

# Advancing Methodology on Measuring Asset Ownership from a Gender Perspective

EDGE  
Overview

Objectives of  
the  
workshop

Development of  
the guidelines

Overview of  
the Guidelines

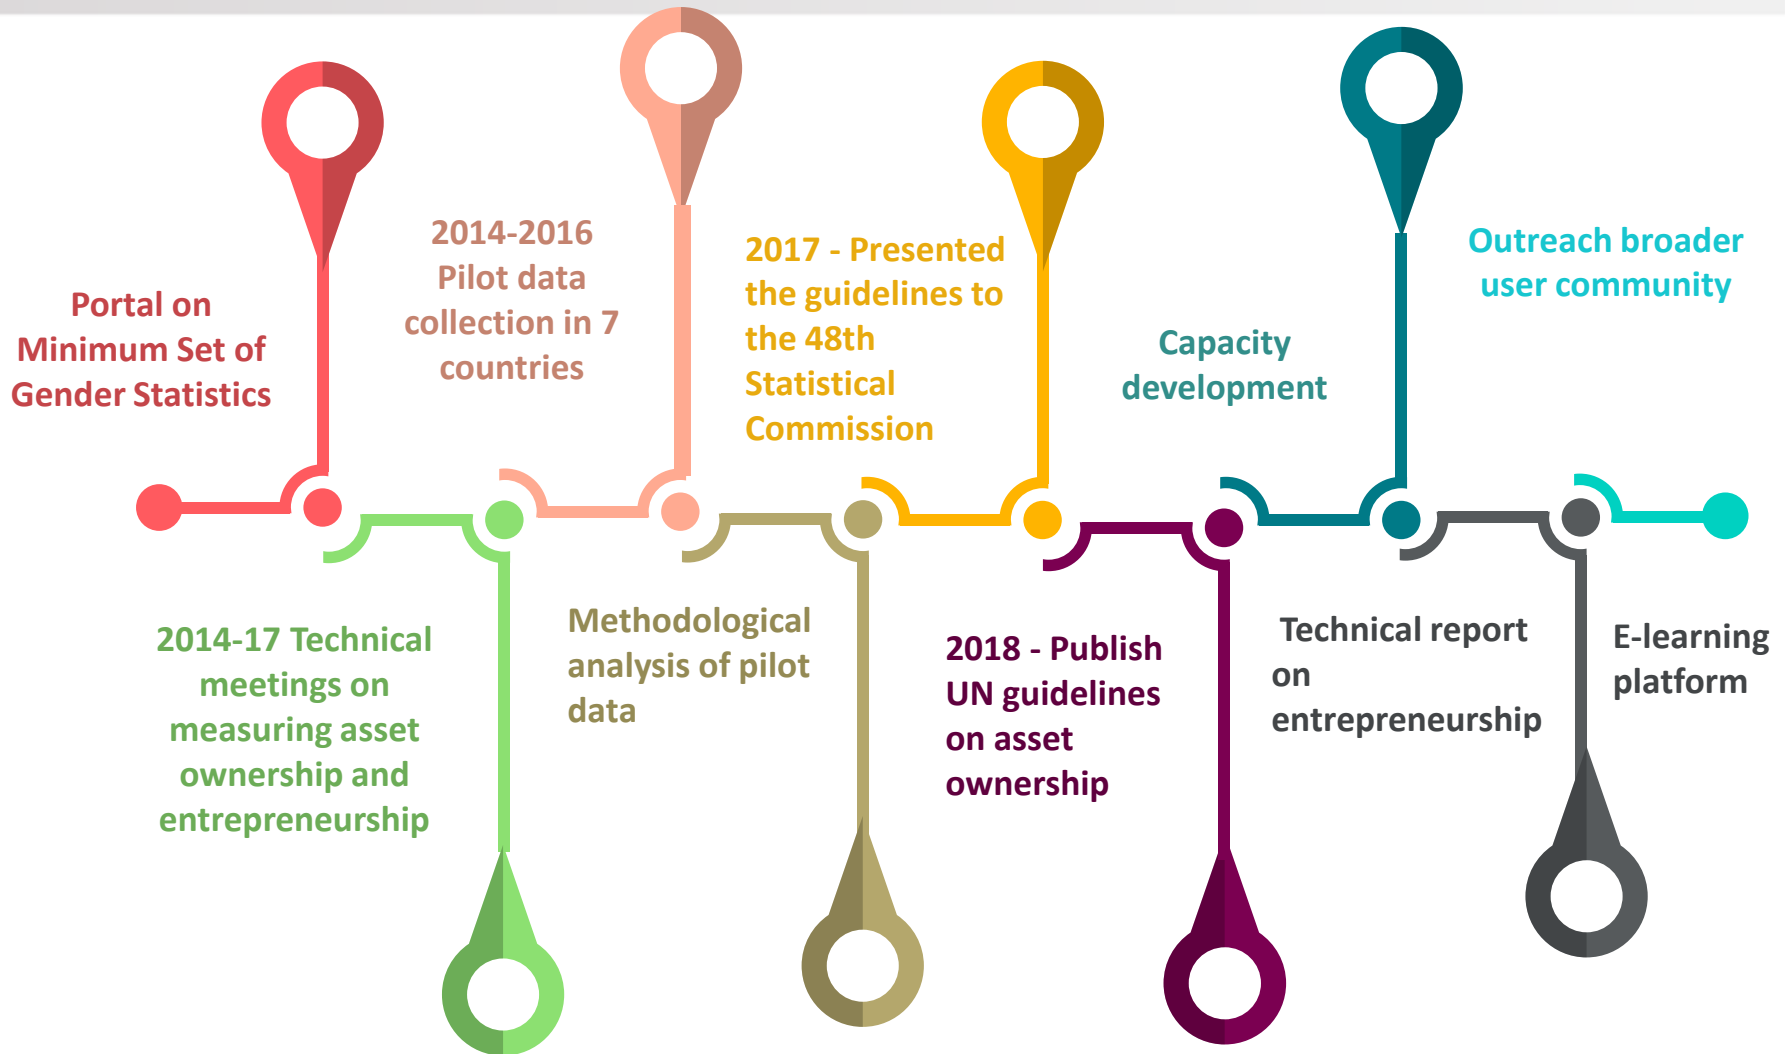

Joint collaboration of UNSD and UN Women that seeks to accelerate existing efforts to improve Evidence and Data for Gender Equality (EDGE)

Builds on the work of the Inter-Agency and Expert Group on Gender Statistics (IAEG-GS)

Funded by Governments of Australia, Canada, Germany, Ireland, Republic of Korea and USA

Implemented in partnership with NSOs, ADB, FAO, ILO, OECD, and the World Bank

# Activities and timeline

# Pilot surveys

Country	Dates of data collection	Data collection strategy	Sample size
Uganda (MEXA) <sup>a</sup>	June-August 2014	Stand-alone survey	2,720 households
Mexico	June-October 2015	Modules appended to National Household Survey (ENH)	An ENH subsample of 8,204 households
Georgia	September- October 2015	Stand-alone survey	2,783 households, nationally-representative
Philippines	September-October 2015	Stand-alone survey	1,536 households, representative for Cavite province
Mongolia	September-November 2015	Stand-alone survey	2,983 households, nationally representative
Maldives	May 2016	Module appended to Household, Income and Expenditure Survey (HIES)	An HIES subsample of 272 households on 3 islands
South Africa	August-September 2016	Stand-alone survey	1,568 households in KwaZulu-Natal province

# Objectives of workshop

- Present key recommendations from *UN Guidelines on the Production of Statistics on Asset Ownership from a Gender Perspective*
- Share lessons learned from 7 pilot countries that tested the methodology
- Solicit reflection and feedback from all countries

GUIDELINES FOR

Producing Statistics on  
Asset Ownership from  
a Gender Perspective

United Nations

# Overview of the Guidelines - 1

To produce **GENDER STATISTICS ON**

# Overview of Guidelines - 2

## Users:

- Targeted to NSOs

## Consistent with existing internationally-agreed standards:

- System of National Accounts, 2008
- Principles & Recommendations for Population & Housing Censuses, 3<sup>rd</sup> rev.
- OECD Guidelines for Micro Statistics on Household Wealth

## Consistent with structure of UNSD international statistical guidelines

- Covers all components of producing official statistics, from conceptual framework to data dissemination

