**Shaping the next UNWDF outcome documents**
Principles agreed: Build on existing structure

1. Coordination and strategic leadership on data for sustainable development
2. Innovation and modernization of national statistical systems
3. Strengthening of basic statistical activities and programs
4. Dissemination and use of sustainable development data
5. Multi-stakeholder partnerships for sustainable development data
6. Mobilization of resources and coordination of efforts for statistical capacity building

SA1: Coordination and strategic leadership on data for sustainable development
SA2: Innovation and modernization of national statistical systems
SA3: Dissemination and use of sustainable development data
SA4: Multi-stakeholder partnerships for sustainable development data
SA5: Mobilize resources and coordinate efforts for statistical capacity building
Principles agreed: Adapt to new context

Mid-point of SDGs: challenges

- Covid-19
- Economic crisis
- Conflict
- Climate change
- Energy
- Food insecurity

Mid-point of SDGs: opportunities

- Make case for more evidence
- Integration
- Systems
Summary: Current recommendations

1. Keep the name, Cape Town Global Action (CTGAP)

2. Keep the scope six Strategic Areas (SAs) but simplify the framework, move (SA3) “basic stats activities...” within (SA2) on innovation/modernization

3. Develop a single list of priority areas based on existing objectives and key actions structure, bring in more of current context.
THANK YOU
