

Capacity development in the era of the SDGs

NORWEGIAN DEVELOPMENT COOPERATION IN OFFICIAL STATISTICS

10TH IAEG SDG

ADDIS ABEBA 24 OCTOBER 2019

Statistisk sentralbyrå
Statistics Norway

What we do

- Division for International Development Cooperation since 1996
- Funded mainly by the **Norwegian Government**
- **Demand driven** cooperation
- Development of **National Statistical Systems** and **national capacity** for official statistics in **partner countries**
- **Long term** cooperation at country level based on **institutional partnership**

Partner countries

A world map with several countries highlighted in green. The highlighted countries are: Norway (dark green), Ukraine, Kirgisisistan, Nepal, Ghana, Sudan, Uganda, Ethiopia, Kenya, Tanzania, and Mosambik. The text labels for these countries are placed to the right of their respective geographical locations on the map.

Ukraina

Kirgisisistan

Nepal

Sudan

Etiopia

Ghana

Uganda

Kenya

Tanzania

Mosambik

5 GENDER EQUALITY

Gender Equality for Development

- User - Producer oriented projects involving ministries, government agencies and NSOs
- Cross-institutional coordination in development projects are both a challenge and a booster for institutional understanding

Registers for Development

- Quality registers as a basis for good governance
- Report once → share information
- Development of new core registers that can be used for official statistics
- Partnership on the Norwegian side with the Norwegian Tax Administration, The Norwegian Mapping Authority, The National Coordinating Register for Legal Entities & Statistics Norway

7 AFFORDABLE AND CLEAN ENERGY

Impact of Access to Sustainable Energy Survey

- Builds on the SE4All Initiative and the World Bank's Global MTF Measures
- Surveys in Tanzania and Mozambique in 2020 in collaboration between NBS (TZ), INE (MZ) and SSB (NO)

1 NO POVERTY

2 ZERO HUNGER

More mileage from existing data sources

- Using Household Budget Surveys to analyse Food Insecurity
- Data analysis & stakeholder discussions done together with the NSO in the partner country

Key take-aways based on experience

- Top-level **ownership & commitment**
- Strong & clear **request** for support from the partner country
- **Trust** between the partners and **good flow of information**
- Thorough **preparations**
- Changing environments requires **flexible projects**
- **Repetition** gives sustainable learning
 - On-the-job learning is a key tool in our approach
- **User involvement** from the start

Institutional Development Cooperation in Statistics Norway

The positive circle of development

Thank you!
