Subject:

Dear Paul

I am referring to your letter of October 25 2005. The WHO supports the principles and related good practices for international statistics, as endorsed by the Committee for the Coordination of Statistical Activities. In my capacity as the Director of the Department of Measurement and Health Information Systems of the Evidence and Information for Health Policy cluster (MHI/EIP) I wish to express my professional commitment to apply these principles and practices in the work of the MHI/EIP, to the extent possible, within the current rules and other administrative procedures within the World Health Organization.

Best regards.

Yours sincerely,

Ties Boerma
Director
Measurement and Health Information
Systems
