## The Technical meeting

Laying the groundwork for an integrated and harmonized information system of labor migration statistics (SIMIMO), under the leadership of the leadership of the HCP, through:

- mobilizing all the actors involved in the collection, production, and analysis of these mobilizing all actors involved in the collection, production, and analysis of these statistics and raising their awareness;
- examining the limitations and shortcomings of available statistics identifying capacity building needs;
- formulating recommendations, measures and concrete actions to be implemented to to be implemented to improve the quality of statistics.

## The Technical meeting

- Concepts and definitions for labor migration, Emigrants, Immigrants, Returning migrants, Irregular migrants, Regular migrants, Refugees and asylum seekers);
- Classifications used: (National classifications, International classifications; Ad-hoc classifications (for specific need);
- Types of indicators produces
- Reference periods used (One year, a few months, five years, ten years)
- Reference periods recommended at the international level
- Data sources: Census, Surveys, Administrative statistics ....
- Data collection and production methods
- \_ Collection process; Data processing and exploitation methodes;-Data entry method, Database (in what form, software used,

## Next steps

- Process of implementing measures and ways to improve SMIMO (Results, activities, technical aspects, processes, responsible actors, deadlines, budget estimate, etc.)
- Measures and actions to be implemented will be prioritized according to the capacity building needs of the actors, the logistical possibilities available, the degree of simplicity of their implementation, and the time required for their realization.

## Main challenges

- Data is produced for administrative purpose only;
- Difficulties to assimilate concepts and definitions from non statisticians;
- Reticence to share data with other users;
- Resistance to change;
- leadership and coordination.

# Thanks
