

# Supporting **Science-Policy Collaborations** to enhance evidence-based policymaking

*International Forum on Migration Statistics  
25 January 2023*

Dr Frederique Guerin, Programme Director, Geneva Science-Policy Interface

# The Geneva Science-Policy Interface

**Who** An independent platform managed by University of Geneva  
Supported by Swiss government

**Mission** Promoting effective engagement between research and global governance actors based in Geneva.

- evidence-based policymaking
- policy relevant research

**How** Broker collaborations - Develop capacities – Build practical knowledge

**ETH** zürich

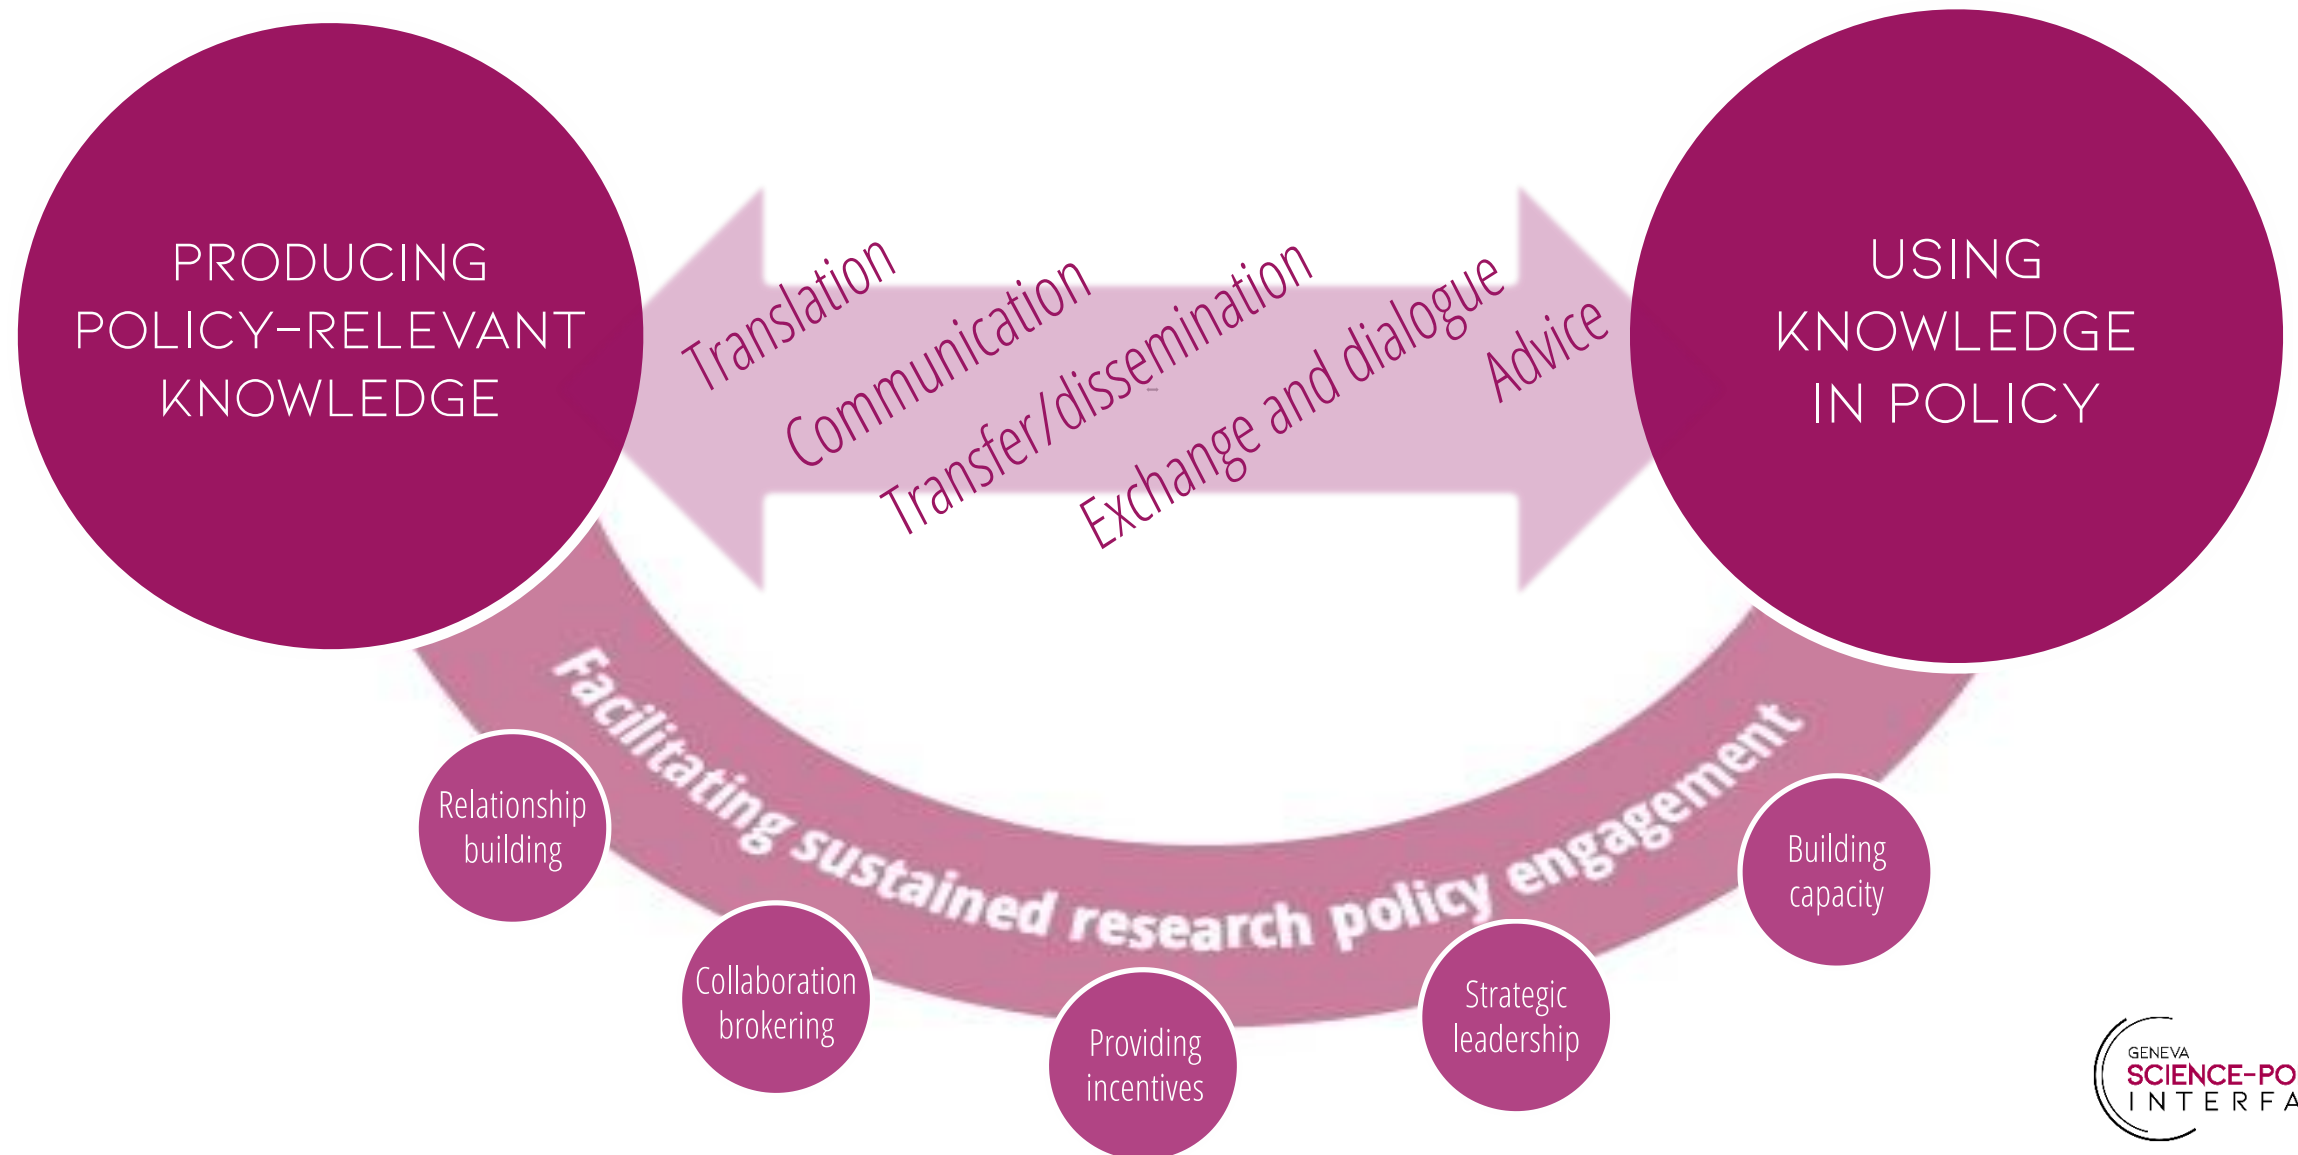

**EPFL**

« Now is the time to end the “infodemic” plaguing our world by defending a common, empirically backed consensus around facts, science and knowledge. The “war on science” must end. All policy decisions should be backed by science and expertise » . 2021

# EBPM – an ecology of service delivery

# IMPACT COLLABORATION PROGRAMME

## Open call: Impact Collaboration Programme 2023

📅 APPLY BY 12 FEBRUARY 2023

