

OECD recent outputs and work programme

Annabelle Mourougane
Statistics and Smart Data Directorate

UNCEBTS, Merida, 18-21 September 2023

Outline

- Recent publications in international trade and initiatives
- Monitoring recent economic developments, including using business statistics
- Focus on alternative data sources

A globe of the Earth is shown, overlaid with a complex network of white lines and nodes, representing global connectivity or trade. The globe is set against a dark, starry space background with streaks of light. A large blue diagonal shape covers the bottom-left portion of the image, containing the text.

International Trade and MNEs

Methodology and international standards

- **OECD Working Party on Trade in Goods and Services Statistics** assists the CSSP in improving the quality of international trade statistics (covering **digital trade**, trade-related indicators of **globalisation**, bilateral trade **asymmetries**, **nowcasting**...)
 - Thematic groups: **Expert Group on Extended SUTs, Regional-Global TiVA initiatives, Expert Group on Trade in Services Compilation and Asymmetries**
- Members of **BOPCOM** and **UNCEBTS** : Contribute to the revision of the balance of payments manual and of the trade statistics manuals.
- Participation in other international working groups (**Eurostat** and **ECB**)

Handbooks

- **Revision of the Handbook on measuring digital trade**, jointly with WTO, IMF and UNCTAD
- **First Handbook on Extended Supply and Use Tables**, in cooperation with JRC (led by Oscar Lemmers from CBS)

The GIANT initiative

- **Global Input-output AccouNTs**
- It is an **inter-agency network** consisting of ADB, European Commission, OECD, the IMF, the WTO and UN-ECLAC.
- The goal is to converge on a common global benchmark for the input data used to produce ICIOs. This will help to ensure comparability and consistency across different institutions and regions and help identify synergies.

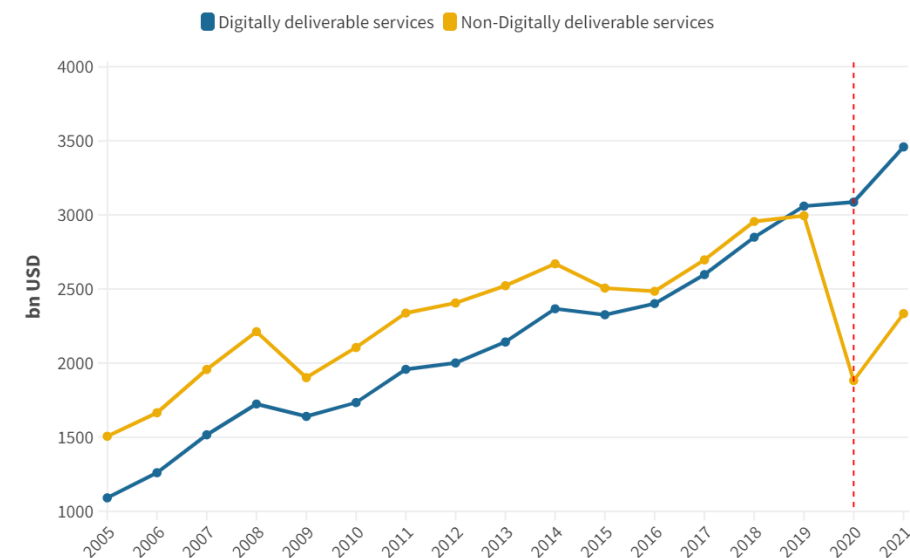

Analytical databases on international trade

- Update of **BaTiS**: Balanced Trade in Services dataset : 200 reporters and partners and 12 main EBOPS services categories (2005- 2021)

[Decoding global services trade: The power of the OECD-WTO BaTiS dataset](#)

- New analytical **bilateral merchandise trade dataset** (forthcoming)
- Revised dataset on **International Transport and Insurance Cost** (forthcoming)

