Disability data demand: Incheon Strategy for a current Decade

- High-level governmental commitment
- ESCAP resolution 69/13
- Disability-specific development goals
- Focus on evidence-based M&E
Incheon Strategy
Same structure as the SDGs
Disability-Inclusive Development:
Incheon Strategy strengthening the 2030 Agenda

The links are based on the specific targets of
the Incheon Strategy and Sustainable Development Goals
10 Incheon goals: all embracing

Goal 1: Reduce poverty & enhance work & employment prospects
Goal 2: Promote participation in political processes & in decision-making
Goal 3: Enhance access to the physical environment, public transportation, knowledge, information & communication
Goal 4: Strengthen social protection
Goal 5: Expand early intervention & education of children with disabilities
Goal 6: Ensure gender equality & women’s empowerment
Goal 7: Ensure disability-inclusive disaster risk reduction & management
Goal 8: Improve the reliability & comparability of disability data
Goal 9: Accelerate the ratification & implementation of the CRPD & the harmonization of national legislation with the Convention
Goal 10: Advance subregional, regional & interregional cooperation
Indicators: all embracing
Goal 1: Reduce poverty and enhance work and employment prospects

1.1 Proportion of persons with disabilities living below the US$ 1.25 (PPP) per day international poverty line, as updated by the World Bank and compared to the overall population

1.2 Ratio of persons with persons with disabilities in employment to the general population in employment

1.3 Proportion of persons with disabilities who participate in government-funded vocational training and other employment-support programmes as a proportion of all people trained
Goal 2: Promote participation in political processes and in decision-making

2.1 Proportion of seats held by persons with disabilities in the parliament or equivalent national legislative body

2.2 Proportion of members of the national coordination mechanism on disability who represent diverse disability groups

2.3 Proportion of those represented in the national machinery for gender equality and women’s empowerment who are persons with disabilities

2.4 Proportion of polling stations in the national capital that are accessible with processes in place that ensure confidentiality of voters with disabilities
Goal 8: Improve the reliability and comparability of disability data

8.1 Disability prevalence based on the ICF by age, sex, race and socioeconomic status

8.2 Number of Governments in Asia and the Pacific that have established, by 2017, baseline data for tracking progress towards the achievement of the Incheon Strategy goals and targets

8.3 Availability of disaggregated data on women and girls with disabilities in mainstream development programmes and government services, including health, and sexual and reproductive health, programmes.
Need for comparability: disability prevalence

ESCAP DAG 2015
Fasting-approaching
2017 midpoint review

World’s first disability-specific data base on social and economic development

2016 Oct Questionnaire
2017 Feb Deadline for responses for the Questionnaire
2017 Oct HILGM on the midpoint review
Conclusion

Disability data collection: must (not an option)

Regional database contributing to the global SDGs process

NSOs are crucial: focal point on establishing a baseline data for the IS indicators (IS para 24)

Multi-ministerial cooperation
