Communication of International migration statistics in Lithuania

Dr. Inga Masiulaitytė-Šukevič

Prepared by Experts from State Data Agency (Statistics Lithuania)
Vanda Vaitekūnienė, Laura Pušinskienė
Overview

• Production of data on international migration
• State Data Governance Information System
• Dissemination of international migration statistics
• Conclusions
International Migration Statistics

Official statistical program
- Official statistics
- Experimental statistics

State Data Governance program
- Operational statistics
- Open data
Producers of Official statistics

State Data Agency
- International and internal migration statistics

Migration Department under the Ministry of the Interior of the Republic of Lithuania
- Statistics of international protection, granted/deprived citizenship, residence permits and return of persons

State Border Guard Service under the Ministry of the Interior of the Republic of Lithuania
- Statistics of third-country nationals refused entry to the territory of the country
Dissemination of Official statistics

• All statistical information: tables, infographics, press releases, publications produced according to the Official Statistics Programme are published and made available to the public free of charge on the Official Statistics Portal.

• Information on data sources, methods and procedures are provided in the survey methodology and metadata report.

• Release calendar

• Information about revisions

• All users have equal access to the data

• Access to microdata is allowed for research purposes
Data tables in Official statistical Portal

Electronic publications and press releases

Infographics
Users of Official Statistics

• State and municipal institutions and bodies
• Policymakers
• Business
• Researchers
• Mass media
• Students and schoolchildren
• International organizations
• Embassy
• Non-governmental organizations

Submission of migration statistics to users

• Social media
• Press conferences
• Meetings with data users
• Statistical literacy of the younger generation is constantly carried out (Lessons for schoolchildren are organized, during which general information about the main migration indicators is provided, scoreboards are demonstrated)
Monitoring of published information

- The quality, availability and consumer needs of statistical information are systematically assessed through surveys on the use of statistics and the opinions of users. This ensures continuous improvement of services, products and dissemination.

- Users are constantly informed about revisions of statistical indicators, errors noticed and corrected in the published information.
EXPERIMENTAL STATISTICS (statistics under development)

- Definition
- Data sources
- Metadata
- Method

Circular migrants

Circular emigrants
State Data Governance Program

- Operational statistics (Urgent need for daily data in face of illegal migration, war refugees of Ukraine)
- Open data
Operational statistics - War refugees from Ukraine

Registration place:
- Lithuania total
  - MD Alytus
  - MD Kaunas
  - MD Kaunas (Elektrenai)
  - MD Klaipėda
  - MD Marijampolė
  - MD Panevėžys
  - MD Panevėžys (Visaginas)
  - MD Šiauliai

Sorted by number of registrations
- 20,375: Registrations on center Vilnius
- 9,952: Registration center Kaunas
- 6,503: Registration center Klaipėda
- 5,948: Registration center Alytus
- 4,212: MD Vilnius
- 3,570: MD Klaipėda
- 2,854: MD Kaunas
- 2,636: MD Šiauliai
- 2,373: Registration center Šiauliai
- 1,699: MD Panevėžys

Data source:
MIGRS of Migration Department
Prepared by: Statistics Lithuania

Newest data: 10/21/2022
Updated daily at 9:30
Operational statistics - War refugees from Ukraine

Internal Dashboard

- Operational statistics
- War refugees from Ukraine
- Internal Dashboard
6 datasets on migration have been opened:

- Data on granting of asylum
- Data on granting the right to reside in the Republic of Lithuania
- Data on granting LT citizenship
- Data on return / removal / binding decisions
- Entry ban details
- Data on loss of citizenship
Conclusions

- With using State Data Government Information System and Statistical Population Register we could satisfy national and European user needs to produce operational, monthly, annual, more details International migration statistics.

- Statistical Population Register gives us opportunity to know each persons movements, history of vital events; produce more precise migration flows and other related statistics.
