NEED FOR COLLECTIVE ACTION

• Implementation of the Cape Town Global Action Plan urgently requires more and better financing for data and statistics.

• Over 90% of NSOs in low- and lower-middle income countries are facing shortages in financial resources to respond to the demand for statistical outputs.*

• Opportunity for coherent and collective action to push this agenda forward.

• New solutions and linkages under the Bern Network on Financing Data for Development.

CLEARINGHOUSE FOR FINANCING DEVELOPMENT DATA

• Prototype online platform launched at the UN World Data Forum in October 2021.

• The clearinghouse offers timely data to:
  
  – Analyse current and forecasted finance flows to data and statistics;
  – Navigate profiles on donors, recipient countries and projects;
  – Access key advocacy resources and good practices.
  – Provide a dedicated gender channel along all these elements.

• Community features to facilitate interactions, partnerships, and peer learning.
What is the Clearinghouse?

The Clearinghouse enables anyone to track and analyse the state of financing for data in near-real time, connect to partners and tap into a rich pool of resources to advocate for more & better data. Learn more

You'll find data on:

36,000 projects

23 IDA countries and 7 partners

700 downloadable resources

More are being added every day, check back often!

Objective: Inform the action of policy makers and international partners to better support official statistics in the implementation and financing of the current CTGAP and to develop future global action plans.

Data collection dates: August-September 2021

More than 100 NSOs completed the questionnaire

The results of this survey feeds into two complementary solutions:
  - BN’s Clearinghouse
  - WB’s Global Data Facility

Results will inform the process to update the CTGAP
**NEXT STEPS**

- Consolidate the clearinghouse and user community.
- Continue to strengthen linkages.
