

**United Nations Statistics Division: Demographic Yearbook
Questionnaire on Population Estimates
Part 2: Metadata**

Reporting country: [Russian Federation](#)
Reporting year: 2021

1. Author organization

Author organization function: Statistical Office of the Republic of Serbia

2. Timeliness

Date when the provided population estimates were produced: 1 July 2021

Reference dates of the sources of the latest data used to derive these estimates:
Population census 2011, data on natural and mechanical movements for the period
2011-2019 and finally, data on vital statistics and migration during the year 2020

3. Periodicity

Calendar of the production of population estimates:

- produced annually
- after each census
- at the midpoint of intercensal period
- other, please specify:

4. Status of data

4.1 Type of estimation: intercensal, postcensal, other; please specify: intercensal

4.2 Data revision status: provisional, provisional revised, final, final revised, other;
please specify: final

5. Coverage

5.1 Please specify the time period covered by time series of the reported population
estimates: 2020

5.2 Please specify the territorial coverage of the time series of the reported
population estimates: national and municipality level

5.2.1 In case any areas of the country were not enumerated during the latest population census, are they considered in reported population estimates? Please describe as necessary:

In the municipalities of Presevo and Bujanovac, the decreased number in census units' coverage was recorded due to the boycott by the majority of Albanian national community. When making the population estimates on population number in these two municipalities, the basis is taken to be international expert team's estimation, regarding the number of usual resident population in the period of 2011 Census.

5.3 Type of population count employed for the reported population estimates:

- present population (de-facto)
- usually resident population
- registered population
- other; please specify:

5.4 Included or excluded population groups; please fill out the below tabulation:

In order to clarify the exact composition of the population for which estimates were given in this questionnaire, please indicate below the disposition of each group listed.

Population group	Included	Excluded	Not applicable
(a) Nomads and persons living in areas to which access is difficult	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(b) Civilian residents temporarily absent from the country	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(c) Civilian foreigners who do not cross a border daily and are in the country temporarily	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(d) Refugees, asylum seekers and internally displaced persons	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(e) Military, naval and diplomatic personnel and their families located outside the country	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(f) Foreign military, naval and diplomatic personnel and their families located in the country	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(g) Civilian foreigners who cross a border daily to work in the country	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(h) Civilian residents who cross a border daily to work in another country	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

(i) Merchant seafarers and fishers resident in the country but at sea at the time of the latest census	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(j) Homeless or roofless persons, and persons with no concept of usual residence	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(k) Persons living in buildings with restricted access	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(l) Stateless persons	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(m) Other; please specify	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

6. Primary data source (base data)

6.1 Type of base data:

- (1) Continuous population register
- (2) Complete census taken 30 september 2011 (date)
- i) population actually enumerated
- ii) population adjusted to take account of [] % underenumeration
- (3) Sample survey taken [] (date)
- (4) Partial census taken or partial registration [] (date)
- Please describe method:
- (5) Non-censal count of [] (date)
- Please describe method:
- (6) Conjectural estimate derived by means other than counting
- Please describe method:

6.2 Territorial coverage of base data, please specify: LAU and NUTS levels

6.3 Type of population count employed in base data:

- present population (de facto)
- usually resident population
- registered population
- other, please specify:

7. Method of producing the reported population estimates

7.1 Total population

Estimates of total population of a country may be constructed using several methods. Please indicate by a check mark the method used in constructing the reported population estimates.

7.1.1 Method of time adjustment

- (1) Population estimates are sourced annually from a population register
- (2) Applying statistics of births and deaths (natural increase), and migration
 - (i) Registered vital statistics
 - (ii) Vital statistics adjusted for incompleteness
- (3) Applying statistics of births and deaths (natural increase), but no account taken of migration
 - (i) Registered vital statistics
 - (ii) Vital statistics adjusted for incompleteness
- (4) Applying an assumed rate of increase, based on:
 - (i) Assumption with respect to mortality, fertility, migration
 - (ii) Assumption with respect to mortality, fertility, but no account taken of migration
 - (iii) Other assumed rate

Please provide the rate used, and describe how it was obtained:

- (5) No time adjustment (base figure held constant)

- (6) Other; please explain:

Applying statistics of births and deaths (natural increase), and internal migration for the estimate on municipality level which imply that the net migration for the national level is zero. International migration data are not included.

7.2 Population by age and sex

Estimates of population by age and sex are assumed to be constructed on the same base data as are the total population estimates. However, certain additional factors may

affect age distributions estimated from census enumerations or from sample surveys. Please indicate below the adjustment(s) made in the basic age distribution used to construct the reported population estimates by age and sex.

7.2.1 Adjustments in base data

- (1) No adjustments – the calculations are based on population actually enumerated at various ages or estimated from survey results.
- (2) Enumerated population or population estimated from survey results adjusted to take account of under enumeration at various ages. Please describe as necessary the methods of adjustment.
- (3) Base age distribution is "smoothed", i.e., adjusted to remove effects of digit preference in age reporting. Please describe as necessary the methods of smoothing.

7.2.2 Method of time adjustment

Please indicate below the method used in constructing the age-sex distribution of the reported population estimates by age and sex.

- (1) Population estimates by age and sex are sourced annually from a population register
- (2) Applying actual or assumed natural increase and migration
- (3) Applying actual or assumed natural increase alone
- (4) Distributing the total estimate according to percentage of population in each age-sex group at time of census or sample survey
- (5) Use of the cohort-components method to produce population estimates by age and sex
- (6) Innovative methods that use registers and administrative data. Please describe as necessary:
- (7) By other means, please describe:

7.2.3 Disposition of unknown age

Please indicate below whether, in the preparation of the population estimates by age and sex:

- (1) An age has been assigned to persons for whom age did not appear in the census or sample survey.

(2) Frequency in unknown age category has been distributed proportionately among known ages.

(3) The frequency of unknown age appearing in the census or survey was zero.

(4) Other treatment for unknown age category.

7.3 Urban and rural population, and the population of cities

Please indicate below the method used in making intercensal or postcensal estimates of urban, rural, and of city population.

	Urban/rural population	City population
(1) Continuous population registers	<input type="checkbox"/>	<input type="checkbox"/>
(2) Surveys, other than a census	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(3) Extrapolation of percentage	<input type="checkbox"/>	<input type="checkbox"/>
(4) Observed rate of growth, assumed to continue	<input type="checkbox"/>	<input type="checkbox"/>
(5) By other means; please describe:	<input type="checkbox"/>	<input type="checkbox"/>

8. Bibliography of Demographic Statistics

Please list publications that contain results of your latest population census or survey, and current statistics on population estimates:

[Demographic yearbook 2020, Republic of Serbia](#)