Services that can be delivered digitally are growing fast

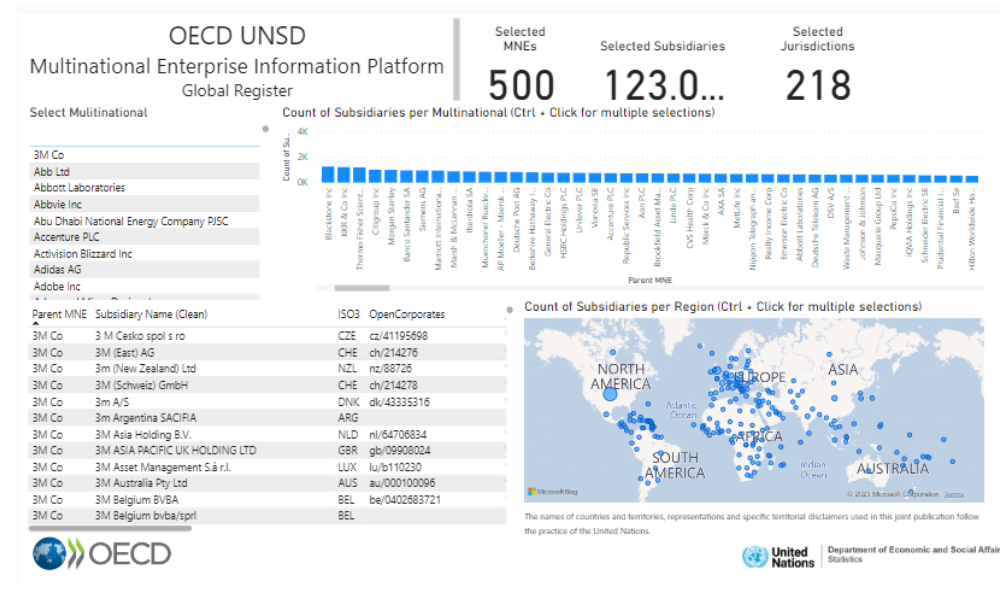

Source: OECD (2023). Balanced Trade in Services dataset (BaTiS)

MEIP - Multinational Enterprise Information Platform

- **Joint OECD-UNSD MNE profiling tool** which replaces ADIMA and GGR
- First publication in February 2023 (with data up to 2021)
- Use a number of open big data sources to provide new **insights on 500 individual MNEs** and their global networks
- **Physical and digital presences of MNEs**

Find out more: [MEIP](#)

Monitoring Economic Developments

Monitoring short-term developments

- Latest developments in **merchandise and services** trade

[Facing economic headwinds: Global trade in 2022](#)

[G20 merchandise trade declined in Q2 2023, and services trade appears to have slowed](#)

- Monthly press releases on **CPI inflation, unemployment/employment/labour force**

[All press releases](#)

