FAO works with the countries of Latin America and the Caribbean to implement the Hand in Hand initiative, to create poverty eradication strategies for the most underdeveloped territories, also participating in the Alliance to Eliminate Rural Poverty (S91). To eradicate hunger, FAO supports the Parliamentary Fronts Against Hunger, school feeding programs and sustainable food supply systems (SDG2). FAO also helps to streamline gender policies and programs to improve women’s food security and access to land and productive resources (SDG5). The Organization helps countries to monitor drought and improve their use of water in agriculture (SDG9). FAO is working with partners to create synergies between social protection and productive programs (SDG10). FAO strongly promotes innovation and digitalization in agriculture (SDG9) and the reduction of food waste and losses (SDG12). The Organization also promotes climate resilient practices, low-carbon livestock and climate-smart agricultural practices for smallholder farmers, disaster risk monitoring and early warning systems (SDG13). FAO is helping countries to create programs for the major international funds to fight climate change, such as the Green Climate Fund, supporting countries’ efforts to fight deforestation and reduce greenhouse gas emissions (SDG13). We also promote government’s efforts to fight illegal, unreported and unregulated fishing (SDG14), improve their protected areas in the Amazon basin, create soil carbon maps and reduce illegal logging (SDG15).
REGIONAL STATISTICAL MONITORING

Institutional architecture for regional statistical follow-up to the SDG in Latin America and the Caribbean

Prioritized set of indicators for regional statistical follow-up to the SDGs in Latin America and the Caribbean

National statistical capabilities to produce the global SDG indicators

Statistical Coordination Group for the 2030 Agenda in Latin America and the Caribbean

UN Funds, Programmes and Specialized Agencies

Statistical Conference of the Americas of ECLAC (SCA/ECLAC)

REGIONAL LEVEL
GOAL 7
Ensure access to affordable, reliable, sustainable and modern energy for all

TARGET 7.1 By 2030, ensure universal access to affordable, reliable and modern energy services

INDICATOR 7.1.1 Proportion of population with access to electricity
Proportion of population with access to electricity, by urban/rural (%): EG_ELC_ACCS

INDICATOR 7.1.2 Proportion of population with primary reliance on clean fuels and technology
Proportion of population with primary reliance on clean fuels and technology (%): EG_EGY_CLEAN

TARGET 7.2 By 2030, increase substantially the share of renewable energy in the global energy mix

INDICATOR 7.2.1 Renewable energy share in the total final energy consumption
Renewable energy share in the total final energy consumption (%): EG_FEC_RNEW

TARGET 7.3 By 2030, double the global rate of improvement in energy intensity

INDICATOR 7.3.1 Energy intensity measured in terms of primary energy and GDP
Energy intensity level of primary energy (megajoules per constant 2011 purchasing power parity GDP): EG_EGY_PRIM

TARGET 7.4 By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and renewable energy.

Sustainable Development Goals / INDICATOR 7.1.2 Proportion of population with primary reliance on clean fuels and technology (%)

Proportion of population with primary reliance on clean fuels and technology (%)

NATIONAL STATISTICAL OFFICE AND ITS ROLE IN MONITORING THE SDGS

National Statistical Office (NSSO)
Instituto Nacional de Estadísticas e Informática (INE)

INE assumes responsibility for monitoring and monitoring the progress of the 17 Objectives. Developed and maintains a monitoring site for the Indicators.

Paraguay

This profile was developed by ESCAG based on official national SDG statistics, which are not necessarily comparable among countries. One indicator has been selected for each of the 17 Goals for which information is available. To access full national information, visit the National SDG Platform.

GOAL 1: End poverty in all its forms everywhere

Proportion of the population living below the national poverty line, 2015-2018 (Percentages)

GOAL 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture

Proportion of households with deficient caloric availability, 2011-2012 (Percentages)

GOAL 3: Ensure healthy lives and promote well-being for all at all ages

Maternal mortality ratio per 100,000 live births, (pros 100,000 live births), 2015-2016 (Percentages)

GOAL 4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

Percentage of boys and girls in first grade of primary school who attended preschool, 2016-2018 (Percentages)
Actions and activities aimed at enhancing the measurement, use and dissemination of the SDG indicators

Report on actions and activities by international organization

UNITED NATIONS ENVIRONMENT PROGRAMME (UNEP)

Countries being supported by UNEP to improve the monitoring and reporting of the SDGs

UNEP is the custodian agency for 28 indicators in the global indicator framework for the SDGs and participates as a partner agency in 56 indicators, being involved in the measurement aspects of 84 indicators that are distributed throughout much of the SDGs. At the regional level, UNEP has worked with countries to define two basic sets of indicators to measure progress on the environment. Additionally, UNEP strengthens the capacities of the countries’ environmental statistics teams to produce environmental statistics for the national report on the environmental dimension of the SDGs, with an emphasis on capacity building for the development of Environmental Economic Accounts and integration of geospatial and statistical data.
