Database last updated on Tuesday, December 21, 2021. [See History](#)

If you need help using this site, [Read FAQs](#)

For latest reference metadata information for the Tier I and II indicators in the global indicator framework, explore the [Metadata Repository](#)

This new database interface has been launched on 23 September 2021. Please use the link below for questions and feedback. The old interface is still available for limited time at <https://unstats.un.org/sdgs/indicators/databaseLegacy/>.

2. Access to the SDG Country Profiles

- Population and migration <
- National accounts and labour market <
- Trade and balance of payments <
- Environment <

- 1** No Poverty
- 2** Zero Hunger
- 3** Good Health and Well-being
- 4** Quality Education
- 5** Gender Equality
- 6** Clean Water and Sanitation
- 7** Affordable and Clean Energy
- 8** Decent Jobs and Economic Growth
- 9** Industry, Innovation and Infrastructure
- 10** Reduced Inequalities
- Sustainable Cities and Communities

No Poverty

End poverty in all its forms everywhere

The proportion of population living below the national poverty line increased from **33.7 %** in **2007** to **54.5%** in **2016**.

3. The entirely new SDG Analytics

Allows the interactive analysis of data availability, to review global and regional trends for individual indicators (data series) and to compare trends for countries and areas and for different indicators (data series).

The screenshot shows the top navigation bar with 'Data' selected. The 'Data Availability' dropdown menu is open, showing options like 'Overview', 'Global Database', 'Country Profiles', 'SDG Analytics', 'SDG API', 'SDMX-SDGs', and 'Open Data Hub'. The 'SDG Analytics' option is highlighted, and a sub-menu is visible with options: 'Data Availability', 'Global and regional trends', 'Compare trends of one series by areas', and 'Compare trends of multiple series by one area'. Below the menu, there are filters for 'Data points for a country, by series' and 'Select analysis type'.

Compare countries across Goal 3

Data for at least one year since 2015, by country (average across indicators in percent)