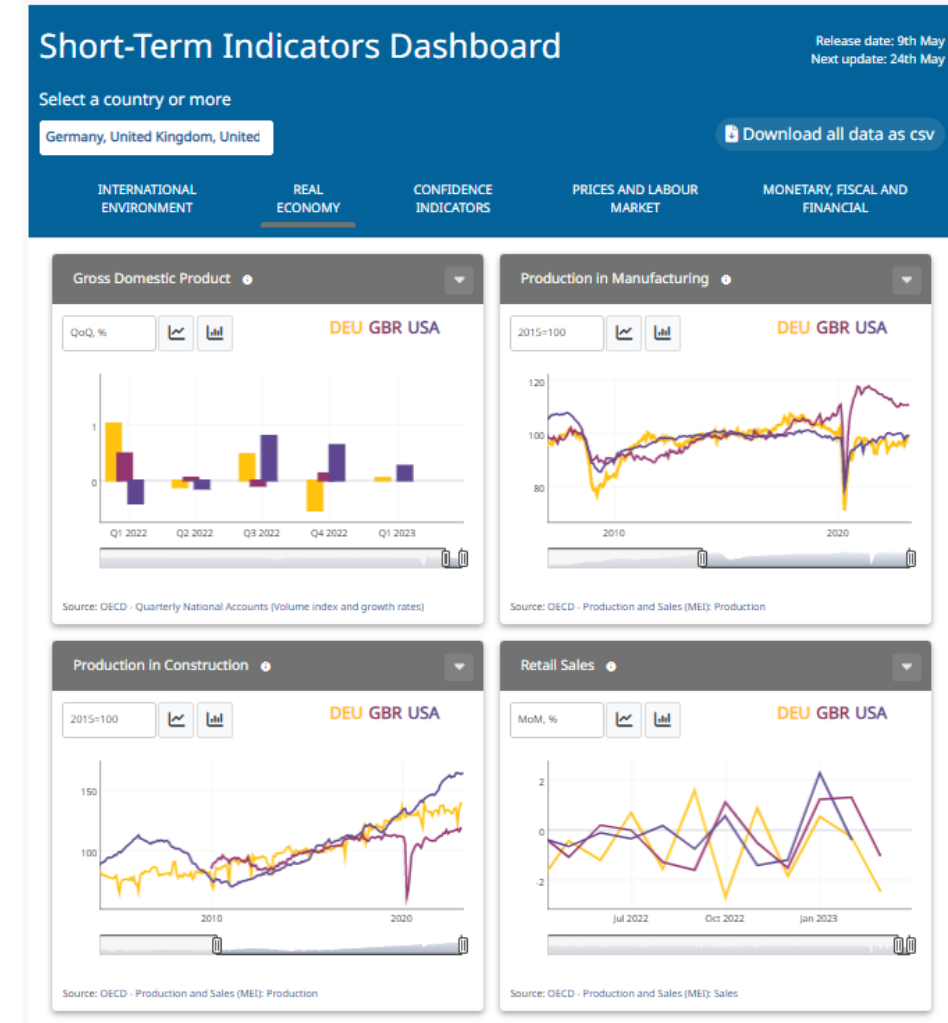

OECD Short-Term Indicators Dashboard

- Interactive tool to **track latest short-term economic developments**
- **23 indicators** for **G20 countries plus Spain** to monitor **5 domains**: global environment, real economy, confidence indicators, prices/labour and financial market and economic policies.
- Indicators are **updated twice a month**
- Possible downloads of CSV files, charts and/or sharing on social networks

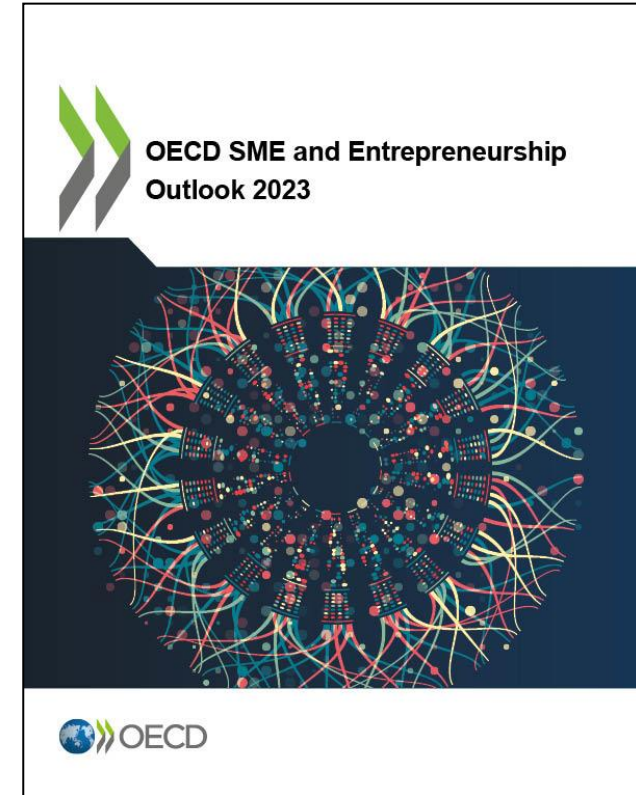

Find out more: [OECD Short-Term Indicators Dashboard](https://data.oecd.org/short-term-indicators/)

Business dynamics

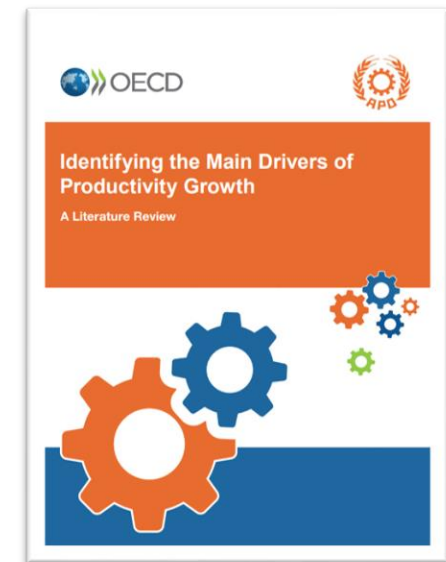

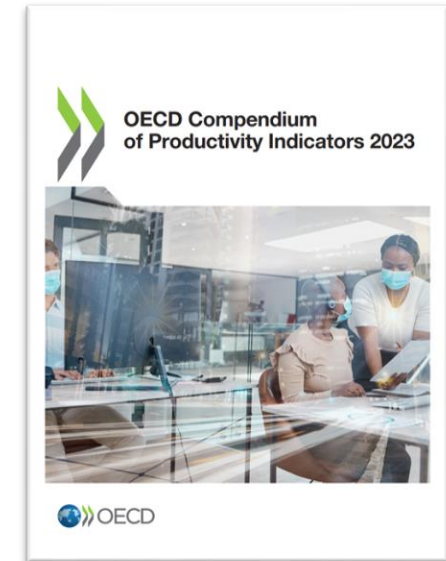

- Timely indicators of entrepreneurship
- 2 Chapters of the 2023 **SME & Entrepreneurship Outlook**, published on 27th June :
 - **SME developments** and forthcoming challenges
 - **Women** entrepreneurship and engagement in international trade

