

Session 6.2: Presenting data, user engagement and making data meaningful

United Kingdom

Fiona Dawe

Office for National Statistics

VNR – how did we present the data

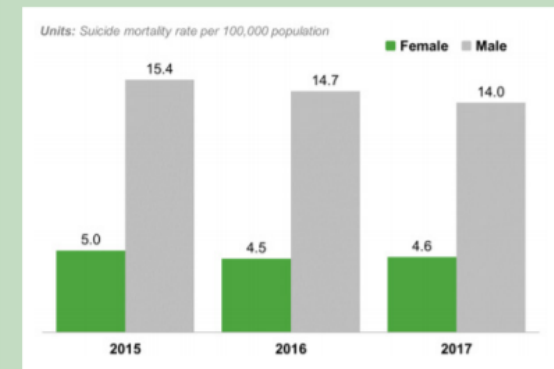

5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence	Proportion of women and girls aged 16 to 59 subjected to sexual assault in the last 12 months.	3.08% 2016/17, England and Wales	Sexual offences - appendix tables https://www.ons.gov.uk/peoplepopulationandcommunity/crimeandjustice/datasets/sexualoffencesappendixtables	Data for women and girls subjected to sexual violence specifically by persons other than an intimate partner are not available.
5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18	Number of women aged 20 to 24 who have been married by age 17 and by age 18.	0.6 per thousand population by age 18, 0.2 per thousand population by age 17 2019, England and Wales	Proportions of women who had ever married by age 17 and by age 18, for grouped birth cohorts, 1976 to 1980 and 1990 to 1994 inclusive https://www.ons.gov.uk/peoplepopulationandcommunity/birthsdeathsandmarriages/marriagecohabitationandcivilpartnerships/adhocs/009867womenaged20to24yearswhohadevermarriedbyages17and18yearsgroupedbirthcohorts1976to1980and1995to1999englandandwales	Data for marriages before age 15 are not available. The legal minimum age to enter into a marriage in the United Kingdom is 16 years.
5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	Proportion of girls and women who have undergone female genital mutilation/cutting by age at which mutilation/cutting occurred.	220.16 per million population 2017/18, England	Female Genital Mutilation Datasets https://digital.nhs.uk/data-and-information/publications/statistical/female-genital-mutilation Population Estimates for UK, England and Wales, Scotland and Northern Ireland https://www.ons.gov.uk/peoplepopulationandcommunity/populationandmigration/populationestimates/datasets/populationestimatesforukenglandandwalesscotlandandnorthernireland	Data are presented as a rate per million population rather than proportion.

The Data Picture: Suicide mortality rate

Coverage: England

Suicide rates in England are declining overall, from 10.1 (2015) to 9.2 (2017) per 100,000 population. However, a marked gender split remains, with males accounting for three-quarters of suicides in 2017 and at risk of being left behind.

Suicide mortality rate per 100,000 population by gender: 2015 to 2017

Source: ONS, *Suicide in the United Kingdom (2018)*

Data at the HLPF

Video

- Goal 5: This Girl Can campaign – driven by the gender gap in participation found in the data
- Goal 2: 1,775 healthy breakfasts provided free through the National School Breakfast Club

Data at the HLPF

Claire Melamed (GPSDD)

“...data is the lifeblood of the SDGs and makes the goals so powerful as an instrument of change. Data collected by government to report on the progress of the goals is the raw material for accountability and the backbone of decision making.”

Data at the HLPF

Claire Melamed (GPSDD)

“So I’m asking you all, as you make your plans and your investments to achieve the SDGs... to invest in the thing that makes everything else possible, the data which shines a light on progress and can illuminate the darkest corners of the world.”

Reflections

- 200 page document - usability??
- Interactive and filterable data visualisations
- More disaggregations
- Sustain and continue to enhance cross-Whitehall awareness of and engagement on SDG data