The Impact Collaboration Programme is our annual call for projects with the support of the [Swiss Federal Department of Foreign Affairs](#). It provides a unique funding instrument to spark, support and scale science-policy collaborations that strengthen science-informed policymaking and build policy-relevant research and tools in support of global governance actors based in [Geneva](#).

- Are you a scientist willing to engage with policy actors and channel your research towards policy needs?
- Are you an international policy professional looking to ground your work in scientific expertise?

Through an ICP project, you can develop creative ways to work together to ensure that the best available knowledge supports the design of solutions to the complex issues of our times, in a wide range of fields such as [health](#), [migration](#), [environment](#), peacebuilding and many others.

SEE ONGOING ICP PROJECTS

**Disruptive technologies and rights-based resilience [ICP 2021]**

This project aims to facilitate a multistakeholder consultative process to identify knowledge gaps, generate new evidence and co-design evidence-based tools to support regulatory and policy responses to human rights challenges linked to digital technologies.

# ICP Project - WMR digital toolkit for policy officials

« To maximize the utility and usage of **research** on migration for evidence-based policy-making through the development of an **innovative and integrative digital toolkit** tailored to policy officials' needs and constraints, building on IOM's flagship publication, the World Migration Report, and key migration resources».

# A relational process for an actionable outcome

- Consultative process
- Curating tailored digital tools
- Leadership
- Incentives
- Capacity-building

ABOUT THE TOOLKIT EXPLORE RESOURCES FOR POLICY WORLD MIGRATION REPORT

## RESOURCES FOR POLICY

Access a range of content designed to provide background information on key migration issues relevant to the World Migration Report. A selection of data snapshots, videos, presentations and links to background documentation are available to guide your policy research and exploration of the World Migration Report.

Note: The numbers/figures included in the videos below were the most recent at the time of their production. These numbers may have changed with the publication of new data.

### RELATED CONTENT

- Presentation Slides on Migration Issues
- Explainer Videos
- Video Presentations on Migration Issues
- Data Snapshots
- Key Findings from the World Migration Report since 2018
