Evolution of the SDG Atlas

Visualization and storytelling

2017

Core principles

2023

2018

2020
**SDG 1:** We can end poverty without harming the environment.

**NO POVERTY**

Progress, challenges in ending extreme poverty

SDG 1 calls for ending poverty by 2030. On the eve of the pandemic, 659 million people struggled on less than $2.15 a day. The pandemic halted years of progress in ending extreme poverty, expanding the number of extremely poor people by 70 million. Poor countries will need to grow to end extreme poverty and it can be done without significantly contributing to global emissions.

SDG Targets covered in this story: 1.1, 1.2

**WORLDWIDE**

659 million people in extreme poverty in 2019

Select a highlight country using the 📍 in the header.
SDG 5: Better access to freshwater can be a boon for gender equality

Gender Equality

Realizing gender equality: A greater challenge with climate change

SDG 5 calls for achieving gender equality and empowering all women and girls. Women spend far more time on unpaid and domestic work than men, on average an additional 2.4 hours a day. One in five girls get married before the age of 18. Climate change threatens to worsen these gender inequalities.

SDG Targets covered in this story: 5.1, 5.2, 5.3, 5.4, 5.5, 5.6
