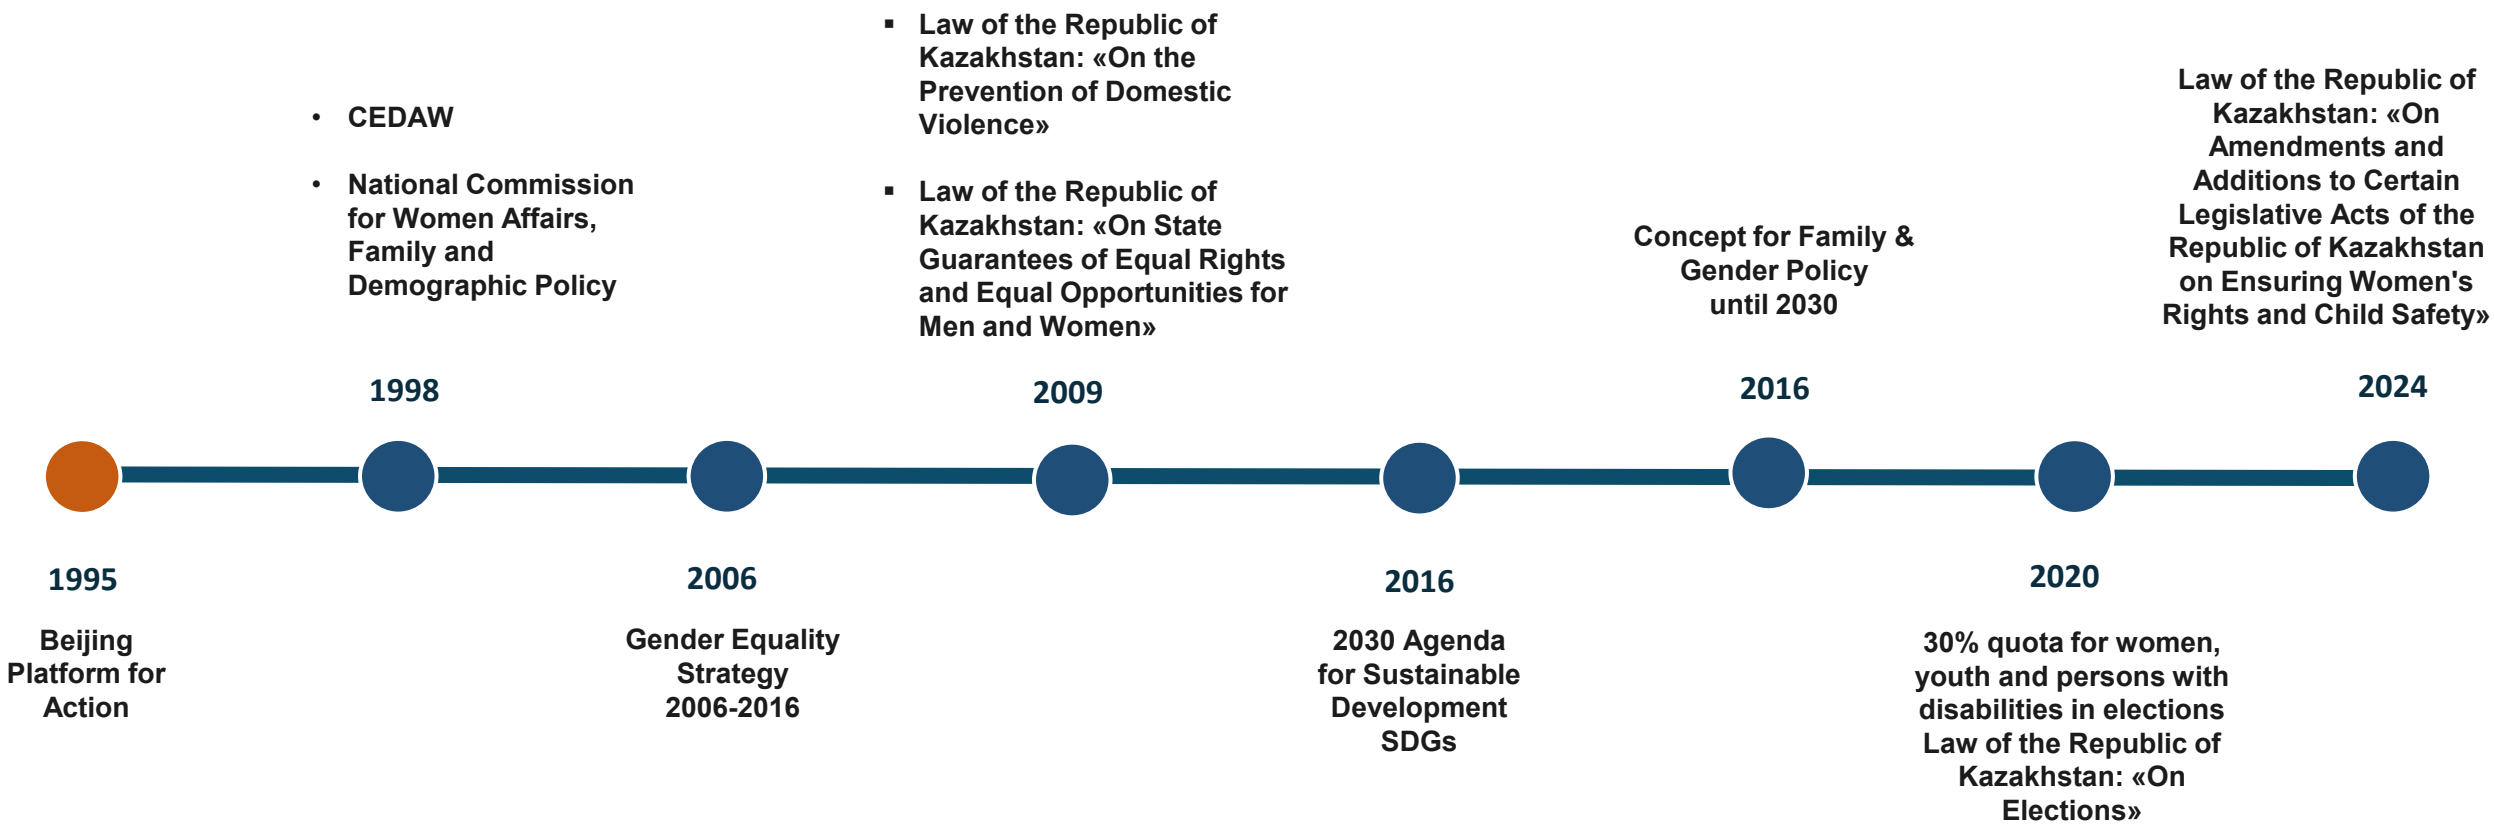
Gender Indicators and Sustainable Development Goals: Kazakhstan

