SDG Data for VNRs in Asia-Pacific

Workshop on supporting evidence-based Voluntary National Reviews (VNRs) and SDG reporting: data and statistics innovations
6 December 2023

Dayyan Shayani
Statistics Division

ESCAP
How is data used in VNR reporting?
Average number of indicators in the statistical table (annex) or the report analysis
Proportion of VNR reports with a **progress dashboard**
Option 1: data flood

Option 2: data desert

Option 3: data insights
National SDG Tracker
Objective

• Support the **VNR process** with data to guide consultations

• Utilize all available evidence to reinforce the report’s key messages
National SDG Tracker

National indicators and data

National target values
Review SDG indicators localization

Set target values for 2030

Pinpoint data gaps

Identify priorities for action
Addressing the gaps – Example

SDG16 stakeholder workshop in Thailand
Sub-national Tracking in the Philippines

**Indicator**

3.1.1 Proportion of children under five years of age attended by skilled health personnel.

3.1.2 Under-five mortality rate (per 1,000 live births).

3.2.2 Neonatal mortality rate (per 1,000 live births).

3.4.1 Mortality rate attributable to cardiovascular disease, cancer, diabetes, and chronic respiratory disease (per 100,000 population).

**Goal (group)**

People

**Region comparison**

- No direction
- Stagnant
- Performer
- Regressing

**Area**

Sub-national Tracking in the Philippines

- Participative analysis based on official data
- Identification of areas that need attention for each region/province
- Developing regional/provincial SDG implementation plans
THANK YOU