# What's covered in the guidelines?

Conceptual  
framework

Sources of  
data

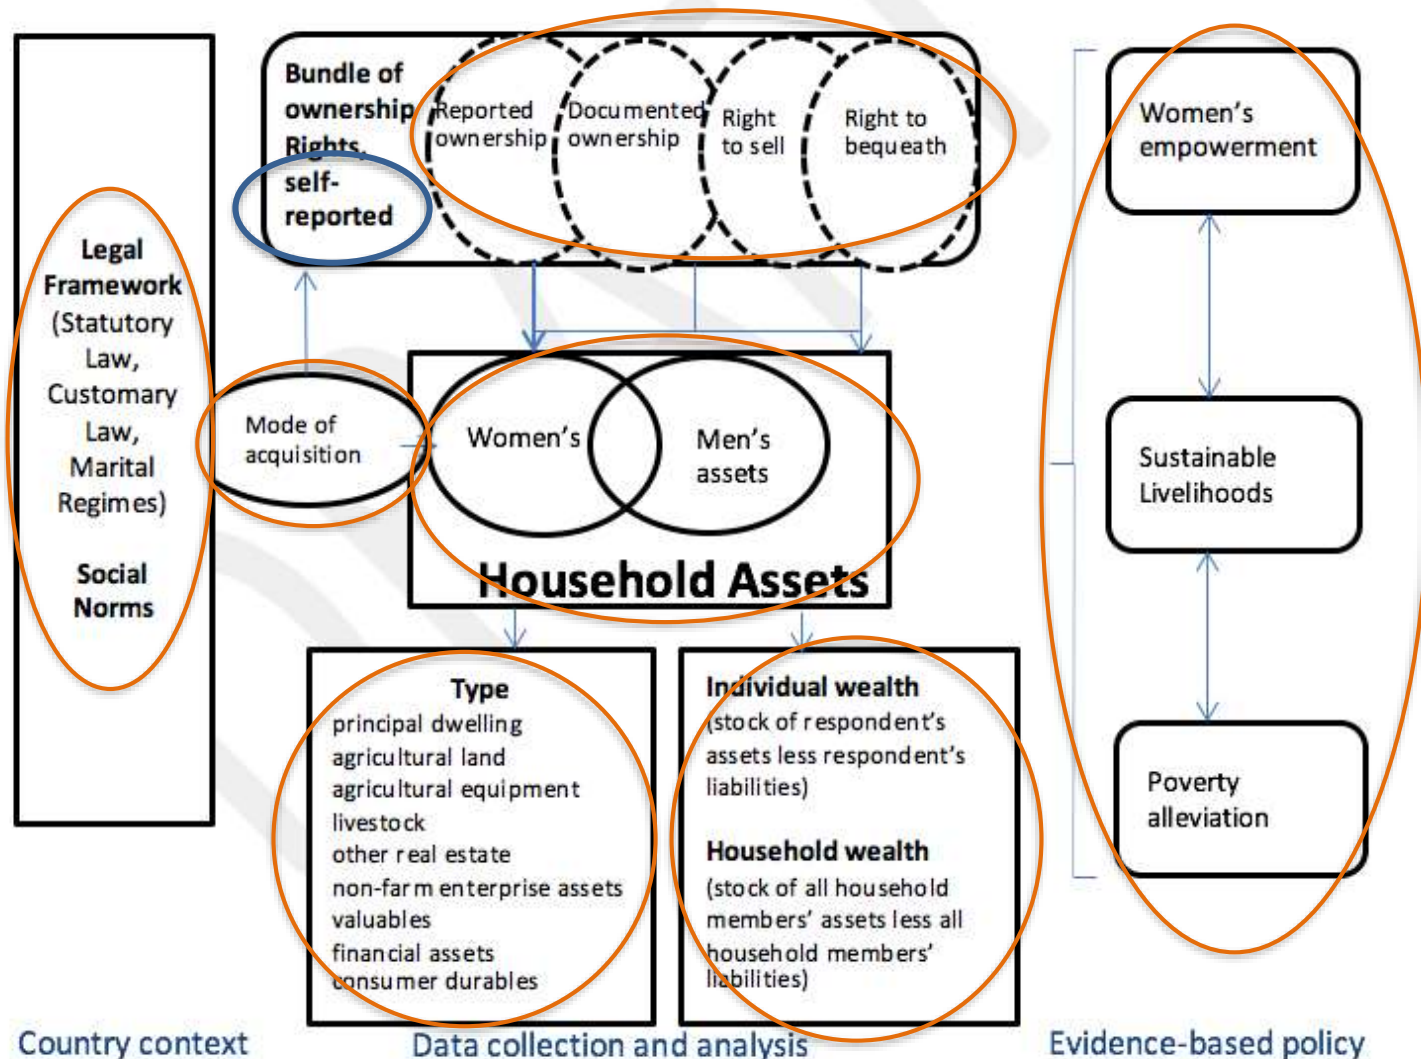

Guidance for  
implementation

Data  
processing,  
analysis and  
dissemination

# Conceptual framework

# Highlights of the Guidelines (2)

- Guidance for implementation
  - Planning the data collection
  - Data collection strategies: minimum set of questions; module appended to an existing household survey; stand-alone surveys
  - Sampling: within-household selection
  - Questionnaire design
  - Field operations
- Data processing, analysis and dissemination
  - Data editing, imputation and weighting
  - Recommended indicators: global & national indicators; SDG 5.a.1
  - Data analysis & dissemination of results

# Thank you
