

Drafting Team and Advisory Group

- Drafting team: UNSD Staff and Consultants
- Brazil, Ghana, Kenya, Mongolia, Palestine, Philippines, Poland, Suriname, United Kingdom
- 5 UN Regional Commissions
- FAO, ILO, UNCTAD, Asian Development Bank, Eurostat, Open Data Watch, PARIS21 and SESRIC

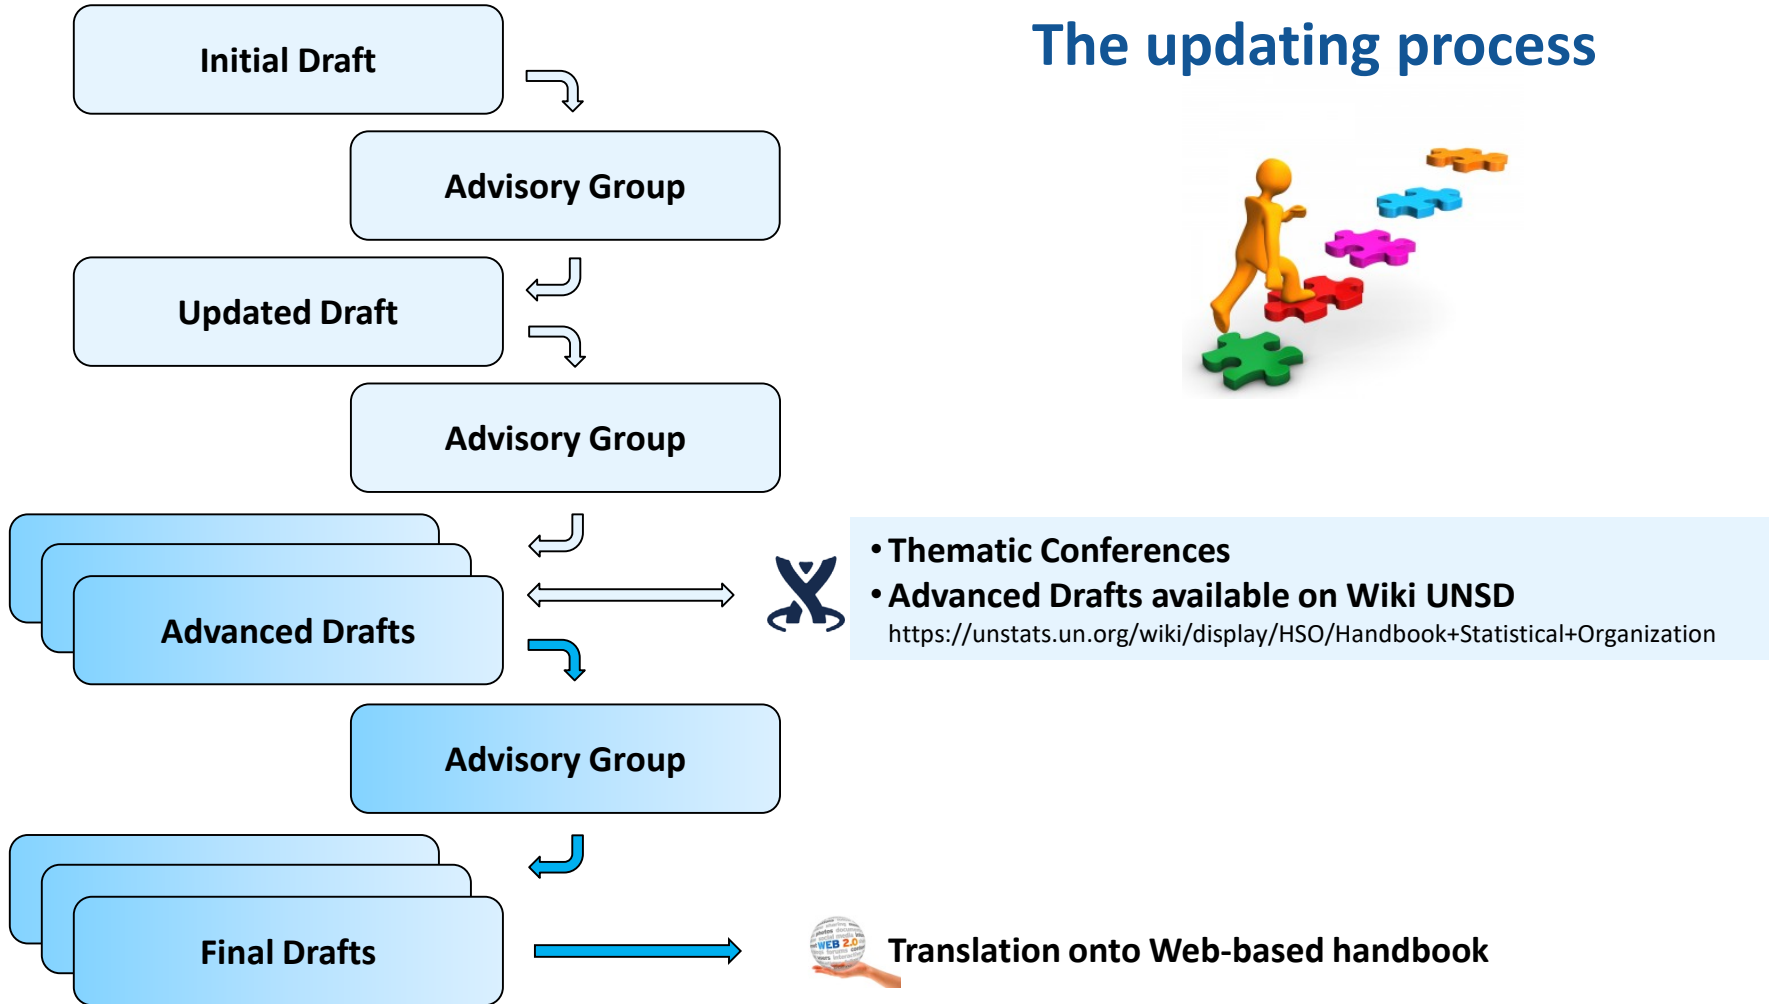

MANAGING A STATISTICAL ORGANISATION IN TIMES OF CHANGE

SOUTH AFRICA 2019

The updating process

Timeline for the updated Handbook

III. Basis of official statistics	}	Adv. draft chapters available
VII. Quality management		
XIV. Information technology management		
IV. National statistical system	}	October 2019 (with Advisory Group)
V. National statistical office		
VIII. Data sources, collection and processing		
X. Dissemination and user communication		
XII. Human resources management and development	}	March 2020
VI. Users and their needs		
XV. Management of finance, buildings and physical space		
IX. Analysis and analytical frameworks		
XI. Common statistical infrastructure		
XVI. International activities and collaboration	}	August 2020
I. Introduction		
II. Overview		
XVII. Annexes		

Updated Handbook on the Web

December 2020

MANAGING A STATISTICAL ORGANISATION IN TIMES OF CHANGE

SOUTH AFRICA 2019

Thematic conferences:

“Managing a statistical organization in times of change”

- Series of (sub-)regional Thematic Conferences aiming at:
 - Supporting the drafting, raising awareness and sharing information on the new Handbook
 - Identifying regional and sub-regional initiatives to reference in Handbook
 - Identifying national good practices to inform the various chapters of the Handbook.
 - Validating usefulness of content
- But also:
