INE Chile's Experience in the Communication and Dissemination of International Mobility and Migration Statistics

Sandra Quijada, National Director
National Statistics Institute (INE)
January 2023
Role of the National Statistics Institute (Law 17.374)

- **Gather Information**
- **Organize, Systematize, and Validate Information**
- **Statistical Secrecy**
- **Official Statistics**
- **Dissemination of Information**
- **Statistical Culture**
Statistics produced by INE on international movement and migration

Population and Housing Censuses

- Estimate of foreign residents in Chile
- Vital statistics (births to foreign mothers)
- 1st and 2nd Registration of Chileans Abroad
- Annual demographic bulletin of international movement of passengers

Administrative Records

- Stock and characterization of immigrants
- International return migrants
- Internal migration

Surveys

- Migrant employment (National Employment Survey)
- Public safety (ENUSC)
Inter-institutional meetings

In the framework of the Migration-Statistics Roundtable

• Present the current status of available data on international migration in Chile.

• Facilitate the identification of steps towards the production of official statistics on this subject at the national level.

• Meetings were held with at least 21 State services in November 2018, January 2019, and April 2019.

• Meetings were also held with experts from academia and international organizations such as ILO, IOM, UNDP, and CELADE.

• Regular meetings are held with the National Migration Service, the Ministry of Foreign Affairs, the Investigation Police, and the Civil Registration and Identification Service.

• An effort is being made to transform the Migration-Statistics Roundtable into a Subcommittee on Migration Statistics.
Participation in regional working groups, conferences, seminars

Regional and international forums are spaces for strengthening knowledge and cooperation, and we value our participation because we can learn good practices and share our own.
In 2022, there was an increase in visits and downloads of demographic content related to mobility and migration.

**Web page of demography and migration**

**Visits to the page of demography and migration**

- 2021: 26,496 visits
- 2022: 45,651 visits

**Total of downloads from the page**

- 2021: 8,533 downloads
- 2022: 15,526 downloads

Outreach to academia, civil-society organizations, and the general public

Public conference "International migration, evolution, data, and future challenges", whose objective was to bring statistics closer to the public.

The conference was a virtual event held on October 8, 2020.

163 people from various regions of Chile registered for the conference.

Presentation of the study "Estimate of Number of Foreign Residents in Chile as of December 31, 2019", at the express request of the National Federation of Migrants and Refugees of Chile (FENAMIR), held on November 23, 2022.

Nineteen participants from a wide range of migrant organizations representing different nationalities, among which were Colombians, Venezuelans, and Dominicans. The presentation was also live-streamed.
THANK YOU