Productivity

- **Productivity compendium:**
 - [Special chapter on reallocation also published in VOXeu](#)
- Report on the main drivers of productivity growth and main measurement challenges
- Sensitivity analysis of capital and MFP
- Ongoing work on **MFP by industry** and **sustainable productivity**.

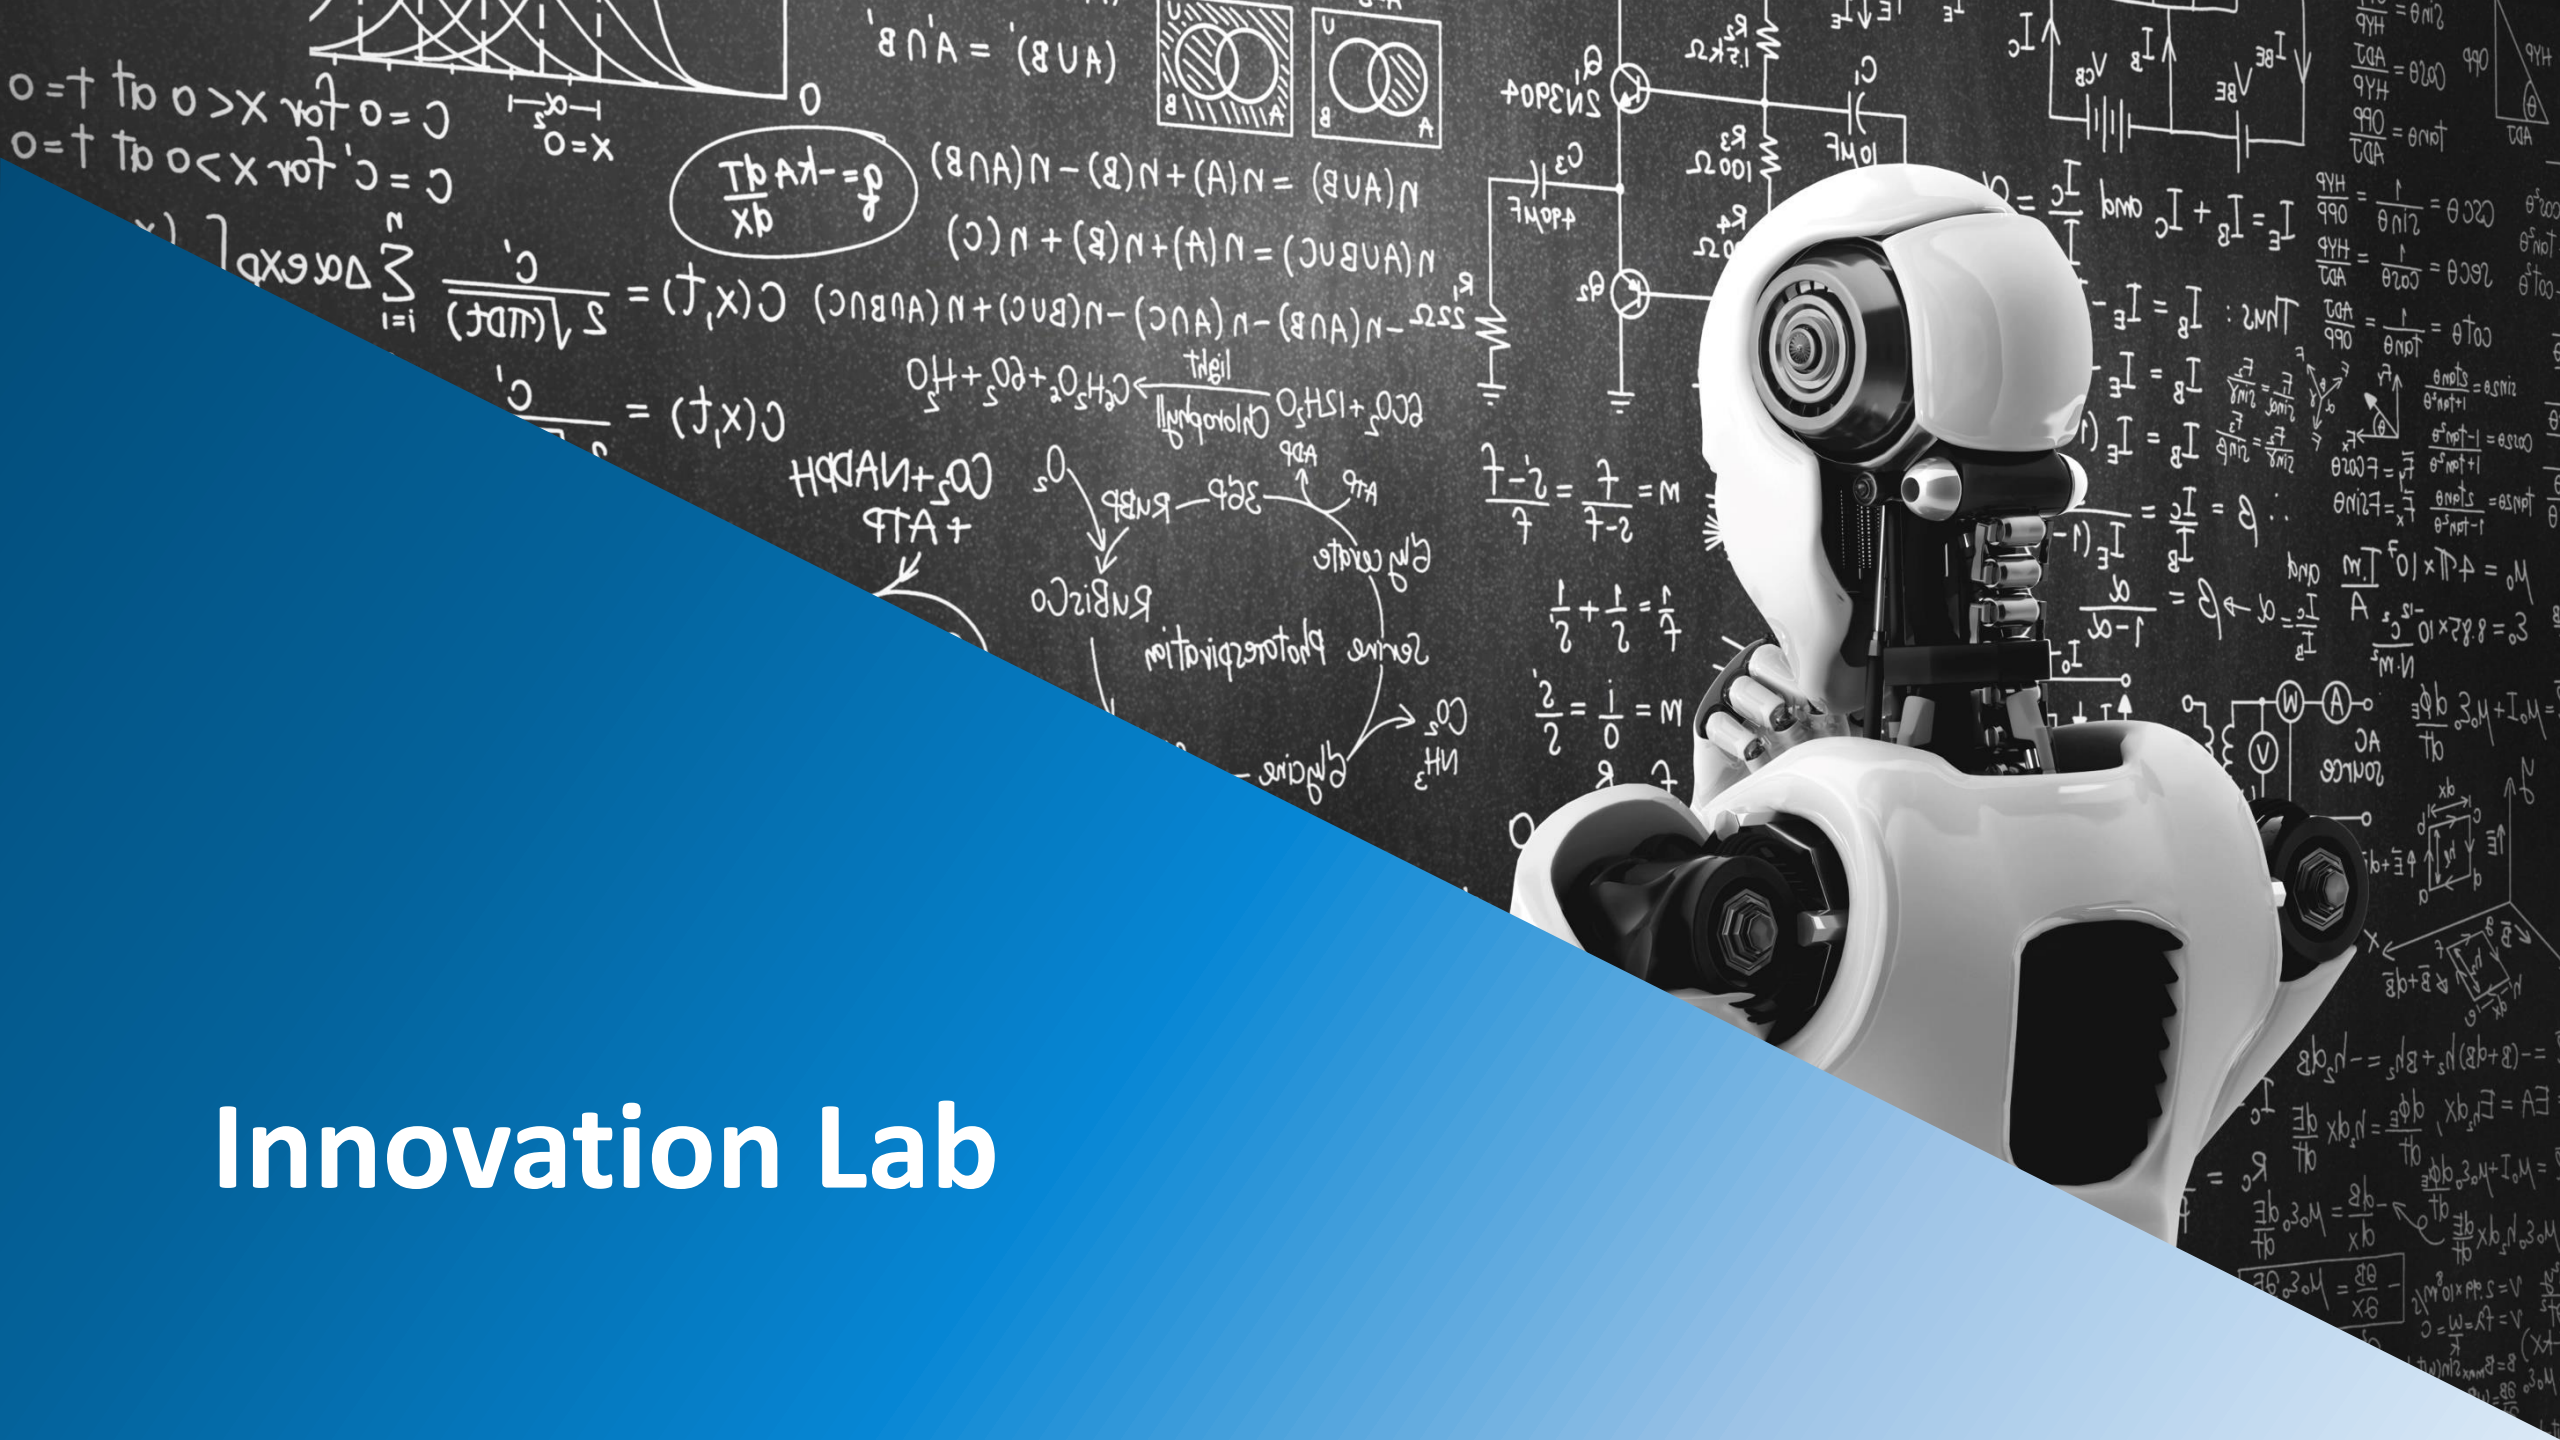

Prices and Purchasing Power Parities

- **CPI inflation**
 - Work on seasonal adjustment
- **Purchasing Power Parities**
 - Joint Eurostat-OECD workshop and meeting on PPPs (May)
 - Revised Manual (planned in 2023)

Innovation Lab

Innovation Lab

- Trend toward the use of **alternative data sourcing** in technical and policy work
- **Work programme:**
 - **Experimental estimates of data-intensive jobs** in the United Kingdom, the United States and Canada using online job ads and natural language processing.
 - Nowcasting **TiVA indicators** using machine-learning
 - An **Ocean of Data: the potential of data on vessel traffic**, using The Automatic Identification System (AIS)

Thank!

Gracias!