 - Shaping, coordinating and cross-fertilizing modernization programmes and actions at/between global, regional and sub-regional levels
- Organizing Committee for the African Conference: South Africa, Ghana, Kenya, UNECA, ADB, UNSD

Thematic conferences /2

- Four cross-cutting themes covering broadly all strategic areas of the CT-GAP and the chapters of the updated Handbook:
 1. Strengthening the institutional and organisational frameworks of national statistical systems
 - Chapter III The basis of official statistics
 - Chapter IV The National Statistics System**
 - Chapter V The National Statistics Office
 2. Securing quality of statistical information and improving data coherence through statistical analysis and analytical frameworks
 - Chapter VI Users and their needs**
 - Chapter VII Quality management**
 - Chapter IX Analysis and analytical frameworks**

Thematic conferences /3

3. Supporting the transformation of statistical production processes from the data collection to dissemination in the context of the digital and technological revolution

Chapter VIII Data sources, collection and processing

Chapter X Dissemination and user communications

Chapter XI Common statistical infrastructure

Chapter XIII Data, information and knowledge management

Chapter XIV Information technology management

4. Mobilizing and securing adequate resources and infrastructure, and promoting regional and global cooperation for the development of national statistical capacity

Chapter XII Human resources management and development

Chapter XV Management of finance, buildings and physical space

Chapter XIV International activities and collaboration

+ **2 Breakout sessions**
