

Gender Statistics and Analysis in Japanese Agriculture

Mayumi Sato, Researcher

Policy Research Institute, Ministry of Agriculture, Forestry and Fisheries(PRIMAFF), Japan

Abstract:

In this presentation, we will first explain the outline of 2015 Census of Agriculture and Forestry incorporating gender point of views related items recommended by FAO, and then illustrate the situation of efforts to promote female success in Japanese agriculture. Lastly we will show the current trend of female labor force engaged in family farm and their management participation.
