Summary of SDG Indicators Assessment

Tier Classification of Indicators at the National Level*

Tier I – with established methodology , regularly collected

Tier II - with established methodology, data not regularly collected

Tier III - no established methodology, methodologies are being developed/tested

*Results of the series of consultative/assessment workshops based on the 232 SDG indicators

Summary of SDG Indicators Assessment

Distribution of the Tier 2 and 3 indicators, by inclusion in the PDP and PSS Statistical Capacity

A – Indicator is in the PDP and PSS has some initial activities or already has concrete plans to address data gap

B- Indicator is NOT in the PDP (including the PDP results matrix) but PSS has some initial activities or already has concrete plans to address data gap

C-Indicator is NOT in the PDP (including the PDP results matrix) and PSS DOES NOT HAVE activities or concrete plans yet to address data gap

D- Indicator is in the PDP (including the PDP results matrix) and PSS DOES NOT HAVE activities or concrete plans to address data gap

Summary of SDG Indicators Assessment

Note: Classification of indicators are based on initial assessment by the PSA SDG Team.

Philippine SDG Focal Points (SDGFP)

- ❑ Consists of permanent and alternate focal persons from **34 national government agencies**
- ❑ The SDGFP plays a vital role in the **methodological developments** of SDG indicators and in the efficient **updating of the SDG Watch and Database**

Philippine SDG Focal Points (SDGFP)

- ❑ SDGFP provides **technical support/ guidance in the review the Philippine SDG indicators** and other relevant SDG-related indicators taking into account the national and sub-national priorities

DRAFT Philippine SDG Data Flow

- ❑ A **national data flow (NDF) and reporting mechanism** of the SDG indicators guided by the global data flow is currently being developed by the PSA and the SDGFP;
- ❑ **Data source agencies are enjoined to provide relevant data/information and metadata** for each of the SDG indicators with the data disaggregation needed to their respective PSA SDG Team sector specialist for validation;

DRAFT Philippine SDG Data Flow

- If data is available but not yet in indicator form,** PSA SDG Team Sector Specialist will process the data to generate the SDG indicator using the submitted input data
- There should be a note in the metadata that the indicator was a special tabulation made by the PSA using the data inputs provided by the data source agency;

DRAFT Philippine SDG Data Flow

- If data provided has methodological issues**, the PSA SDG Team sector specialist will coordinate with the relevant interagency Committee (IAC) for review and discussion, the proposed methodology will then be recommended to the PSA Board for approval if needed;
- PSA SDG Team Overall Coordinator will **compute for the measures of progress and update the data in the SDG Watch and the SDG Database**

DRAFT Philippine SDG Data Flow

- ❑ Considering the **various data collection calendar** of the custodian agencies and that the **SDG Watch is only updated annually**, the Philippine SDG Focal Persons may coordinate directly with the custodian agencies on the provision of latest SDG-related data and other methodological developments.
- ❑ However, the concerned **PSA SDG sector specialist should be copied** in the submission of any information related to SDG indicators for proper documentation.

Sustainable Development Goals

In September 2015, the United Nations Member States adopted the 2030 Agenda for Sustainable Development, entitled, "Transforming Our World: The 2030 Agenda for Sustainable Development". Its 17 Goals and 169 targets are a universal call to action to end poverty, promote people-centered and planet-sensitive change.

The 193 member states of the United Nations have agreed to end all forms of poverty, fighting inequalities and increasing social inclusion and curbing climate change, ensuring that no one is left behind over the next few decades.

The Sustainable Development Goals (SDGs) are universal, people-centered and nature and universally applicable, and take into account the needs of all people, at all levels of development and respecting national circumstances. They are expected to take ownership and establish national policies and programs guided by the global level of ambition but taking into account the national achievement of the 17 goals. Countries will also ensure that the SDGs should be incorporated in national planning processes.

In monitoring the SDGs and its corresponding targets, the PSA, in coordination with the Inter-Agency and Expert Group on SDG Indicators, has developed an indicator framework consisting of 232 unique indicators.

In line with the Philippines' commitment in the 2012 United Nations Millennium Declaration, Resolution No. 04 Series of 2016, Enjoining Government Agencies to Implement Sustainable Development Goals (SDGs). In this Resolution, the PSA is designated as the official repository of SDG indicators in the Philippines.