Ainur Dossanova
Bureau of National Statistics
Agency for Strategic Planning and Reforms
of the Republic of Kazakhstan

CONTENTS

- Legal & Policy Framework for Gender Equality
- Premises for the Development of Gender Statistics
- National Gender Statistics Indicator System
- Key Surveys and Projects
- Dissemination of Gender Statistics
- SDG Implementation Architecture in Kazakhstan
- The Role of the Bureau in SDG Implementation and the SDG Indicator Adaptation Process
- National SDG Monitoring Indicator System
- SDG DATA DISSEMINATION
- Statistical Annex to the VNR 2025
- Key Takeaways

LEGAL & POLICY FRAMEWORK FOR GENDER EQUALITY

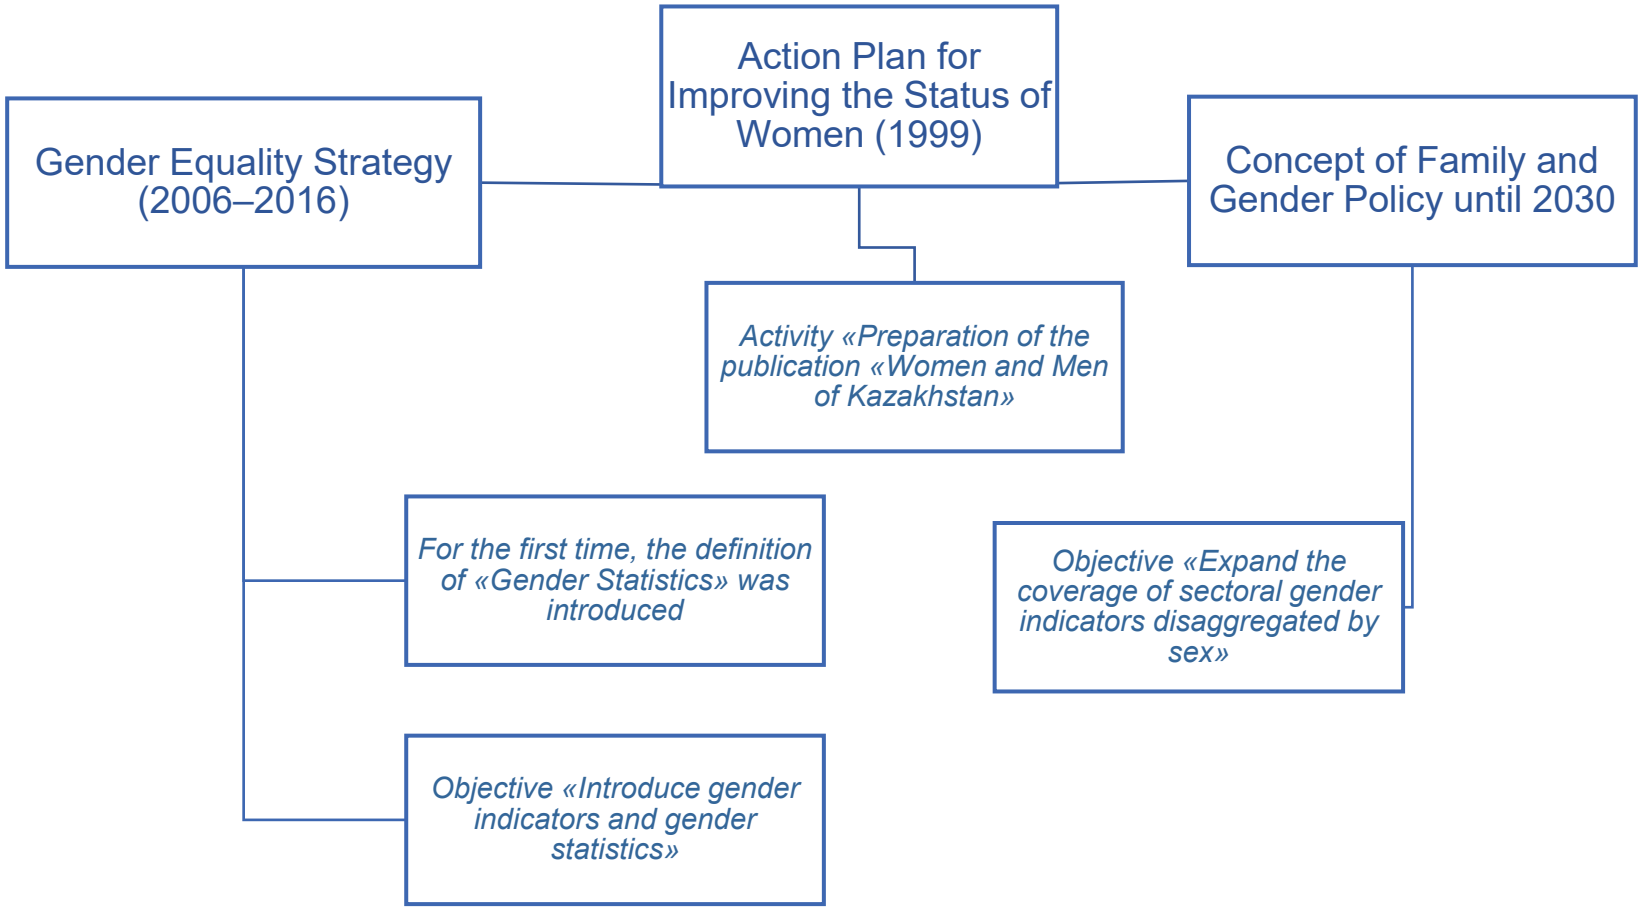


Kazakhstan has acceded *to more than **60 international treaties and agreements** in the fields of human rights and gender equality,* including all key international instruments aimed at promoting and protecting the rights and opportunities of women

PREMISES FOR THE DEVELOPMENT OF GENDER STATISTICS

One of the strategic objectives of the Beijing Platform for Action (1995) is the need to:

«*generate and disseminate sex-disaggregated data and information for planning and evaluation*»



SDG Target 17.18 also calls for:

«*Significantly increase the availability of high-quality, timely and reliable data disaggregated by income, **sex,** age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts*»

