

Directory of statistical services of international organisations

Brief description of the organisation¹	<p>The Partnership in Statistics for Development in the 21st Century (PARIS21) promotes the better use and production of statistics throughout the developing world. Since its establishment in 1999, PARIS21 has successfully developed a worldwide network of statisticians, policy makers, analysts, and development practitioners committed to evidence-based decision making. With the main objective to achieve national and international development goals and reduce poverty in low- and middle-income countries, PARIS21 facilitates statistical capacity development, advocates for the integration of reliable data in decision making, and co-ordinates donor support to statistics.</p> <p>PARIS21 was established by the United Nations, the European Commission, the Organisation for Economic Co-operation and Development (OECD), the International Monetary Fund, and the World Bank.</p>
