Experiences

Knowing what
does not work

- National plan on disability statistics
 - Aligned with national, regional and global monitoring needs
 - Consulted and agreed, part of NSDS → funded, political & institutional support
 - NSO leads coordination: Inter-ministerial group for statistical coordination (what about CSO)?
- Global/regional
 - Development
 - Harmonized measurement standards
 - Guidelines for data collection, dissemination and analysis (census, sample surveys & admin data)
 - IAEG-SDGs, especially data disaggregation
 - Training, technical assistance
 - Outreach/advocacy/awareness-raising
 - International working group on disability statistics?

- Looking ahead, regional level
- High-level ministerial meeting in 2017 in Beijing
 - Establishing baseline data for Incheon Strategy
- Sub-regional workshops on SDG data
 - Mapping of national, regional and global indicators
 - Incheon Strategy Indicators are part of exercise
- Committee on Statistics in December 2016