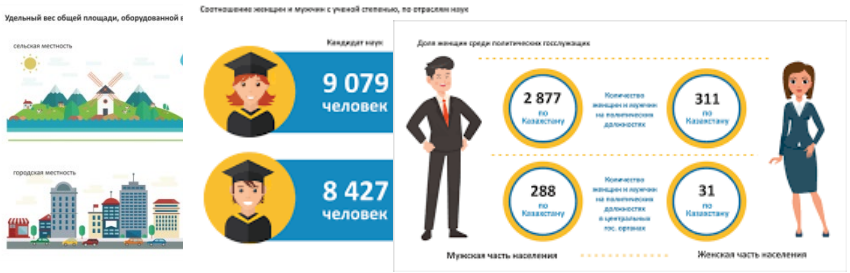
NATIONAL GENDER STATISTICS INDICATOR SYSTEM

- 2007 – Metadata for the Gender Equality Indicator System of the Republic of Kazakhstan

  Includes 61 indicators *grouped into* 8 thematic areas *of the Gender Equality Strategy of the Republic of Kazakhstan for 2006–2016*

- 2016 – Methodology for Developing the Gender Statistics Indicator System

  Includes 74 indicators *grouped into* 10 thematic areas.



1) *Overcoming poverty*
2) *Decent employment*
3) *Work–family balance*
4) *Education*
5) *Health*
6) *Public life and participation in decision-making*
7) *Women's and girls' rights*
8) *Social protection*
9) *Environmental protection*
10) *Access to ICT*

The indicators are compiled using statistical data (45%) and administrative data (55%)

The National Gender Statistics Indicator System is based on the UN Minimum Set of Gender Indicators

KEY SURVEYS AND PROJECTS

Regular Surveys:

- Household Living Standards Survey, *conducted quarterly since 2001.*
- Labour Force Survey, *conducted quarterly since 2001.*
- Time Use Survey, *conducted every five years since 2006.*
- ICT Usage Survey, *conducted annually since 2011.*
- Public Trust in Law Enforcement Survey, *conducted annually since 2016.*
- Multiple Indicator Cluster Survey, *conducted every five years since 2006.*
- Population and Agricultural Censuses, *conducted every ten years since 1999.*

Other Surveys:

- Survey on the Quality of Life of Persons with Disabilities, with a Focus on Gender Aspects, *2014 (The results were also published in Braille and as an audiobook)*
- Survey on Violence Against Women, *2015 and 2022.*
- Generation and Gender Survey, *2018.*
- Pilot Survey on the Gender Aspect in Micro, Small and Medium-Sized Enterprises, *2019/2020.*

Projects:

- Gender in Trade – *since 2023. (Results are published in the statistical publication «Women and Men of Kazakhstan»)*
- Gender Aspect in Mobile Positioning Data, *2025 (first experimental results)*
- NTTA Estimates, *2025 (first experimental results)*

DATA DISSEMINATION AND COMMUNICATION

Statistical Publication “Women and Men of Kazakhstan”

- First edition: 1999; latest edition: 2025
- Published annually in three languages (Kazakh, Russian and English)

Communication Channels

- Working groups, coordination and technical councils
- Round tables, conferences, meetings and working sessions
- Training seminars and workshops
- Requests and official correspondence

