2. Definition, concepts, and classifications

2.a. Definition and concepts

Definition:
The indicator Proportion of members and voting rights of developing countries in international organizations has two components, the developing country proportion of voting rights and the developing country proportion of membership in international organisations. In some institutions these two components are identical.

The indicator is calculated independently for eleven different international institutions: The United Nations General Assembly, the United Nations Security Council, the United Nations Economic and Social Council, the International Monetary Fund, the International Bank for Reconstruction and Development, the International Finance Corporation, the African Development Bank, the Asian Development Bank, the Inter-American Development Bank, the World Trade Organisation, and the Financial Stability Board.
Concepts:
There is no established convention for the designation of "developed" and "developing" countries or areas in the United Nations system. In common practice, Japan in Asia, Canada and the United States in Northern America, Australia and New Zealand in Oceania, and Europe are considered "developed" regions or areas. The aggregation across all institutions is currently done according to the United Nations M.49 statistical standard which includes designation of “developed regions” and “developing regions”, while an ongoing review seeks to reach agreement on how to define these terms for the purposes of SDG monitoring. The designations "developed" and developing" are intended for statistical convenience and do not necessarily express a judgement about the stage reached by a particular country or area in the development process.

2.b. Unit of measure

Proportion of membership or voting rights.

2.c. Classifications

3. Data source type and data collection method

3.a. Data sources

Annual reports, as presented on the website of the institution in question, are used as sources of data. Sources of information by institution:

United Nations General Assembly: website of the General Assembly
United Nations Economic and Social Council: Report of the Economic and Social Council for the respective year
International Monetary Fund: Annual Report for the respective year
International Bank for Reconstruction and Development: Management’s Discussion & Analysis and Financial Statements for the respective year
International Finance Corporation: Annual Report (volume 2) for the respective year
African Development Bank: Annual Report for the respective year
Asian Development Bank: Annual Report for the respective year
Inter-American Development Bank: Annual Report for the respective year
Financial Stability Board: Charters of the Financial Stability Board

List:

3.b. Data collection method

Desk review.
3.c. Data collection calendar

Annually in March.

3.d. Data release calendar

- United Nations General Assembly: continuous
- United Nations Security Council: annually in September
- United Nations Economic and Social Council: annually in October
- International Monetary Fund: annually in October
- International Bank for Reconstruction and Development: annually in September
- International Finance Corporation: annually in September
- African Development Bank: annually in May
- Asian Development Bank: annually in April
- Inter-American Development Bank: annually in April
- World Trade Organisation: annually in May
- Financial Stability Board: annually in January

3.e. Data providers

- **Name:** UNGA, UNSC, ECOSOC, IMF, IBRD, IFC, AfDB, ADB, IADB, WTO, FSB.

- **Description:**
  The United Nations General Assembly, the United Nations Security Council, the United Nations Economic and Social Council, the International Monetary Fund, the International Bank for Reconstruction and Development, the International Finance Corporation, the African Development Bank, the Asian Development Bank, the Inter-American Development Bank, the World Trade Organisation, and the Financial Stability Board.

3.f. Data compilers

- **Name:** FFD/UN-DESA

- **Description:**
  The data is compiled and the proportions calculated by the Financing for Sustainable Development Office, United Nations Department of Economic and Social Affairs.

3.g. Institutional mandate
4. Other methodological considerations

4.a. Rationale

The UN is based on a principle of sovereign equality of all its Member States (Article 2, UN Charter). This indicator aims to measure the degree to which States enjoy equal representation in international organizations.

4.b. Comment and limitations

Cross institutional comparisons need to pay attention to the different membership of the institutions. Voting rights and membership in their institutions are agreed by the Member States themselves. As a structural indicator, there will be only small changes over time to reflect agreement on new States joining as Members, suspension of voting rights, membership withdrawal and negotiated voting rights changes.

4.c. Method of computation

The computation uses each institutions’ own published membership and voting rights data from their respective annual reports. The proportion of voting rights is computed as the number of voting rights allocated to developing countries, divided by the total number of voting rights. The proportion of membership is calculated by taking the number of developing country members, divided by the total number of members.

4.d. Validation

N/A

4.e. Adjustments

N/A

4.f. Treatment of missing values (i) at country level and (ii) at regional level

N/A

4.g. Regional aggregations

Aggregations are additive, with no weighting.

4.h. Methods and guidance available to countries for the compilation of the data at the national level

N/A

4.i. Quality management

Internal review.

4.j Quality assurance
4.k Quality assessment

5. Data availability and disaggregation

Data availability:
Available for all countries.

Time series:

Disaggregation:
Data is calculated and presented separately for each international organization.

6. Comparability / deviation from international standards

N/A

Sources of discrepancies:
