

**CAPMAS Cooperates with United Nation Group of Experts on The World Geographical Names Data set ,Which is Multilingual, multiscruptual dataset of names of countries, capitals and major cities .**

# UNGEGN WORLD Geographical Names

Geographical Names Database | About | FAQ | Feedback | Contact Beta version

World

Roll over a country to display the country name in the six UN languages. Point to a city to see the city endonyms (where available and in romanized form only) and the English name. Capital cities are shown in red, other cities are shown in green.

Note: Depending on the computer settings, some names might not be able to be displayed properly.

Notes:

- The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the United Nations. The source for the file is **LANGTNS**
- The Arabic fonts are not connected at this stage because of technical problems. It will be fixed soon.

UNGEGN World Geographical Names  
Multilingual, multiscruptual dataset of names of countries, capitals and major cities.