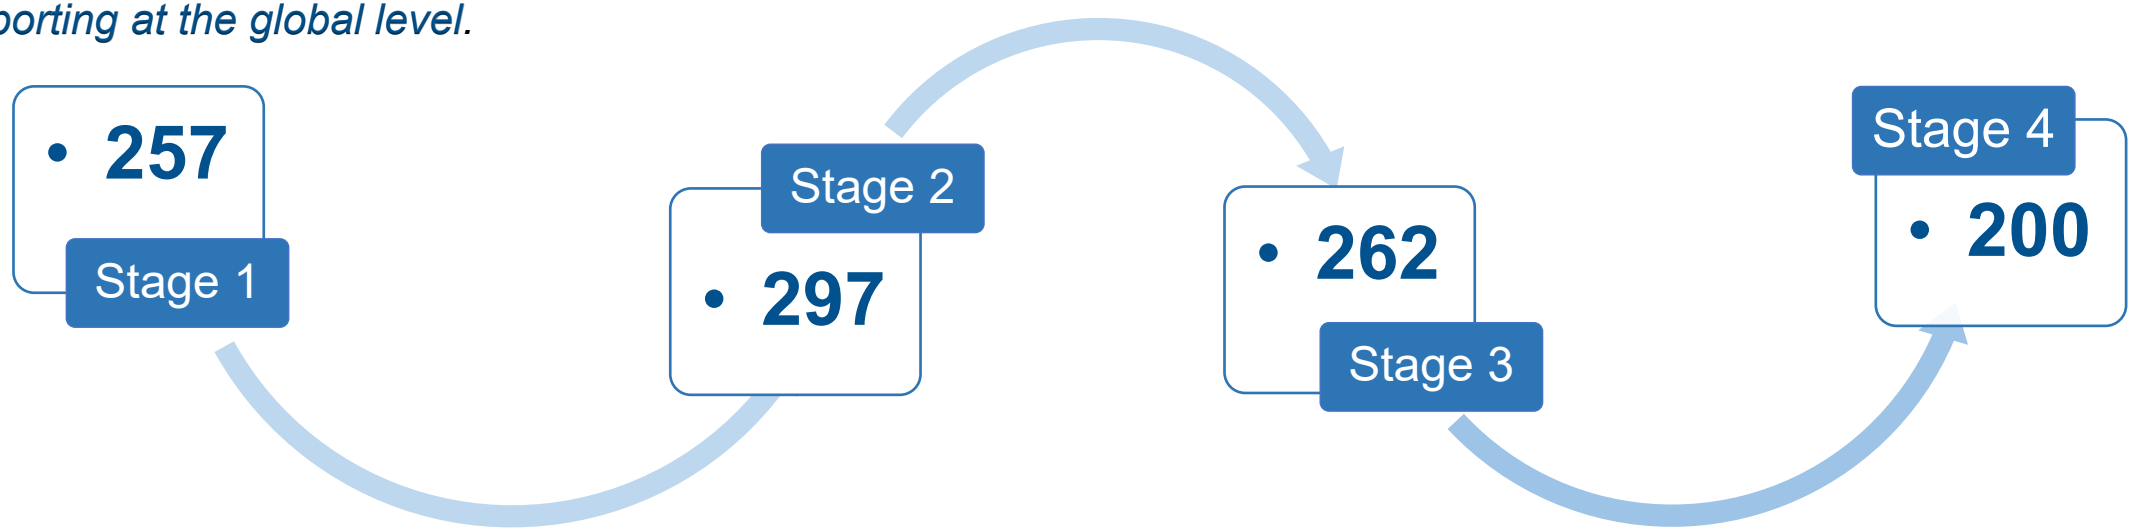
THE ROLE OF THE BUREAU IN SDG IMPLEMENTATION AND THE SDG INDICATOR ADAPTATION PROCESS

Since 2017, the Bureau has served as the national coordinator for all SDG indicators by:

- *conducting national consultations on SDG indicators;*
- *providing methodological support;*
- *collecting and disseminating data;*
- *reporting at the global level.*



2016-2017	2018-2019	2019-2022	2023-2025
• Assessment of the readiness of the statistical system • Inter-agency working group with stakeholders • First set of SDG indicators • First SDG Statistical Report	• Establishment of the SDG Coordination Council *(including the Bureau)* • Adaptation of global SDG indicators • First Voluntary National Review *(including the Statistical Annex)*	• Revision and approval of SDG indicators • National SDG Reporting Platform *(including SDMX)* • Metadata System • SDG Platform (SDP) implementation • Second Voluntary National Review	• Establishment of the Parliamentary Commission on SDG Monitoring • Update of the SDG indicator and metadata system • SDP implementation • Third Voluntary National Review

NATIONAL SDG MONITORING INDICATOR SYSTEM

LEAVE NO ONE BEHIND

Of the **200** national SDG indicators, **104** indicators (**52%**) include at least one level of disaggregation:

79 – by region
37 – by urban/rural area
32 – by sex
22 – by age
19 – by educational attainment
9 – by income level
2 – by ethnicity

