Dissemination Channels of Gender Data

How BBS Shares Gender Data

- ✓ Statistical reports and publications
- ✓ Gender statistics compendium
- ✓ SDG Tracker Bangladesh
- ✓ BBS website and online databases
- ✓ Microdata laboratory
- ✓ Press releases and media briefings
- ✓ Policy briefs and analytical reports
- ✓ National and international conferences

Communication Strategy for Gender Data

BBS communicates gender statistics through:

- ❖ Data visualizations and infographics
- ❖ User-friendly publications
- ❖ Social media platforms
- ❖ Workshops and dissemination seminars
- ❖ Capacity-building programmes
- ❖ Collaboration with media and academia
- ❖ User-producer dialogue

Use of Gender Data in Policymaking

Evidence-Based Decision Making: Gender data are used for

- National Women's Development Policy
- Eighth Five-Year Plan/ Sectoral Plan
- SDG monitoring and reporting
- Labour market policies
- Social protection programmes
- Education and health planning
- Gender-responsive budgeting

Innovations in Gender Data Production & Dissemination

Digital Transformation: Recent initiatives include

- Interactive dashboards
- Geospatial mapping
- Microdata access facilities
- CAPI-based surveys
- Improved metadata documentation
- Data visualization tools

Valuation is the first step to making unpaid care work visible

A starting point for estimating the value of unpaid care work could emerge by asking what it would cost to purchase a comparable substitute for it

Unpaid domestic work is usually unmeasured, unvalued, and unseen in most economic policy studies. Photo: World Bank
