## **SDG Report 2024**

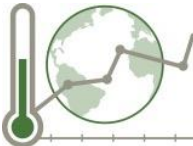

**15<sup>th</sup> IAEG-SDG Meeting**  
**22 October 2024**

# Key findings from The Sustainable Development Goals Report 2024

With six years left, only 17% of SDG targets are on track

Intensifying and interconnected global challenges continue to endanger the SDGs:

-  Impacts of the COVID-19 pandemic
-  Escalating conflicts
-  Growing climate chaos
-  Geopolitical tensions

# SDG Report Card

2024

## Where we stand-- Goals under Review:

**An additional 23 million people** were pushed into extreme poverty in 2022 compared to 2019.

**Over 153 million more** were suffering from hunger in 2023 compared to 2019.

**\$1.5 trillion in fossil fuel subsidies** in 2022- a historic high.

**120 million forcibly displaced persons**, 50% more than 4 years ago and **almost double the level of 2015**.

**\$4 trillion** annual financing gaps to achieve the SDGs.

## SDG Report Card

2030

If trends continue, by 2030:

**590 million people** may still live in extreme poverty and **fewer than 3 in 10 countries** are expected to halve national poverty.

**1 in 5 children** under age 5 will be affected by **stunting**.

**110% more fossil fuels** will be produced than would be consistent with limiting warming to 1.5°C.

**2 billion people** will still live without safely managed drinking water, **3 billion** without safely managed sanitation and **1.4 billion** without basic hygiene services.

**660 million people** will still lack electricity access and around **1.8 billion** will go without clean cooking fuels and technologies.

## SDG Report Card

2030

However, SDG progress already happening can help turn this around:

Central and Southern Asia **reduced working poverty by 46%** between 2015 and 2023.

**134 countries** had already met the reducing child mortality target and **7 more were on track in 2022**.

**Gender parity** in managerial roles in sub-Saharan Africa has **improved more than 40%** since 2000.

Global unemployment **hit a historic low of 5%** in 2023.

**\$100 billion annual climate finance** commitment to developing countries **was met** for the first time in 2022.

Marine protected area coverage **has increased more than tenfold** from 2000 to 2024.

# The Sustainable Development Goals Report

United Nations

Department of Economic and Social Affairs

- The Sustainable Development Goals Reports are the only UN official reports that monitor global progress on the 2030 Agenda for Sustainable Development.
- Using the latest available data and estimates, the reports provide a comprehensive assessment of the 2030 Agenda.
- Prepared by UN DESA, in collaboration with the entire UN Statistical System, consisting of more than 50 international and regional agencies, based on data from over 200 countries and territories.