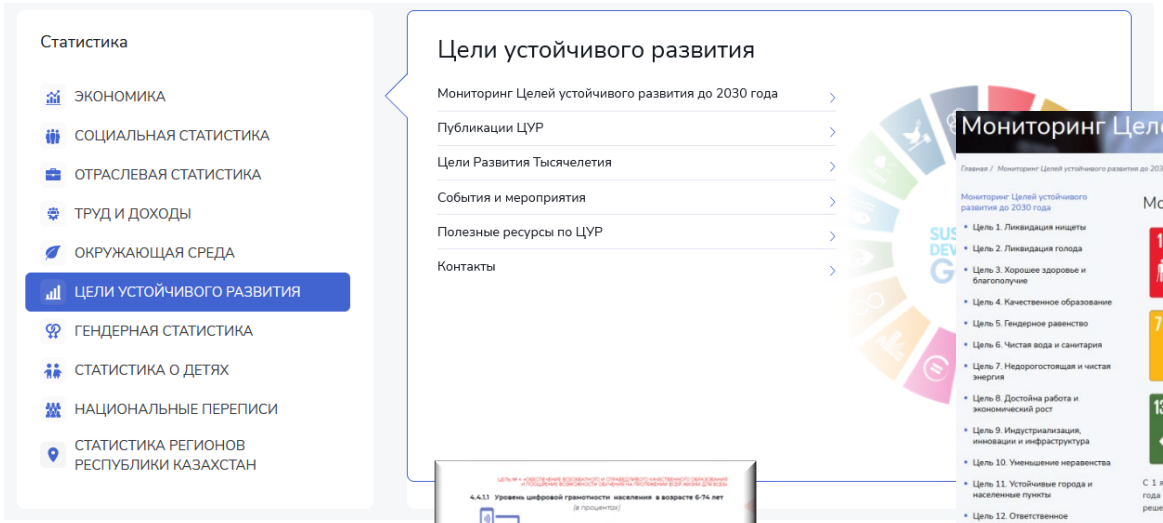
THE **69 most relevant** SDG INDICATORS **HAVE BEEN integrated into the Government Planning System** (STRATEGIC PLANNING DOCUMENTS)

Of the **53 gender-specific** SDG indicators, **43** indicators (**81.1%**) are **currently available**

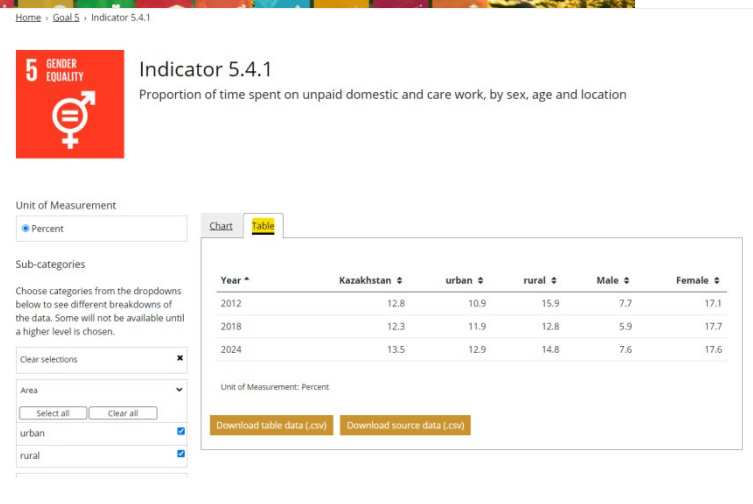
SDG Data Dissemination

Homepage of the Bureau of National Statistics Website

More detailed information on each indicator is available under the respective Sustainable Development Goal section. (https://stat.gov.kz/ru/sustainable-development-goals/goal/)



National SDG Reporting Platform



STATISTICAL ANNEX TO THE VNR 2025

- Published as **A STANDALONE STATISTICAL ANNEX** to VNR
- **ANALYSIS OF THE** most vulnerable population groups (**LNOB**) based on **MICS 2024 DATA**
- **DISAGGREGATED DATA TABLES FOR 8 PRIORITY SDGS**, presenting trends for 2015, 2018 and 2024

- *Boys* under the age of *five* living in *urban* areas are more likely *to be overweight*
- *Boys* aged *2-4* from *the poorest households* demonstrate *the lowest levels of Early Childhood Development Index (ECDI) outcomes*
- Young *women* aged *15-34* are more likely to have *unmet for family planning*
- *Women* aged *35-49* living in *rural* areas *are more likely to consider domestic violence* by a husband *acceptable* under certain circumstances

KEY TAKEAWAYS

- **UPDATE** the gender statistics indicator framework in line with the 2030 Agenda for Sustainable Development
- **MODERNIZE** the Gender Statistics section by incorporating advanced data visualization tools and artificial intelligence (AI)
- **EXPAND** the range of gender indicators by leveraging new data sources, including mobile data, banking transaction data, and so on
- **CONTINUE** monitoring progress towards the SDGs for the most vulnerable population groups through disaggregated data in line with the Leave No One Behind (LNOB) principle

THANK YOU FOR YOUR ATTENTION!
